Zenna Home E2161HB

Zenna Home Tension Pole Shower Caddy Corner Organizer (Model E2161HB) - Instruction Manual

Maximize your shower space with this adjustable, rust-resistant storage solution.

1. INTRODUCTION

The Zenna Home Tension Pole Shower Caddy is designed to provide efficient and organized storage in your shower or bathtub corner. Featuring a rust-resistant finish and four adjustable shelves, this caddy offers a versatile solution for keeping your bath essentials easily accessible and your shower clutter-free. Its tension pole design ensures a secure, tool-free installation without damaging your walls or ceiling.

2. PACKAGE CONTENTS

Please ensure all parts are present before beginning assembly:

- Tension Pole Sections (various lengths for height adjustment)
- 4 x Triangular Wire Baskets (including one deep basket)
- Adjustable Collars/Stoppers for shelves
- Built-in Hooks and Razor Holders (integrated into baskets)
- Towel Bar (integrated into one basket)
- End Caps (top and bottom)

All components of the shower caddy, ready for assembly.

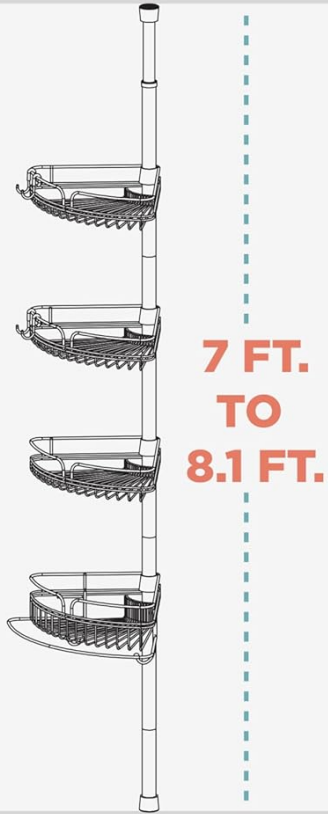

3. ASSEMBLY AND INSTALLATION

This shower caddy features tool-free assembly and tension-mount installation. Follow these steps for a secure fit:

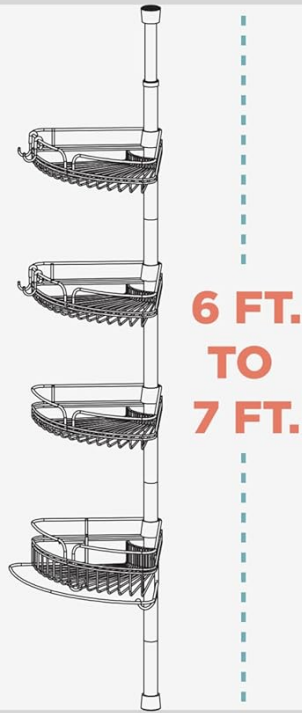

1. **Determine Height:** Measure the height of your shower or bathtub area where the caddy will be installed. The caddy adjusts from 60 to 97 inches. Select the appropriate pole sections to achieve the desired height. An extra pole section may be included for taller installations; use only what is necessary for a snug fit.
2. **Assemble Pole:** Connect the pole sections by twisting them together. Ensure they are securely fastened. The top section typically contains a spring mechanism for tension.
3. **Attach Shelves:** Slide the adjustable collars/stoppers onto the pole at your desired heights. Place a basket onto each collar, ensuring it rests securely. The shelves can be adjusted vertically to accommodate various bottle sizes.
4. **Position Caddy:** Place the assembled caddy in the corner of your shower or bathtub. Ensure the top end cap is against the ceiling and the bottom end cap is firmly on the floor or tub surface.
5. **Apply Tension:** Extend the top pole section by twisting it until it creates firm tension between the ceiling and the floor/tub. The caddy should be stable and not wobble.

