Blue Diamond 37392

Blue Diamond Connect Keyboard and Mouse Combo User Manual

Model: 37392

INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your Blue Diamond Connect Wireless Keyboard and Mouse Combo. This combo features 2.4 GHz wireless technology for a clean workspace, silent click mouse, and durable silicone membrane keyboard switches, designed for both home and office use.

SETUP GUIDE

1. Unpacking the Combo

Carefully remove the keyboard, mouse, and USB nano dongle from the packaging. Ensure all components are present.

Image: The Blue Diamond Connect wireless keyboard and mouse combo, showcasing the full-size French Canadian layout keyboard and the compact mouse.

2. Battery Installation

The keyboard and mouse require batteries for operation. Locate the battery compartments on the underside of each device.

- **Keyboard:** Open the battery cover on the back of the keyboard. Insert the required batteries (typically AAA, check markings inside the compartment) ensuring correct polarity (+/-). Close the cover securely.
- **Mouse:** Open the battery cover on the underside of the mouse. Insert the required battery (typically AA, check markings inside the compartment) ensuring correct polarity (+/-). The USB nano dongle is typically stored inside this compartment for convenient transport. Remove it before closing the cover.

3. Connecting the USB Nano Dongle

The combo uses a single USB nano dongle for both the keyboard and mouse.

1. Remove the USB nano dongle from the mouse's battery compartment.
2. Plug the USB nano dongle into an available USB port on your computer (Laptop or PC).
3. Your computer should automatically detect and install the necessary drivers. This may take a few moments.

4. Initial Connection

Once the dongle is connected and drivers are installed, the keyboard and mouse should automatically connect. If they do not, ensure the devices are powered on (some models may have an ON/OFF switch, typically on the underside of the mouse).

OPERATING INSTRUCTIONS

Keyboard Usage

- **Layout:** The keyboard features a full-size French Canadian layout with 102 keys, including a numeric keypad.
- **Multimedia Keys:** Utilize the function keys (F1-F12) in combination with the 'Fn' key (if present) for multimedia controls such as volume, play/pause, and track navigation. Refer to the keycap legends for specific functions.
- **Typing Experience:** The smooth silicone membrane switches provide a quiet and comfortable typing experience with low resistance.
- **Adjustable Angle:** Sturdy flip-out integrated legs on the underside of the keyboard allow you to adjust the typing angle for personal preference.

Mouse Usage

- **Silent Click:** The mouse features silent click switches, operating up to 90% quieter than standard mice, reducing noise in your workspace.
- **Optical Sensor:** Equipped with a 1200 DPI optical sensor, the mouse provides smooth and precise tracking on a variety of surfaces.
- **Portability:** The compact and light design makes the mouse easy to carry in a bag or briefcase.

Wireless Connectivity

The 2.4 GHz wireless technology provides a stable connection with an operating range of up to 10 meters (33 feet), ensuring a clutter-free desktop.

MAINTENANCE

Cleaning

- **Keyboard:** Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe down the keys and surface. Avoid excessive moisture. For debris between keys, use compressed air.
- **Mouse:** Wipe the surface and optical sensor area with a soft, dry cloth. Do not use abrasive cleaners or immerse the mouse in liquid.

Battery Replacement

When the keyboard or mouse performance degrades (e.g., delayed response, intermittent connection), it may be time to replace the batteries. Follow the battery installation steps outlined in the "Setup Guide" section.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Keyboard/Mouse not responding or disconnecting frequently.	Low batteries, USB dongle not properly connected, interference, out of range.	1. Replace batteries in both keyboard and mouse. 2. Ensure the USB nano dongle is securely plugged into a working USB port. Try a different USB port. 3. Move the keyboard/mouse closer to the USB dongle. 4. Avoid placing the dongle near other wireless devices or large metal objects that may cause interference.
Keys not typing or mouse not tracking accurately.	Low batteries, dirty sensor (mouse), software issues.	1. Replace batteries. 2. Clean the optical sensor on the mouse with a soft, dry cloth. 3. Restart your computer. 4. Ensure no other input devices are conflicting.
Caps Lock indicator light not working.	This model features a Caps Lock indicator light. If it's not working, it might indicate a power issue or a specific hardware fault.	1. Ensure batteries are fresh and correctly installed. 2. If the issue persists, contact customer support.

SPECIFICATIONS

- **Model Number:** 37392
- **Connectivity Technology:** 2.4 GHz Wireless (Radio Frequency)
- **Operating Range:** Up to 10 meters (33 feet)
- **Keyboard Type:** Full-size French Canadian Layout, Membrane Switches
- **Number of Keys:** 102
- **Mouse Sensor:** 1200 DPI Optical
- **Power Source:** Battery Powered (Specific battery types for keyboard/mouse should be confirmed by user, typically AAA for keyboard, AA for mouse)
- **Compatible Devices:** Laptop, Personal Computer (PC)
- **Color:** Black
- **Product Dimensions (L x W x H):** Approximately 43.2 x 14 x 4 cm (Keyboard)
- **Item Weight:** Approximately 720 g (Combo)
