Philips Hue 476951

Philips Hue Smart 60W A19 LED Bulb (Model 476951) - Instruction Manual

Brand: Philips Hue

PRODUCT OVERVIEW

The Philips Hue Smart 60W A19 LED Bulb provides soft warm white light, equivalent to a traditional 60W incandescent bulb while consuming only 10 watts. This smart bulb offers convenient control options and is designed for indoor use with an E26 base. It can be controlled directly via Bluetooth using the Hue Bluetooth app or integrated into a larger smart home system with a Philips Hue Bridge.

WHAT'S IN THE BOX

- Two Philips Hue Smart 60W-equivalent A19 LED light bulbs (soft warm white).

SETUP AND INSTALLATION

Setting up your Philips Hue Smart A19 LED Bulb is a straightforward process. You can choose to use Bluetooth for direct control in one room or integrate with a Philips Hue Bridge for expanded features and whole-home control.

Step 1: Install Your Lighting

Screw the Philips Hue Smart A19 LED bulb into any standard E26 light socket. Ensure the power is turned off before installation.

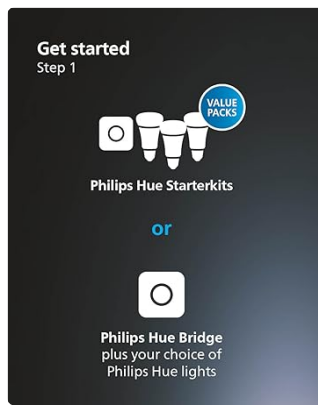

Image: Step 1 - Install your Philips Hue bulb into a standard light socket.

Step 2: Download the Philips Hue App

Download the free Philips Hue Bluetooth app from your device's app store. This app allows you to control your bulbs directly via Bluetooth.

Image: Step 2 - Download the Philips Hue app to your smartphone.

Step 3: Connect and Control

Open the Philips Hue Bluetooth app and follow the on-screen instructions to discover and connect your new smart bulbs. Once connected, you can control up to 10 lights in one room using the app or voice commands with compatible smart assistants like Alexa or Google Assistant.

Image: Comparison of features available with Bluetooth-only control versus a Philips Hue Bridge.

OPERATING YOUR PHILIPS HUE BULB

The Philips Hue Smart A19 LED Bulb offers versatile control options to suit your preferences.

App Control

Use the Philips Hue app to:

- Turn lights on/off.
- Adjust brightness (dimmable soft white light).
- Set scenes for different moods or activities (e.g., Energy, Concentrate, Read, Relax).

Dimmable and warm-to-cool white light for every moment of the day

Voice Control

Integrate your Philips Hue bulbs with voice assistants for hands-free control:

- **Alexa:** "Alexa, turn on the living room light." "Alexa, dim the light to 50%."
- **Google Assistant:** "Hey Google, turn off the bedroom light." "Hey Google, set the kitchen light to warm white."

Ensure your smart assistant device is properly linked to your Philips Hue account via the respective app settings.

ADVANCED FEATURES WITH PHILIPS HUE BRIDGE

For a more comprehensive smart lighting experience, consider adding a Philips Hue Bridge (sold separately). The Bridge unlocks the full potential of your Hue system, offering:

- Control up to 50 light points throughout your entire home, indoors and outdoors.
- Home and away control, allowing you to manage your lights from anywhere in the world.
- Set timers and routines for automated lighting schedules.
- Integration with a wider range of smart home partners and accessories (e.g., smart switches, motion sensors).
- A secure and stable connection that operates independently of your Wi-Fi, ensuring reliable performance.
- Matter compatibility for broader smart home ecosystem integration.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Smart A19 LED Bulb, consider the following common solutions:

- **Connectivity Issues (Bluetooth):** Ensure your smartphone's Bluetooth is enabled and you are within range of the bulb (typically one room). Restarting the Hue Bluetooth app or your phone may resolve temporary glitches.
- **Connectivity Issues (Hue Bridge):** Verify that your Hue Bridge is powered on and connected to your router. Check the network connection of your Bridge and ensure it's visible in the Hue app.
- **Bulb Not Responding:** Try turning the light switch off and on again to power cycle the bulb. If using a dimmer switch, ensure it is set to full power, as smart bulbs require constant power.
- **Pairing Problems:** If a bulb fails to pair, try resetting it. Some bulbs can be reset by turning them off and on a specific number of times (check the Philips Hue support website for specific instructions for your bulb model).
- **Voice Assistant Integration:** Confirm that your Philips Hue account is correctly linked to your Alexa, Google Assistant, or Apple Homekit account within their respective apps.

WARRANTY AND SUPPORT

The Philips Hue Smart 60W A19 LED Bulb comes with a **3-year warranty**. For technical support, product registration, or further assistance, please visit the official Philips Hue support website or contact their customer service. Keep your proof of purchase for warranty claims.
