Smart Ink 65XL

Smart Ink Remanufactured HP 65XL Ink Cartridges User Manual

Model: 65XL | Brand: Smart Ink

1. PRODUCT OVERVIEW

This manual provides instructions for the Smart Ink Remanufactured HP 65XL Black and Tri-Color ink cartridges. These cartridges are designed as a replacement for original HP 65XL cartridges and are compatible with various HP DeskJet and Envy series printers. Each package contains one black 65XL cartridge and one tri-color 65XL cartridge.

The cartridges are remanufactured from OEM products, professionally cleaned, refilled, and tested to ensure print quality comparable to original cartridges. The XL version offers extended page yield: up to 650 pages for the black cartridge and up to 420 pages for the tri-color cartridge (based on 5% coverage).

2. SETUP AND INSTALLATION

Follow these steps to properly install your Smart Ink 65XL cartridges into your compatible HP printer.

1. **Unpack the Cartridge:** Carefully remove the new Smart Ink cartridge from its packaging.
2. **Remove Protective Tape:** Locate the pink protective tape on the cartridge. Gently pull this tape to remove it **Do not touch the copper electrical contacts or ink nozzles.**

Image 3: Pull the pink protective tab to remove the sealing tape from the cartridge.

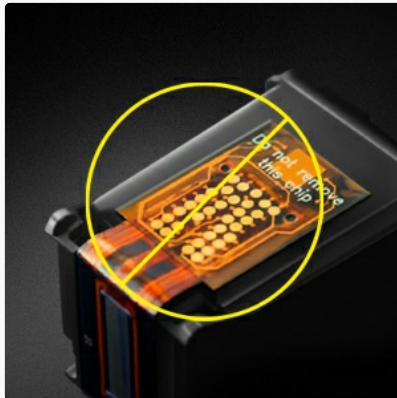

Image 4: Avoid touching the copper electrical contacts or ink nozzles on the cartridge.

3. **Open Printer Access Door:** Open the ink cartridge access door on your HP printer. The print carriage will move to the center. Wait until it is idle and silent before proceeding.
4. **Remove Old Cartridge:** Gently press down on the old cartridge to release it, then pull it out of its slot.
5. **Insert New Cartridge:** Hold the new Smart Ink cartridge with the nozzles facing the printer and the contacts facing the rear. Slide the cartridge into its corresponding slot (black for black, tri-color for color) until it clicks firmly into place.

Image 5: Insert the cartridge into the correct slot and push firmly until it locks.

6. **Close Access Door:** Close the ink cartridge access door. Your printer may perform an alignment process.

For a visual guide on installation, please refer to the video below:

Video 1: This video demonstrates the installation process for Smart Ink cartridges, showing how to unpack, remove protective elements, and insert the cartridge into the printer.

3. OPERATING INSTRUCTIONS

Once installed, your Smart Ink cartridges are ready for use. The printer will automatically detect the new cartridges and display ink levels. You can monitor your current ink level using your printer's software or display panel.

**SAVE MONEY
AND THE PLANET**
by using remanufactured ink cartridges

Do not dispose of electronic products in general waste

Image 6: Smart Ink cartridges feature ink level tracking technology to help you monitor usage.

These cartridges are designed for high-quality printing of documents and photographs, offering high color saturation, smudge resistance, and a quick-drying formula.

EXPERIENCE THE QUALITY!

Perfect photographs and documents thanks to:

The XL cartridges provide an extended page yield:

- **Black 65XL:** Up to 650 pages
- **Tri-Color 65XL:** Up to 420 pages

*Page yield is based on 5% coverage of an A4/Letter page.

4. MAINTENANCE

To ensure optimal performance and longevity of your Smart Ink cartridges and printer:

- **Proper Storage:** Store unused cartridges in their sealed packaging in a cool, dry place away from direct sunlight.
- **Avoid Touching Contacts:** As mentioned during installation, avoid touching the copper electrical contacts or ink nozzles on the cartridge. Oils from your skin can interfere with electrical connections or clog nozzles.
- **Regular Printing:** If you don't print frequently, consider printing a test page or a small document once a week to

prevent ink from drying out in the printhead nozzles.

- **Printer Head Cleaning:** If print quality degrades (e.g., streaks, faded colors), use your printer's utility software to perform a printhead cleaning cycle. Refer to your printer's manual for specific instructions.
- **Environmental Responsibility:** Remanufactured cartridges contribute to environmental sustainability. Please dispose of empty cartridges responsibly according to local regulations for electronic waste. Do not dispose of electronic products in general waste.

A promotional graphic for Smart Ink's customer care team. It features three circular portraits of smiling customer service representatives (two women and one man) wearing headsets. The background is dark with large, bold, light blue text. To the right of the portraits, it says '24/7 including holidays' and '3mins. response time'. Below this, a white speech bubble contains a red 'no AI' icon (a robot head with a slash) and the text 'No AI, voice assistants or chatbots. REAL PEOPLE, available whenever you need help!'. The Smart Ink logo is visible on the representatives' shirts and in the bottom right corner of the speech bubble.

5. TROUBLESHOOTING

If you encounter issues with your Smart Ink cartridges, try the following troubleshooting steps:

Cartridge Not Recognized or Error Message:

- **Reinstall Cartridge:** Remove the cartridge and reinstall it, ensuring it clicks firmly into place.
- **Clean Contacts:** Gently wipe the copper electrical contacts on the cartridge with a lint-free cloth (e.g., coffee filter) slightly dampened with distilled water. Allow it to dry completely before reinserting.

- **Restart Printer:** Turn off your printer, unplug it from the power source for a few minutes, then plug it back in and turn it on. This can reset the printer's internal system.
- **Update Printer Drivers:** Ensure your printer drivers are up to date. Visit your printer manufacturer's website for the latest drivers.
- **Check for Firmware Updates:** Some printer firmware updates can affect third-party cartridge recognition. If you recently updated your printer's firmware and are experiencing issues, contact Smart Ink customer support.

Poor Print Quality (Streaks, Fading, Incorrect Colors):

- **Run Printhead Cleaning:** Use your printer's maintenance utility to perform a printhead cleaning cycle. You may need to run it multiple times.
- **Print Alignment Page:** After cleaning, print an alignment page to ensure proper printhead alignment.
- **Check Ink Levels:** Verify that the ink levels are not critically low.
- **Inspect Nozzles:** If possible, visually inspect the cartridge nozzles for any dried ink or debris. Do not attempt to clean them with sharp objects.

Smart Ink cartridges are designed for 100% recognition by compatible printers.
