5. OPERATING INSTRUCTIONS

The primary function of the Andes Stacking Animals is to stack them in various configurations, promoting balance and fine motor skills. They can also be used for imaginative free play.

5.1 Stacking Play

- Place one animal figure on a flat, stable surface as a base.
- Carefully place another animal figure on top of the base figure, attempting to balance it.
- Continue adding figures, one by one, to build a tower. Experiment with different animal shapes and

orientations to find stable stacking points.

- Challenge yourself to build the tallest or most creative stack possible without it toppling over.

6. MAINTENANCE

To ensure the longevity and hygiene of your Le Toy Van Petilou Andes Stacking Animals, follow these

maintenance guidelines:

- **Cleaning:** Wipe the wooden figures with a damp cloth using mild soap and water. Avoid harsh chemicals or abrasive cleaners. Allow to air dry completely before storing.
- **Storage:** Store the figures in the provided drawstring bag in a dry place, away from direct sunlight or extreme temperatures, to prevent warping or fading.
- **Durability:** The figures are decorated with water-based, chip-resistant, non-toxic paints. While durable, excessive force or prolonged exposure to moisture may cause wear.

7. TROUBLESHOOTING

If you encounter any issues with your stacking animals, consider the following:

- **Difficulty Stacking:** Some figures may be more challenging to stack due to their unique shapes. Encourage experimentation with different combinations and base figures. Practice improves balance skills.
- **Lost Pieces:** If a piece is misplaced, check common play areas. The drawstring bag helps keep all pieces together.
- **Surface Marks:** For minor marks, a gentle wipe with a damp cloth is usually sufficient. For stubborn marks, a magic eraser can be used carefully, followed by a damp cloth.
