Global Industrial 3 Shelf Stainless Steel Utility Cart Instruction Manual

Model: B07QCVPF7K

PRODUCT OVERVIEW

This manual provides detailed instructions for the assembly, operation, and maintenance of your Global Industrial 3 Shelf Stainless Steel Utility Cart. Designed for durability and ease of use, this cart is ideal for various utility applications, offering robust storage and transport capabilities.

Key Features:

- Durable stainless steel construction.
- Three spacious shelves for ample storage.
- Equipped with 3-1/2 inch rubber swivel casters for easy mobility.
- Total weight capacity of 300 lbs.

ASSEMBLY INSTRUCTIONS

Assembly is required for this utility cart. Please follow these steps carefully to ensure proper and safe construction.

- 1. Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the parts list (not provided in this document, refer to packaging) are present and undamaged.
- 2. Attach Casters:** Secure the four swivel casters to the bottom of the cart frame using the provided hardware. Ensure they are tightly fastened for stability.
- 3. Install Shelves:** Position the shelves between the vertical support posts. Secure each shelf to the posts using the appropriate screws and nuts. Ensure all shelves are level and firmly attached.
- 4. Attach Handle:** Fasten the handle to one end of the cart frame using the designated hardware. Confirm the handle is securely mounted for safe maneuvering.
- 5. Final Check:** Before use, inspect all connections to ensure they are tight and secure. The cart should be stable and all wheels should swivel freely.

OPERATING INSTRUCTIONS

To ensure safe and efficient use of your utility cart, please observe the following guidelines:

- **Load Capacity:** Do not exceed the maximum weight capacity of 300 lbs. Distribute weight evenly across the shelves to maintain stability.
- **Maneuvering:** Use the handle to push or pull the cart. The swivel casters allow for easy navigation in various directions.
- **Surface Use:** Operate the cart on flat, stable surfaces. Avoid uneven terrain or steep inclines to prevent tipping.
- **Secure Items:** Ensure all items placed on the shelves are stable and will not shift or fall during transport.

MAINTENANCE

Regular maintenance will prolong the life and performance of your utility cart.

- **Cleaning:** Wipe down stainless steel surfaces with a soft cloth and a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive pads that can scratch the finish.
- **Caster Care:** Periodically check the casters for debris (e.g., hair, string) that may impede movement. Clean as necessary. Lubricate swivel mechanisms if they become stiff.
- **Hardware Inspection:** Regularly inspect all screws, bolts, and fasteners to ensure they remain tight. Tighten any loose hardware to maintain structural integrity.
- **Storage:** Store the cart in a dry environment to prevent potential corrosion, although stainless steel is highly resistant.

TROUBLESHOOTING

If you encounter issues with your utility cart, refer to these common solutions:

- **Cart is Wobbly:** Check all assembly hardware, especially where the shelves attach to the posts and the casters to the frame. Tighten any loose connections. Ensure the cart is on a level surface.
- **Casters Not Rolling Smoothly:** Inspect casters for trapped debris (e.g., lint, hair). Clean them thoroughly. If still stiff, apply a small amount of lubricant to the swivel and axle points.
- **Difficulty Steering:** Ensure all swivel casters are oriented correctly and not locked (if applicable). Check for obstructions or damage to the casters.

SPECIFICATIONS

Detailed specifications for the Global Industrial 3 Shelf Stainless Steel Utility Cart:

Feature	Detail
Product Dimensions (D x W x H)	30.75" x 18.38" x 33"
Brand	Global Industrial
Material	Alloy Steel, Rubber, Stainless Steel
Color	Stainless Steel
Special Feature	Durable
Recommended Uses	Utility
Number of Shelves	3
Number of Wheels	4
Weight Capacity Maximum	300 Pounds
Caster Type	Swivel
Item Weight	17 Pounds
Required Assembly	Yes
