3. Using the Scalp Massager Heads

Attach either the silicone or plated massage head. Gently apply the vibrating head to your scalp. Move it in small circles or back and forth motions. The silicone head provides a softer massage, while the plated head offers a more intense experience.

4. Using the Facial Cleansing Brush Head

Attach the facial cleansing brush head. Dampen your face and apply your preferred facial cleanser. Gently move the brush in circular motions across your face. The sonic vibration helps to remove impurities, excess oil, and makeup residues.

Osilation Cleansing Mode

Compared to rotating cleansing, it has less friction to facial skin

MAINTENANCE

Cleaning the Device and Heads

- After each use, detach the massage or cleansing head.
- Rinse the heads under running water. For the facial cleansing brush, you may use a mild soap.
- Wipe the main body of the device with a soft, damp cloth. Do not submerge the main body in water.
- Ensure all parts are completely dry before reattaching or storing.

Storage

- Store the device and its accessories in a cool, dry place, away from direct sunlight.
- If the device will not be used for an extended period, remove the AA batteries to prevent leakage.

TROUBLESHOOTING

Device Not Turning On:

- **Check Batteries:** Ensure 2 AA batteries are correctly installed with the proper polarity. Replace with new batteries if necessary.
- **Battery Cover:** Make sure the battery cover is securely closed.

Weak Vibration:

- **Battery Level:** The batteries may be low. Replace them with fresh AA batteries.
- **Intensity Setting:** Adjust the vibration intensity by long-pressing the power button until the desired strength is achieved.

Heads Not Attaching Securely:

- **Alignment:** Ensure the head is correctly aligned with the device's connector before pushing.
- **Obstruction:** Check for any debris or obstruction in the connection area.