FIT ANY HEIGHT BETWEEN 5-8.1 FEET

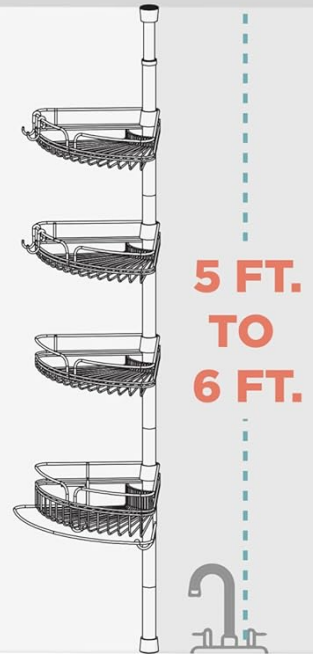

7-8.1 FEET STANDARD CEILINGS

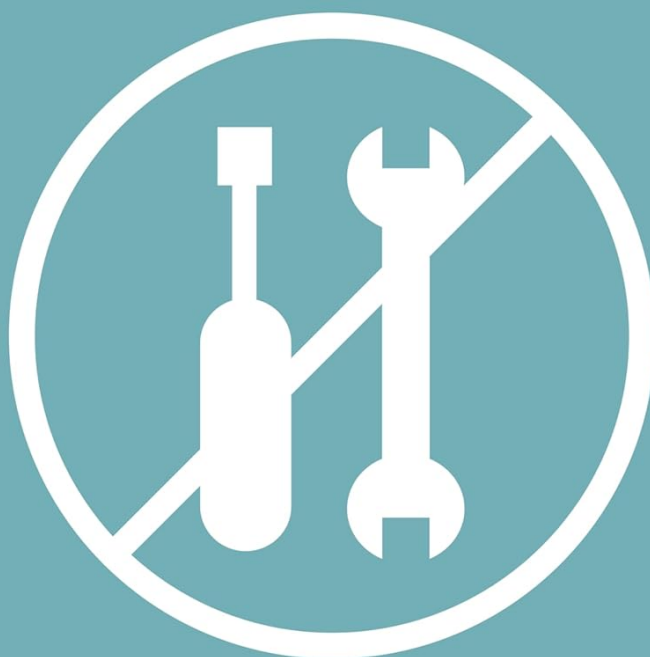

6-7 FEET LOW CEILINGS

5-6 FEET TUBS

The caddy adjusts to fit various shower and tub heights, from 5 to 8.1 feet.

QUICK & EASY INSTALL NO TOOLS

Tool-free assembly ensures quick and easy installation.

4. USAGE

The Zenna Home Tension Pole Shower Caddy is designed for versatile storage:

- **Adjustable Shelves:** Each of the four wire baskets can be independently adjusted up or down the pole to create custom spacing for your items. One deep basket is ideal for taller shampoo and conditioner bottles.
- **Storage Capacity:** Each basket is designed to hold up to 7.5 lbs, providing ample space for various bath essentials.
- **Integrated Features:** Utilize the built-in hooks for hanging loofahs, brushes, or razors. One basket also includes a towel bar for washcloths or small towels.

HEIGHT ADJUSTABLE SHELVES

**BUILT-IN
HOOKS**

**RAZOR
STORAGE**

**1 DEEP BASKET
WITH TOWEL BAR**

**QUICK DRYING
WIRE DESIGN**

Utilize built-in hooks, razor holders, and the towel bar for additional organization.

5. CARE AND MAINTENANCE

To maintain the appearance and longevity of your shower caddy:

- Wipe down the caddy regularly with a damp cloth to remove soap scum and water spots.
- Avoid using abrasive cleaners or scouring pads, as these can damage the rust-resistant finish.
- The open-wire design of the baskets allows for quick water drainage, preventing water from pooling and helping items dry faster.

RUST RESISTANT

High durability, built to last

The rust-resistant finish ensures durability and a lasting appearance.

6. TROUBLESHOOTING

- **Caddy is wobbly or unstable:** Ensure the tension pole is fully extended and securely tightened between the ceiling and floor/tub. Re-adjust the tension by twisting the pole until it is firm. Verify that the end caps are properly seated.
- **Shelves slide down:** Make sure the adjustable collars/stoppers are tightly secured beneath each basket. If the pole is wet or soapy, clean it and ensure the collars are dry before tightening.
- **Difficulty with assembly:** Refer to the detailed assembly instructions and the official installation video. Ensure all pole sections are correctly aligned and twisted together. Some users find it helpful to lay out all parts and identify them before starting.

7. SPECIFICATIONS

Brand	Zenna Home
