KOHLER K-1959-GH-0

Instruction Manual

Kohler K-1959-GH-0 Stargaze Bathtub

PRODUCT OVERVIEW

The KOHLER K-1959-GH-0 Stargaze Bathtub in White is a freestanding air bath designed to provide a soothing and invigorating full-body massage experience. It features air jets that push humidified air through the water, creating a blissful and warm sensation. Its ergonomic design allows for deep soaking and relaxation, complementing a wide range of bathroom styles with its crisp, clean lines and fluted shroud.

This model is known for its easy three-step installation and includes features like heated bubble massage, molded lumbar support, and self-cleaning purge cycles for residual water removal.

SETUP AND INSTALLATION

The Stargaze Bathtub is designed for easy installation. While specific steps may vary, the general process involves three key stages:

1. **Preparation:** Ensure the installation area is level, clean, and has appropriate plumbing and electrical connections (120 volts required). Verify all components are present.
2. **Positioning:** Carefully move the bathtub into its desired freestanding position. Ensure adequate clearance for maintenance and access.
3. **Connection:** Connect the drain and water supply lines according to local plumbing codes. For the heated bubble massage feature, connect the electrical supply as per electrical safety standards.

It is highly recommended to consult a qualified plumber and electrician for professional installation to ensure proper functionality and safety.

OPERATING INSTRUCTIONS

To operate your Kohler Stargaze Bathtub and enjoy its features:

- **Filling the Bathtub:** Ensure the drain is closed and fill the bathtub with water to your desired level. Do not overfill.
- **Activating Heated Bubble Massage:** Locate the control panel, typically on the rim of the tub. Press the designated button to activate the heated bubble massage feature. The air jets will begin to release warm, massaging bubbles.
- **Adjusting Settings:** If available, use the control panel to adjust the intensity of the bubble massage.

Refer to the specific controls on your model for detailed adjustments.

- **Draining the Bathtub:** After use, open the drain to empty the tub.

The system includes self-cleaning purge cycles to remove residual water from the channels after use, contributing to hygiene and longevity.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your Kohler Stargaze Bathtub:

- **Regular Cleaning:** Clean the tub regularly with a soft cloth and a non-abrasive, mild bathroom cleaner. Avoid harsh chemicals or abrasive tools that can damage the acrylic finish.
- **Jet Cleaning:** The self-cleaning purge cycles help maintain the air jets. Periodically, you may run a cleaning cycle with a recommended tub cleaner specifically designed for jetted tubs, following the cleaner's instructions.
- **Avoid Scratches:** Do not use sharp objects or place heavy, rough items directly on the tub surface to prevent scratches.
- **Drain Maintenance:** Periodically check and clean the drain assembly to prevent clogs and ensure proper water flow.

TROUBLESHOOTING

Here are some common issues and their potential solutions:

Problem	Possible Cause	Solution
No power to bubble massage.	Circuit breaker tripped; loose electrical connection.	Check and reset the circuit breaker. Ensure all electrical connections are secure (consult an electrician if unsure).
Weak bubble flow.	Air jets clogged; low water level.	Run a cleaning cycle. Ensure the tub is filled to the recommended level.
Water drains slowly.	Drain clog.	Clear any debris from the drain. Use a drain cleaner safe for acrylic tubs if necessary.

If the issue persists after attempting these solutions, please contact KOHLER customer support.

SPECIFICATIONS

Model: K-1959-GH-0

Brand: KOHLER

Color: White

Material: Acrylic

Product Dimensions: 72"L x 32"W x 19.5"H

Item Weight: 213 Pounds

Installation Type: Freestanding

Capacity: 90 Gallons (9E+1 Gallons)

Shape: Rectangular

Voltage: 120 Volts

UPC: 885612791221
