Jada 30722

Jada Hyperchargers 1:16 2015 Dodge Charger SRT Hellcat RC Car Instruction Manual

1. Introduction

This manual provides essential instructions for the safe and proper operation, setup, and maintenance of your Jada Hyperchargers 1:16 2015 Dodge Charger SRT Hellcat Remote Control Car. Please read this manual thoroughly before use to ensure optimal performance and longevity of your product.

The 1:16 scale model is a full-function radio control vehicle, approximately 12 inches in length. It operates on a 2.4 GHz frequency, allowing for multiple users (up to 16+) to operate their vehicles within a 100-foot range without interference. The vehicle is suitable for ages 6 and up.

2. Safety Information

Warning: This product contains small parts and is not suitable for children under 3 years of age due to choking hazards. Adult supervision is recommended during operation.

- Do not operate the vehicle near streets, busy roads, or in areas with pedestrian traffic.
- Avoid operating in wet conditions or near water to prevent damage to electronic components.
- Keep fingers, hair, and loose clothing away from the wheels and moving parts of the vehicle.
- Do not attempt to modify or disassemble the vehicle or remote control, as this may cause damage or injury and void the warranty.
- Use only the specified batteries and charging methods.

3. Package Contents

The product package includes the following items:

- 1 x Jada Hyperchargers 1:16 2015 Dodge Charger SRT Hellcat RC Car
- 1 x Remote Control
- 2 x AA Batteries (for remote control)
- Built-in USB charging cable (for RC car)

4. Setup

The Jada Hyperchargers RC Car requires no assembly. Follow these steps to prepare your vehicle for operation:

4.1. Remote Control Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Open the battery compartment cover.
3. Insert the two (2) AA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

4.2. Vehicle Battery Charging

The RC car features a built-in Lithium-Ion rechargeable battery. Before first use, ensure the vehicle is fully charged.

1. Locate the integrated USB charging cable on the underside of the vehicle.
2. Carefully extend the USB cable.
3. Connect the USB cable to a powered USB port (e.g., computer, USB wall adapter).
4. The charging indicator light on the vehicle will illuminate during charging and turn off or change color when fully charged (refer to vehicle for specific indicator behavior).
5. Once charging is complete, disconnect the USB cable and securely store it back in its compartment on the vehicle.

5. Operating Instructions

To operate your Jada Hyperchargers RC Car, follow these steps:

1. **Power On Vehicle:** Locate the ON/OFF switch on the underside of the RC car and slide it to the "ON" position.
2. **Power On Remote:** Locate the ON/OFF switch on the remote control and slide it to the "ON" position.
3. **Pairing:** The vehicle and remote control should automatically pair. If they do not, turn both off and then on again. Ensure they are within close proximity during pairing.
4. **Control:** Use the joysticks/buttons on the remote control to steer and accelerate the vehicle. Refer to the remote control's markings for specific functions (e.g., forward, backward, left, right).
5. **Power Off:** When finished playing, turn off both the vehicle and the remote control to conserve battery life.

Image 5: Rear view of the RC car, showcasing its detailed design.

6. Maintenance

Proper maintenance ensures the longevity and performance of your RC car:

- **Cleaning:** Wipe the vehicle with a soft, dry cloth after each use to remove dust and debris. Do not use harsh chemicals or water directly on the electronics.
- **Storage:** Store the vehicle and remote control in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Always turn off the vehicle and remote control when not in use. For long-term storage, ensure the vehicle's built-in battery is partially charged (around 50%) to maintain battery health. Remove AA batteries from the remote if storing for extended periods.

7. Troubleshooting

If you encounter issues with your RC car, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vehicle does not respond to remote.	Low batteries in vehicle or remote; vehicle/remote not turned on; not paired.	Charge vehicle battery. Replace AA batteries in remote. Ensure both are ON. Turn both OFF then ON again to re-pair.
Short operating range or interference.	Obstacles; other 2.4GHz devices; low batteries.	Operate in an open area. Ensure batteries are fully charged. Move away from other electronic devices.
Vehicle moves slowly or inconsistently.	Low vehicle battery.	Recharge the vehicle's built-in battery.

If the problem persists after attempting these solutions, please contact customer support.

8. Specifications

- **Model Name:** 2015 Dodge Charger SRT Hellcat
- **Model Number:** 30722
- **Brand:** Jada
- **Scale:** 1:16 Scale
- **Dimensions:** Approximately 8 x 3 x 3 inches (Length x Width x Height)
- **Material:** Plastic
- **Power Source (Vehicle):** Built-in Lithium-Ion Battery (Rechargeable via USB)
- **Power Source (Remote):** 2 x AA Batteries (Included)
- **Frequency:** 2.4 GHz
- **Operation Mode:** Remote Control
- **Recommended Age:** 6+ Years
