5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your iLight Mini Smartphone, follow these care guidelines:

- **Battery Care:** The device is equipped with a 2000mAh Lithium Ion battery. To maximize battery life, avoid extreme temperatures and do not overcharge.
- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the phone. Avoid harsh

chemicals or abrasive materials.

- **Software Updates:** Keep your Android 10.0 operating system updated to the latest version to ensure security and performance improvements.
- **Physical Protection:** The phone comes with a transparent case for added protection against drops and scratches.

6. TROUBLESHOOTING

If you encounter any issues with your iLight Mini Smartphone, refer to the following common troubleshooting tips:

- **Network Connectivity Issues:** If you experience problems with calls or internet, verify your SIM card is correctly inserted and your carrier's network is active. Check your phone's network settings to ensure it's configured for the correct bands.
- **App Permissions:** If an app is not functioning correctly, check its permissions in the phone's settings. Grant necessary permissions for the app to operate as intended.
- **Battery Heating:** Some users have reported the battery warming up. If this occurs frequently, try closing background applications, reducing screen brightness, or avoiding prolonged heavy usage. If heating persists, contact support.
- **Device Unresponsive:** If the device becomes unresponsive, perform a force restart by holding down the power button for several seconds until it reboots.
