## Senville Smart WiFi Kit USB

# Senville Smart WiFi Kit USB for Mini Split Air Conditioners User Manual

Model: Smart WiFi Kit USB

## INTRODUCTION

---

The Senville Smart WiFi Kit USB enables remote control and programming of your compatible Senville mini split air conditioner using an iOS or Android application. This kit enhances the functionality of your mini split system, allowing for convenient management of climate settings from any location with internet access.

## SETUP

---

### 1. Kit Contents

Verify that your package contains the Senville Smart WiFi Kit USB adapter.

### 3. Mobile Application Download and Pairing

1. Download the official Senville app from the Apple App Store (for iOS devices) or Google Play Store (for Android devices). Search for "Senville".
2. Open the Senville app and follow the on-screen instructions to create an account and add your device.
3. Ensure your mobile device is connected to a 2.4 GHz Wi-Fi network during the pairing process. The Senville Smart WiFi Kit USB requires a 2.4 GHz Wi-Fi connection.
4. The app will guide you through connecting the WiFi kit to your home network. This typically involves selecting your Wi-Fi network and entering the password.

## MAINTENANCE

The Senville Smart WiFi Kit USB requires minimal maintenance. To ensure optimal performance:

- **Software Updates:** Regularly check for and install updates for the Senville mobile application to benefit from new features and performance improvements.
- **Wi-Fi Connection:** Ensure your home Wi-Fi network remains stable and provides adequate signal strength to the mini split unit where the USB kit is installed.
- **Physical Inspection:** Periodically check that the USB adapter is securely plugged into the mini split unit.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
<b>Device Offline in App</b>	No Wi-Fi connection, incorrect Wi-Fi password, or app permissions issue.	<ul style="list-style-type: none"> <li>• Ensure your home Wi-Fi network (2.4 GHz) is active and the signal is strong.</li> <li>• Verify the Wi-Fi password entered during setup is correct.</li> <li>• Check your phone's settings to ensure the Senville app has necessary permissions (e.g., Location, Wi-Fi access).</li> <li>• Restart your Wi-Fi router and the mini split unit.</li> <li>• Attempt to re-pair the device through the app's setup process.</li> </ul>
<b>App Not Responding</b>	Outdated app version, temporary software glitch, or insufficient phone resources.	<ul style="list-style-type: none"> <li>• Update the Senville app to the latest version from your app store.</li> <li>• Close and reopen the app.</li> <li>• Restart your mobile device.</li> </ul>

Problem	Possible Cause	Solution
<b>Cannot Connect to Wi-Fi during Setup</b>	Incorrect Wi-Fi band (5 GHz instead of 2.4 GHz), weak signal, or network interference.	<ul style="list-style-type: none"><li>• Confirm your mobile device is connected to a 2.4 GHz Wi-Fi network.</li><li>• Move closer to your Wi-Fi router.</li><li>• Temporarily disable 5 GHz Wi-Fi on your router if possible, or ensure your 2.4 GHz network has a distinct name.</li></ul>
