MAZ-TEK MZ3092

MAZ-TEK Plug in Dimmable LED Night Light User Manual

Model: MZ3092 | Brand: MAZ-TEK

1. Introduction

Thank you for choosing the MAZ-TEK Plug in Dimmable LED Night Light. This manual provides essential information for the safe and effective use of your new night light. Please read it thoroughly before installation and operation, and retain it for future reference.

Package Contents

- LED Night Lights (4 Pack)
- User Manual

Image: Four MAZ-TEK Plug-in Dimmable LED Night Lights, illustrating the product included in the package.

2. KEY FEATURES

- Brightness Adjustable: Steplessly adjust warm white brightness from 0 lm to 15 lm using a slide switch.
- Automatic Illumination: Equipped with a smart dusk-to-dawn sensor, the night light automatically turns on at night or when ambient light is insufficient.
- **Unique Design:** Small and exquisite design that does not obstruct the second outlet when plugged into a standard wall socket.
- Energy Conservation: Utilizes LED technology for a long lifespan of up to 50,000 hours and a maximum power consumption of only 0.5W.
- Enhanced Safety: Provides gentle illumination to help prevent tripping or stumbling in the dark.

Image: A detailed diagram of the MAZ-TEK night light, pointing out its key features such as light sensing, soft light for eye protection, stepless dimming, and space-saving flat panel design, along with its compact dimensions.

3. SETUP INSTRUCTIONS

Setting up your MAZ-TEK night light is simple and quick.

- 1. **Unpack:** Carefully remove the night light from its packaging.
- 2. Plug In: Insert the night light directly into any standard 110V AC wall outlet. Ensure it is securely seated.
- 3. **Positioning:** For optimal performance of the dusk-to-dawn sensor, ensure the sensor (located on the front of the unit) is not obstructed by furniture or other objects. Avoid placing it in areas with direct artificial light that might interfere with the sensor's operation.

Image: The MAZ-TEK night light plugged into a wall outlet, showcasing its compact and ultra-slim design that allows the second outlet to remain accessible for other devices.

4. OPERATING THE NIGHT LIGHT

Automatic Illumination

The MAZ-TEK night light features a built-in dusk-to-dawn sensor. This sensor detects the ambient light level in the room:

- The light will automatically turn **ON** when the room becomes dark.
- The light will automatically turn **OFF** when the room becomes bright.

Image: An illustration depicting the night light's automatic function, showing it in an 'OFF' state during daylight and an 'ON' state during nighttime, activated by the ambient light sensor.

Brightness Adjustment

To adjust the brightness of the night light, locate the slide switch on the side of the unit. Slide the switch to increase or decrease the light output from 0 lumens (off) to 15 lumens (maximum brightness). This allows you to customize the illumination level to suit your preference and the environment.

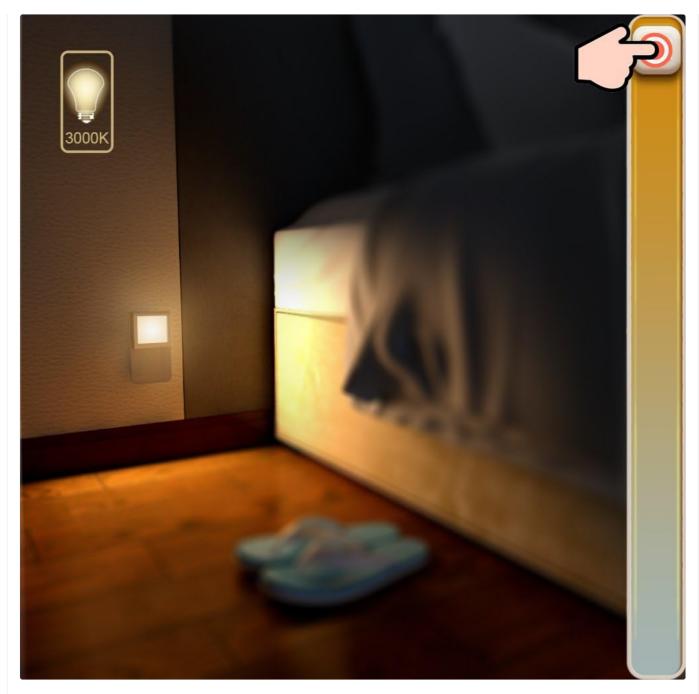

Image: A MAZ-TEK night light emitting a soft glow near the floor in a dimly lit room, demonstrating its ability to provide subtle illumination for navigation.

5. CARE AND MAINTENANCE

- Cleaning: To clean the night light, first unplug it from the wall outlet. Use a soft, dry cloth to wipe the surface. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or internal components.
- Longevity: The LED light source is designed for a long lifespan of up to 50,000 hours and does not require bulb replacement.
- Storage: If storing the night light for an extended period, keep it in a cool, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

If you encounter any issues with your MAZ-TEK night light, please refer to the table below for common problems and their solutions.

| Problem | Possible Cause & Solution |
|-------------------------------------|--|
| Light does not turn on in the dark. | No power: Ensure the night light is securely plugged into a working outlet. Ambient light too high: The sensor detects sufficient light. Move the night light to a darker location or wait for ambient light to decrease. Sensor obstructed: Ensure the light sensor is not covered. |
| Light stays on during the day. | Insufficient ambient light: The sensor may not be detecting enough light to turn off. Ensure the area is well-lit during the day. Sensor obstructed: Ensure the light sensor is not covered. |
| Brightness cannot be adjusted. | Slide switch position: Ensure the slide switch is being moved across its full range. Unit malfunction: If the issue persists, the unit may be faulty. Contact customer support. |

7. Product Specifications

| Attribute | Value |
|------------------------|--------------------------------------|
| Model Number | MZ3092 |
| Product Dimensions | 0.7"D x 2.76"W x 2.79"H |
| Item Weight | 8.4 Ounces (for 4 pack) |
| Power Source | Plug-in Electric |
| Voltage | 110 Volts |
| Light Source Type | LED |
| Brightness Range | 0 lm to 15 lm (Dimmable) |
| Sensor Type | Dusk to Dawn Sensor |
| Lifespan | Up to 50,000 hours |
| Material | Plastic |
| Color | Warm White |
| Special Features | Dimmable, Automatic Sensor |
| Water Resistance Level | Waterproof (Designed for indoor use) |
| Included Components | LED night lights, User Manual |

8. WARRANTY AND SUPPORT

MAZ-TEK is committed to providing high-quality products. While specific warranty details are not provided in this manual, please retain your purchase receipt as proof of purchase. For any product inquiries, technical support, or warranty claims, please contact MAZ-TEK customer service through the retailer where the product was purchased or visit the official MAZ-TEK website for contact information.

We value your satisfaction and are here to assist you with any questions or concerns regarding your MAZ-TEK night light.
