Lavazza Blue Caffe Crema Coffee Capsules User Manual

Your guide to enjoying the perfect espresso.

[Overview](#) [Setup](#) [Operation](#) [Introduction](#) [Product](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

Welcome to the user manual for Lavazza Blue Caffe Crema Coffee Capsules. These capsules are designed to deliver a rich and aromatic espresso experience, crafted from 100% Arabica beans. This manual provides essential information on how to properly use and care for your coffee capsules to ensure optimal taste and performance with compatible Lavazza Blue machines.

2. PRODUCT OVERVIEW

The Lavazza Blue Caffe Crema capsules offer a sweet blend with aromatic notes of biscuits and jasmine, providing a smooth and creamy espresso. Each capsule contains finely ground 100% Arabica coffee, sealed for freshness.

Figure 2.1: A single Lavazza Blue Caffè Crema coffee capsule, featuring the Lavazza logo and "Caffè Crema" text on a blue label, set against a yellow top and black base.

Figure 2.2: Two Lavazza Blue Caffe Crema coffee capsules, one upright and one on its side, showcasing the design and packaging.

These capsules are specifically designed for use with Lavazza Blue coffee machines, including the Classy Plus and Classy Mini models. They are not compatible with other coffee systems.

LAVAZZA BLUE MACHINE

Figure 2.3: An icon indicating compatibility with Lavazza Blue machines, featuring a stylized coffee machine and cup.

The blend is characterized by a medium-bodied intensity and a medium roast, delivering a balanced flavor profile. The coffee contains only coffee and is produced in facilities exclusively dedicated to coffee production.

