Celly Car Holder Flex Plus Instruction Manual

Model: MOUNTFLEXPLUSBK

INTRODUCTION

This instruction manual provides detailed guidance for the proper installation, operation, and maintenance of your Celly Car Holder Flex Plus. Please read this manual thoroughly before using the product to ensure optimal performance and safety.

PRODUCT OVERVIEW

The Celly Car Holder Flex Plus is a universal smartphone holder designed for secure mounting in vehicles. It features a strong suction cup for attachment to either the dashboard or windscreens, automatic arms for easy phone placement, a flexible arm for optimal positioning, and 360° rotation capability.

Key Features:

- Strong suction cup for secure attachment.
- Automatic arms for convenient smartphone insertion and removal.
- Flexible arm (14 cm) for adjustable viewing angles.
- 360° rotatable head for portrait or landscape orientation.
- Compatible with smartphones up to 6.5 inches.

SETUP AND INSTALLATION

Follow these steps to properly install your Celly Car Holder Flex Plus in your vehicle.

- 1. Choose a Mounting Location:** Select a clean, flat surface on your dashboard or windshield. Ensure the chosen location does not obstruct your view of the road or interfere with airbags or vehicle controls.
- 2. Clean the Surface:** Thoroughly clean the chosen mounting surface with a suitable cleaner and allow it to dry completely. This ensures maximum suction cup adhesion.
- 3. Attach the Suction Cup:** Press the suction cup firmly against the cleaned surface. Engage the locking mechanism (if present) on the suction cup base to create a strong vacuum seal.

4. **Adjust the Flexible Arm:** Position the flexible arm to your desired viewing angle. The 14 cm flexible arm allows for significant adjustment.
5. **Orient the Phone Cradle:** Rotate the phone cradle 360° to achieve either portrait or landscape orientation, as preferred.

OPERATING INSTRUCTIONS

Using your Celly Car Holder Flex Plus is straightforward:

- 1. Inserting Your Smartphone:** Gently press the release button or spread the automatic arms of the cradle. Place your smartphone into the cradle, ensuring it sits securely between the arms. The arms will automatically adjust to grip your phone.
- 2. Removing Your Smartphone:** To remove your smartphone, gently press the release button or spread the automatic arms to release the grip.
- 3. Adjusting Viewing Angle:** The flexible arm allows you to bend and position your smartphone for optimal viewing. The cradle can also be rotated 360 degrees to switch between portrait and landscape modes.

Figure 7: An alternative close-up of the phone cradle, highlighting its textured surface for enhanced grip and stability.

MAINTENANCE

To ensure the longevity and proper functioning of your Celly Car Holder Flex Plus, follow these simple maintenance guidelines:

- **Cleaning:** Regularly wipe the holder and suction cup with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the materials.
- **Suction Cup Care:** If the suction cup loses its grip, clean both the cup and the mounting surface thoroughly. A small amount of moisture on the suction cup can sometimes help restore adhesion.
- **Storage:** When not in use for extended periods, store the holder in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Celly Car Holder Flex Plus, refer to the following common problems and solutions:

- **Problem:** The suction cup does not adhere securely to the dashboard or windshield.

Solution:

- Ensure the mounting surface is clean, dry, and free of dust or grease.
- For textured dashboards, the suction cup may not form a perfect seal. Consider mounting on the windshield or using a smooth adhesive disc (not included) if dashboard mounting is preferred.
- Press the suction cup firmly and engage the locking lever completely.

- **Problem:** The phone cradle arms do not grip the smartphone properly.

Solution:

- Ensure your smartphone's size is within the compatible range (up to 6.5 inches).
- Check for any obstructions in the cradle mechanism.
- Ensure the phone is centered in the cradle before the arms close.

- **Problem:** The flexible arm vibrates excessively.

Solution:

- Ensure the suction cup is firmly attached.
- Adjust the arm to a position that minimizes leverage and vibration.

SPECIFICATIONS

Model Number	MOUNTFLEXPLUSBK
Product Dimensions	12.8 x 2.68 x 3.43 inches
Item Weight	5.8 ounces
Color	Black
Manufacturer	Celly
Compatible Devices	Smartphones
