UpStart Components AP-2260502B-DL2770

UpStart Components 2260502B Refrigerator Water Filter Cap Replacement Manual

For KitchenAid KBSD606ESS00 Refrigerator

INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of the UpStart Components 2260502B Refrigerator Water Filter Cap. This replacement part is designed for compatibility with KitchenAid KBSD606ESS00 refrigerators and other models that use the WP2260518B filter cap.

SETUP AND INSTALLATION

The UpStart Components 2260502B water filter cap is designed for quick, tool-free installation. It is typically located on the bottom front grill of compatible refrigerators.

Installation Steps:

1. **Locate the Filter Cap:** Identify the existing water filter cap on your refrigerator. This is commonly found on the bottom front grill.
2. **Remove the Old Cap:** Gently twist or pull the old filter cap to remove it. Refer to your refrigerator's specific manual for detailed removal instructions if needed.
3. **Prepare the New Cap:** Ensure the new UpStart Components 2260502B cap is clean and free of debris.
4. **Install the New Cap:** Align the new cap with the filter housing. Push and twist the cap into place until it is securely seated. No tools should be required for this process.

OPERATING

Once installed, the water filter cap operates passively by securing the water filter in place. Ensure the cap is fully seated and secure to prevent any dislodgement or issues with the water filter system.

MAINTENANCE

The UpStart Components 2260502B water filter cap is made of durable plastic for extended use. Regular maintenance is minimal:

- **Cleaning:** Periodically wipe the cap with a soft, damp cloth to remove dust or spills. Avoid abrasive cleaners.
- **Inspection:** Inspect the cap for any signs of damage, cracks, or wear during routine refrigerator cleaning or filter changes. Replace if damage is observed.

TROUBLESHOOTING

- **Cap Does Not Fit:**
 - Verify that your refrigerator model (e.g., KitchenAid KBSD606ESS00) is compatible with the 2260502B or WP2260518B part number.
 - Ensure the cap is oriented correctly before attempting to install.
- **Cap Feels Loose After Installation:**
 - Remove the cap and re-install, ensuring it is fully pushed and twisted into its locked position.
 - Check for any obstructions in the filter housing that might prevent a secure fit.

SPECIFICATIONS

Manufacturer	UpStart Components
Part Number	AP-2260502B-DL2770
Material	Plastic
Compatible Part Numbers	WP2260518B, AP6006882, 2260518B, 2260502B, PS11739970, WP2260518BVP
