SETUP GUIDE

1. Choosing the Right Size

This car cover is designed for sedans with a length ranging from 177 inches to 194 inches (4.5 to 4.9 meters). It is suitable for various sedan models, including but not limited to Audi A4/A5/A6, BMW 5 Series/6 Series, Cadillac CT4, Dodge Avenger, Ford Fusion, Honda Accord/Civic, Kia Forte, Nissan Altima/Versa, and Volvo V40.

To ensure the best fit, measure your vehicle's length, width, and height before purchasing. The cover should be approximately 4 inches (10 cm) longer than the actual length of your vehicle for optimal coverage.

2. Preparing Your Vehicle

Before applying the car cover, ensure your vehicle is clean and dry. Any dirt, dust, or moisture trapped between the cover and the car's surface can potentially scratch the paint or lead to mildew formation.

3. Installing the Car Cover

1. Unfold the car cover and identify the front and rear ends. The front typically has the longer reflective stripe and mirror pockets positioned towards the front of the vehicle.
2. Carefully drape the cover over your vehicle, starting from the front bumper and working your way towards the rear. Ensure the mirror pockets align with your side mirrors.
3. Adjust the elasticated hem around the bottom edges of the vehicle for a snug fit.
4. Secure the cover using the provided windproof straps. Attach the 2 long windproof straps across the vehicle, typically under the front and rear sections, and connect the 4 shorter tie-down straps to the wheels or undercarriage to prevent the cover from being lifted by strong winds.

OPERATING INSTRUCTIONS

Accessing Your Vehicle

The Favoto Sedan Car Cover features a convenient driver door zipper. To access your vehicle without removing the entire cover:

1. Locate the zipper on the driver's side of the car cover.
2. Unzip the section to create an opening.
3. Enter or exit your vehicle as needed.
4. Once done, zip the cover back up to maintain full protection.

MAINTENANCE

Cleaning the Car Cover

To maintain the effectiveness and appearance of your Favoto car cover, follow these cleaning guidelines:

- For light dirt or dust, simply shake off the cover or use a soft brush to remove debris.
- For more stubborn stains, hand wash the cover with mild soap and cool water. Avoid using harsh detergents, bleach, or fabric softeners, as these can damage the material.
- Rinse thoroughly to remove all soap residue.
- Allow the cover to air dry completely before folding and storing it. Do not machine wash or tumble dry.

Storage

When not in use, fold the car cover neatly and store it in the provided storage bag. Store in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cover blows off in wind.	Straps not secured or not tight enough.	Ensure all 6 windproof straps (2 long, 4 short) are properly fastened and tightened. Check that the elasticated hem is snug around the vehicle.
Water accumulation on cover.	Cover not taut, allowing water to pool.	Adjust the cover to ensure it is stretched smoothly over the vehicle, allowing water to run off. Ensure proper fit for your vehicle size.
Scratches on vehicle paint after cover use.	Vehicle was not clean before covering; debris trapped underneath.	Always ensure your vehicle is clean and free of dirt, dust, and abrasive particles before applying the cover. Clean the inside of the cover periodically.

Problem	Possible Cause	Solution
Cover does not fit properly.	Incorrect size selected for the vehicle type/length.	Verify your vehicle's dimensions against the recommended size range (177-194 inches for sedans). Contact customer support if you believe you have the wrong size.
