5. INSTALLATION INSTRUCTIONS

Follow these steps to install and remove your Sekey Parasol Cover:

1. **Prepare the Parasol:** Ensure your parasol is closed and secured before attempting to install the cover.
2. **Use the Telescopic Rod:** Extend the included 1-meter telescopic rod. Insert the rod into the loop at the top of the cover.
3. **Place the Cover:** Using the telescopic rod, lift the cover and guide it over the top of the closed parasol. Carefully lower the cover until it fully encloses the parasol. The telescopic rod allows for easy placement without needing a ladder.
4. **Secure the Cover:** Once the cover is in place, pull the drawstring at the bottom to tighten it around the base of the parasol. This ensures a snug fit and prevents the cover from being blown off by wind.
5. **Removal:** To remove, loosen the drawstring, use the telescopic rod to lift the cover off the parasol, and fold it for storage.

7. CARE AND MAINTENANCE

Proper care will ensure the longevity and effectiveness of your parasol cover:

- **Cleaning:** The cover is designed for **dry clean only**. Do not machine wash, tumble dry, or iron. For minor dirt, gently wipe with a damp cloth and mild soap, then air dry completely.
- **Storage:** When not in use, ensure the cover is clean and completely dry before folding and storing it in a cool, dry place away from direct sunlight.
- **Regular Inspection:** Periodically check the cover for any signs of wear, tears, or damage. Address any issues promptly to maintain optimal protection.

8. TROUBLESHOOTING

If you encounter any issues with your Sekey Parasol Cover, consider the following:

- **Cover does not fit:** Double-check your parasol's dimensions against the cover's specifications. Ensure the parasol is fully closed before attempting to install the cover.
- **Cover blows off in wind:** Ensure the drawstring at the bottom is pulled tight and securely fastened. The ventilation openings are designed to reduce wind lofting, but a tight fit is crucial.
- **Water pooling on top:** Ensure the cover is installed correctly and taut. While waterproof, prolonged pooling of water can stress the fabric.
- **Missing parts (e.g., telescopic rod):** Refer to the 'Package Contents' section. If any parts are missing upon arrival, please contact customer support immediately.
