## MAINTENANCE

To ensure the longevity and cleanliness of your LEGO Creator 3 in 1 set, follow these simple maintenance guidelines:

- **Cleaning:** To clean LEGO bricks, use a mild soap solution and lukewarm water (not exceeding 104°F or 40°C). Gently scrub the bricks with a soft brush or cloth. Rinse thoroughly with clear water and allow them to air dry at room temperature. Avoid using hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store your LEGO set in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause colors to fade. Keep bricks in a container to prevent loss and protect them from dust.
- **Handling:** Handle the assembled models with care to prevent accidental disassembly. When disassembling, use a brick separator (if available) to avoid damaging bricks or hurting your fingers.

## TROUBLESHOOTING

LEGO sets are designed for precise assembly. If you encounter any issues during construction or play, consider the following:

- **Missing Pieces:** In the rare event of a missing piece, please refer to the official LEGO Customer Service section for assistance. LEGO provides a service to replace missing or broken parts.
- **Assembly Difficulties:** Double-check the instruction manual for the specific step you are on. Ensure you are using the correct pieces and that they are oriented correctly. Sometimes, a small error in an earlier step can affect later assembly.

- **Loose Connections:** Ensure all bricks are pressed firmly together. LEGO connections are designed to be secure, but sometimes a piece may not be fully seated.
