Bepuzzled Deluxe Crystal Puzzle - Blue Dragon

Model: 31098

Brand: Bepuzzled

Introduction

Thank you for choosing the Bepuzzled Deluxe Crystal Puzzle. This 3D brainteaser allows you to construct a beautiful, translucent blue dragon from 56 unique interlocking plastic pieces. Designed to be both a fun challenge and an attractive display piece, this puzzle offers an engaging experience for puzzlers aged 12 and up. Once assembled, the dragon stands approximately 5 inches tall, 8 inches long, and 5.5 inches wide.

Safety Information

- **Small Parts Warning:** This product contains small parts and is not suitable for children under 3 years due to choking hazards.
- **Age Recommendation:** Recommended for ages 12 and up.
- **Material:** The puzzle pieces are made of plastic. Handle with care to avoid breakage.
- **Authenticity:** Ensure you purchase genuine Bepuzzled products from authorized retailers to guarantee quality and safety standards.

Setup and Assembly

Assembling your Bepuzzled Crystal Dragon requires patience and attention to detail. While no traditional instructions are included in the box, the following steps provide a general guide for successful assembly:

1. **Sort Pieces:** Begin by sorting the 56 translucent pieces. Identify distinct sections such as the head, limbs, wings, and tail. Look for pieces with unique shapes or pegs that suggest they belong to a specific sub-assembly.
2. **Assemble Sub-sections:**
    - **Limbs, Head, and Tail:** Assemble these smaller sections first.
    - **Wings:** Locate the smaller puzzle pieces with pegs and attach them to the larger wing pieces.
3. **Identify Connection Points:** Examine the head and limb pieces to understand how they connect to the main body.
    - Pieces with a **rectangular tab** can often be attached later, just before securing the body with the support rod.
    - Pieces with an **L-shaped tab** typically need to be integrated during the main body assembly. This includes the back legs and the head.
    - The **wings** are also puzzle pieces and must be included as you construct the torso.
4. **Main Body Assembly:** Locate the two front abdominal pieces and the central support rod. It is often easier to start assembling the main body from the end of the support rod that has a round socket, which usually corresponds to the chest area of the dragon. Carefully interlock the pieces, ensuring a snug fit.
5. **Secure Connections:** As you build, ensure all pieces are firmly interlocked. The puzzle relies on precise fit. If pieces feel loose, re-examine their connection.
6. **Final Rod Insertion:** Once the main body and attached sections are largely complete, carefully insert the support rod through the designated channels to secure the entire structure. This step often requires holding multiple sections in place simultaneously.

Operating and Display

Once assembled, your Bepuzzled Crystal Dragon is ready for display. Place it on a flat, stable surface where it can be admired. The translucent material catches light beautifully, making it an ideal decorative piece for shelves, desks, or windowsills.

Maintenance

To keep your crystal puzzle looking its best:

- **Cleaning:** Gently wipe the puzzle with a soft, dry, lint-free cloth to remove dust. For more stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the plastic.
- **Handling:** Handle the assembled puzzle by its base or main body to prevent accidental disassembly or damage to

delicate parts like wings or horns.

- **Storage:** If disassembling for storage, keep all pieces together in a secure container to prevent loss.

Troubleshooting

Difficulty Assembling Pieces:

Some 3D crystal puzzles can be challenging to hold together during assembly, especially when inserting the final support rod. If you encounter this, consider the following:

- **Patience is Key:** Take breaks if you feel frustrated.
- **Two-Handed Operation:** This puzzle often requires both hands to hold sections in place while interlocking new pieces or inserting the rod.
- **Temporary Support:** If available, a small piece of tape or a rubber band can temporarily hold sections together while you work on another part, but be careful not to damage the plastic.
- **Review Piece Orientation:** Double-check that each piece is oriented correctly. A slight misalignment can prevent proper interlocking.
- **Gentle Pressure:** Apply firm but gentle pressure to snap pieces into place. Avoid forcing pieces, as this can cause breakage.

Missing or Broken Pieces:

In the rare event of missing or broken pieces, please contact Bepuzzled customer support for assistance. Refer to the "Warranty and Support" section for contact information.
