

DURGOD DURGOD K320

DURGOD Taurus K320 TKL Mechanical Gaming Keyboard User Manual

Model: DURGOD K320 | Brand: DURGOD

INTRODUCTION

Thank you for choosing the DURGOD Taurus K320 TKL Mechanical Gaming Keyboard. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your new keyboard. The K320 is an 87-key tenkeyless keyboard featuring double-shot PBT keycaps, NKRO (N-Key Rollover), and a USB Type-C connection, equipped with Cherry Speed Silver switches for a responsive typing and gaming experience.

WHAT'S IN THE BOX

Your DURGOD Taurus K320 package should contain the following items:

- DURGOD Taurus K320 TKL Mechanical Gaming Keyboard
- Type-C to Type-C USB Cable (3.3FT / 1M)
- Type-C to Type-A USB Cable (5.9FT / 1.8M)
- Dust Cover
- Keycap Puller
- Logo Sticker

SETUP

Follow these steps to set up your DURGOD Taurus K320 keyboard:

1. **Connect the Cable:** Choose either the Type-C to Type-C or Type-C to Type-A USB cable provided. Connect the Type-C end to the port on the back of the keyboard.
2. **Connect to Computer:** Connect the other end of the USB cable to an available USB port on your computer.
3. **Cable Management:** The keyboard features a sturdy case with integrated cable routing channels on the underside, allowing you to route the cable to the left, right, or center for a tidy desk setup.
4. **Adjust Feet:** Utilize the adjustable feet on the bottom of the keyboard to set your preferred typing angle. There are two positions available for ergonomic comfort.

OPERATING INSTRUCTIONS

The DURGOD Taurus K320 keyboard offers various functions accessible via the Function (Fn) key combinations. It is compatible with Windows 10, 8, 7, Vista, XP, and Mac OS. For Mac OS, some key remapping might be necessary through the software.

Function Key Combinations:

Combination	Function
Fn + F1	Play/Pause Media
Fn + F2	Stop Media
Fn + F3	Previous Track

Combination	Function
Fn + F4	Next Track
Fn + F5	Mute Volume
Fn + F6	Volume Down
Fn + F7	Volume Up
Fn + F12	Switch Customize Profile
Fn + Win	Windows Key Lock

FN+F1: Play/Pause

FN+F2: Stop

FN+F3: Prev Track

FN+F4: Next Track

FN+F5: Mute

FN+F6: Volume Down

FN+F7: Volume Up

FN+F12: Switch Customize Profile

FN+左Win: Windows Key Lock

DURGOD Zeus Engine Software:

The keyboard supports the DURGOD Zeus Engine software. This software allows you to:

- Upgrade keyboard firmware.
- Set up complex macros.
- Rebind keys as desired.

Please visit the official DURGOD website for the latest version of the Zeus Engine software and detailed instructions on its use.

MAINTENANCE

Proper maintenance will extend the lifespan and performance of your DURGOD Taurus K320 keyboard:

- **Regular Cleaning:** Regularly clean the keyboard to prevent dust accumulation and key jamming. Use a soft brush or compressed air to remove debris between keycaps.
- **Keycap Cleaning:** The PBT keycaps are durable. For deeper cleaning, you can use the provided keycap puller to remove them and clean with a damp cloth and mild soap, ensuring they are completely dry before reattaching.
- **Avoid Liquids:** Do not splash liquids into the keyboard. In case of accidental spills, immediately disconnect the keyboard and allow it to dry completely before reconnecting.
- **Avoid Excessive Force:** Do not apply excessive force to the keys or the keyboard body to prevent damage or deformation.
- **Storage:** When not in use, store the keyboard in a cool, dry place, away from direct sunlight. The included dust cover can help protect it.

TROUBLESHOOTING

If you encounter issues with your DURGOD Taurus K320 keyboard, try the following troubleshooting steps:

- **Keyboard Not Responding:**
 - Ensure the USB cable is securely connected to both the keyboard and the computer.
 - Try connecting the keyboard to a different USB port on your computer.
 - Test with the other provided USB cable (Type-C to Type-A or Type-C to Type-C).
 - Restart your computer.
- **Keys Not Registering or Double-Typing:**
 - Clean around the affected keycaps to remove any debris that might be obstructing the switch.
 - If using Cherry Speed Silver switches, note their high sensitivity. Ensure you are not accidentally resting fingers on keys, causing unintended inputs.
 - Update the keyboard firmware using the DURGOD Zeus Engine software.
- **Software Issues (Zeus Engine):**
 - Ensure you have downloaded the correct and latest version of the software from the official DURGOD website.
 - Run the software as an administrator.
 - Temporarily disable any antivirus or firewall software that might be interfering with the Zeus Engine.
- **Windows Key Locked:**
 - Press **Fn + Win** to toggle the Windows key lock feature.

If the issue persists after trying these steps, please contact DURGOD customer support for further assistance.

SAFETY WARNINGS

Please read and adhere to the following safety warnings to ensure safe operation and longevity of your keyboard:

- **Avoid Direct Sunlight:** Do not place the keyboard in locations exposed to direct sunlight, as this can cause material degradation or discoloration.
- **Regular Cleaning:** Regularly clean the keyboard to prevent dust accumulation or key jamming.
- **Handle with Care:** Do not apply excessive force to avoid damaging the keys or deforming the keyboard.
- **Liquid Exposure:** Avoid splashing liquids into the keyboard. Liquids can cause short circuits and permanent damage.