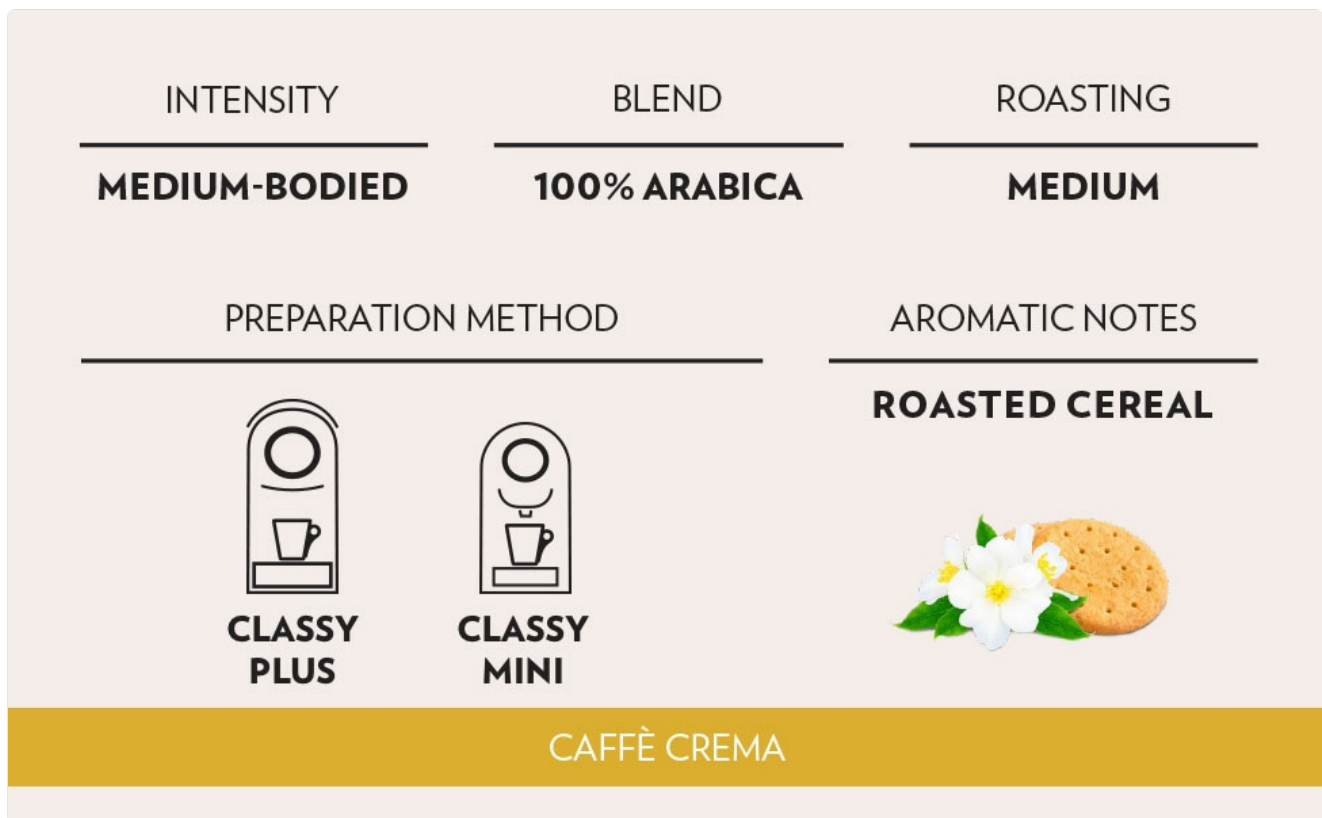

Figure 2.4: Visual representation of the coffee's characteristics: Medium-bodied intensity, 100% Arabica blend, Medium roasting, compatible with Classy Plus and Classy Mini machines, and aromatic notes of roasted cereal, biscotti, and jasmine.

3. SETUP

Before using your Lavazza Blue Caffè Crema capsules, ensure your Lavazza Blue coffee machine is properly set up and ready for operation. Refer to your coffee machine's specific user manual for detailed setup instructions, including water reservoir filling and initial priming.

3.1 Capsule Insertion

1. Open the capsule compartment of your Lavazza Blue coffee machine.
2. Insert one Lavazza Blue Caffè Crema capsule into the designated slot. Ensure it is seated correctly.
3. Close the capsule compartment securely.

4. OPERATING INSTRUCTIONS

Once the capsule is inserted and the machine is ready, you can brew your espresso.

4.1 Brewing Espresso

1. Place an espresso cup or mug on the drip tray beneath the coffee dispenser.
2. Select your desired coffee size (e.g., Espresso or Lungo) on your Lavazza Blue machine. The Caffè Crema blend is ideal for espresso preparation.
3. Press the corresponding brew button. The machine will begin extracting the coffee.
4. Wait for the brewing process to complete. The machine will stop automatically.
5. Carefully remove your cup. The used capsule will typically be ejected into an internal container.

For best results, ensure your machine is preheated before brewing.

5. MAINTENANCE

Proper storage and handling of your coffee capsules, along with regular machine maintenance, will ensure the longevity of your product and the quality of your coffee.

5.1 Capsule Storage

- Store Lavazza Blue Caffe Crema capsules in a cool, dry place, away from direct sunlight and strong odors.
- Keep capsules in their original packaging until ready for use to maintain freshness.
- Check the expiration date (formatted as DD/MM/YY) on the packaging to ensure optimal quality.

5.2 Machine Cleaning

Regularly clean your Lavazza Blue coffee machine according to its specific manual. This typically includes:

- Emptying and cleaning the used capsule container.
- Cleaning the drip tray.
- Wiping down the exterior of the machine.
- Descaling the machine periodically as recommended by the manufacturer.

6. TROUBLESHOOTING

If you encounter issues while using your Lavazza Blue Caffe Crema capsules, consider the following common solutions:

Problem	Possible Cause	Solution
No coffee dispenses.	No water in reservoir, capsule not inserted correctly, machine not preheated.	Fill water reservoir, re-insert capsule, allow machine to preheat.
Coffee tastes weak or watery.	Incorrect brew setting (e.g., Lungo selected for espresso), old capsule, machine needs descaling.	Select Espresso setting, check capsule expiration date, descale machine.
Capsule not ejecting.	Mechanism jam, machine error.	Gently check for obstructions. If issue persists, consult machine manual or Lavazza support.

For machine-specific issues, always refer to your Lavazza Blue coffee machine's instruction manual or contact Lavazza customer support.

7. SPECIFICATIONS
