Rayh Color Changing LED Light Bulb User Manual

Model: 761780477771

Introduction

Thank you for choosing the Rayh Color Changing LED Light Bulbs. These versatile bulbs offer a wide range of lighting options, including warm white for daily illumination and 12 vibrant RGB colors. With convenient remote control, timing functions, and memory features, these bulbs are designed to enhance your home, stage, or party ambiance. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your product.
Each 4-pack includes four 5W LED bulbs (40W equivalent, 500LM) with an E26 screw base and two remote controllers.

Product Features

- **LED Color Changing Light Bulb:** 5W, 40W Equivalent, 500LM, E26 Screw Base. Offers warm white (2700K, CRI>85) and 12 fixed RGB colors.
- **Dimmable:** Brightness can be adjusted via the remote controller.
- **Timing Function:** Set to automatically turn off once, or turn on/off at the same time daily.
- **Memory Function:** Remembers the last used color or mode when powered off and on again.
- **Sync Function:** One remote can control multiple bulbs, and multiple remotes can control one bulb. Dynamic modes can synchronize color changes.
- **Dynamic Modes:** Includes FLASH mode for stage effects and SMOOTH mode for automatic color transitions with adjustable rhythm.
- **Wall Switch Control Support:** If the remote is unavailable, turning the wall switch on will revert the bulb to its last used color.
- **Night Light Function:** One-button access to darker light settings for sleep needs.

Setup

1. **Unpack:** Carefully remove the light bulbs and remote controllers from the packaging.
2. **Install Bulb:** Screw the Rayh LED light bulb into any standard E26 screw base fixture. Ensure the power to the fixture is off before installation.
3. **Prepare Remote:** The remote controllers come with batteries pre-installed. Remove any battery-saver tabs if present.

4. **Power On:** Turn on the power to the light fixture. The bulb should illuminate in its last remembered setting or default warm white.

Operating Instructions

The remote control allows for full customization of your lighting experience. Point the remote directly at the bulb for best response.

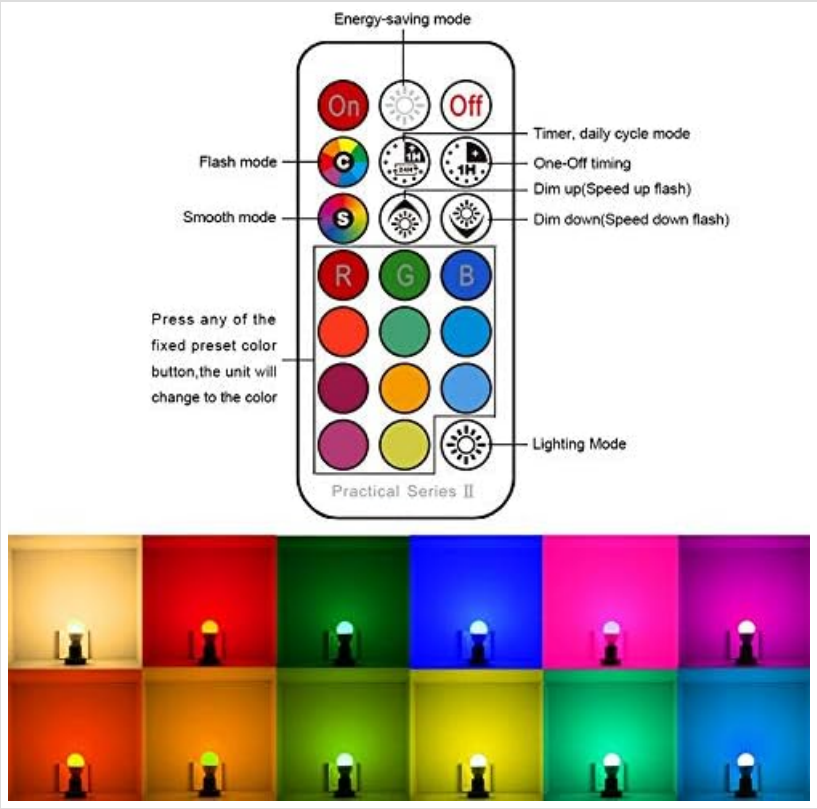

Image: A detailed layout of the remote control, highlighting buttons for power, color selection, brightness adjustment, and dynamic lighting modes.

Remote Control Functions:

Button	Function
On / Off	Turns the light bulb on or off.
C (Color Cycle)	Activates FLASH mode, providing a rapid stage effect with color changes.
S (Smooth)	Activates SMOOTH mode, automatically switching between colors with a smooth transition.
Brightness Up/Down	Adjusts the brightness of the current color or warm white light (6 levels).
1H / 24H (Timer)	Sets the bulb to turn off after 1 hour (one-time) or to turn on/off at the same time daily.
R, G, B Buttons	Directly selects Red, Green, or Blue colors.
Color Palette	Selects from 12 fixed popular colors.
Warm White	Switches the bulb to 2700K warm white light.

Special Functions:

- **Memory Function:** The bulb will automatically recall the last color or mode used when it is turned off and then powered back on.
- **Sync Function:** Multiple Rayh bulbs can be controlled simultaneously with a single remote. If you have several bulbs, they will synchronize their color changes when a dynamic mode is selected.
- **Wall Switch Control:** If the remote is misplaced, you can still control the bulb using a standard wall switch. Turning the switch off and then on will revert the bulb to the color it was set to before being turned off.

Maintenance

- **Cleaning:** Ensure the light fixture is off and the bulb has cooled before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** If storing the bulbs for an extended period, keep them in their original packaging in a cool, dry place.
- **Remote Care:** Keep the remote control dry and away from extreme temperatures. If the remote's range decreases, consider replacing its battery (CR2025, not included).

Troubleshooting

Problem	Possible Cause / Solution

Problem	Possible Cause / Solution
Bulb does not light up.	Ensure the bulb is screwed in properly and securely. Check if the light fixture is receiving power (e.g., wall switch is on, circuit breaker is not tripped). Test the bulb in another working fixture.
Remote control is not working.	Ensure the remote is pointed directly at the bulb. Check if the battery-saver tab has been removed from the remote. Replace the remote control battery (CR2025). Ensure there are no obstructions between the remote and the bulb.
Colors are not changing or synchronizing.	Ensure all bulbs are within the remote's infrared range and line of sight. If using multiple remotes, ensure they are not interfering with each other. Try resetting the bulbs by turning the power off at the wall switch for 10 seconds, then turning it back on.
Bulb flickers or dims unexpectedly.	Check for loose connections in the fixture. Ensure the bulb is not exposed to extreme temperatures or humidity. Verify the power supply is stable (85-265V Universal).

Specifications

Attribute	Detail
Brand	Rayh
Model Number	761780477771
Light Type	LED
