Nilfisk One 128390119 Compact Bagged Vacuum Cleaner User Manual

Model: 128390119

1. INTRODUCTION

The Nilfisk One is a compact, powerful, and lightweight bagged vacuum cleaner designed for efficient cleaning of both hard floors and carpets. Its small size makes it ideal for homes with limited storage space, while its strong suction ensures thorough dirt removal. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your Nilfisk One vacuum cleaner.

Image 1.1: The Nilfisk One vacuum cleaner, showcasing its compact design and hose storage.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the voltage indicated on the rating label corresponds to your mains voltage.
- Do not use the vacuum cleaner near water or in wet conditions.
- Unplug the appliance from the power outlet before cleaning, performing maintenance, or changing accessories.
- Do not pick up liquids, hot ashes, burning cigarettes, or sharp objects with the vacuum cleaner.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Do not use without the dust bag and filters correctly installed.

3. PACKAGE CONTENTS

Verify that all components are present in the packaging:

- Nilfisk One Vacuum Cleaner Unit
- Flexible Hose
- Telescopic Tube
- Combined Floor Nozzle (for hard floors and carpets)
- Round Brush
- Upholstery Nozzle
- Crevice Tool (often integrated or separate)
- EPA 10 Filter (pre-installed or separate)
- Dust Bag (one typically included, others sold separately)

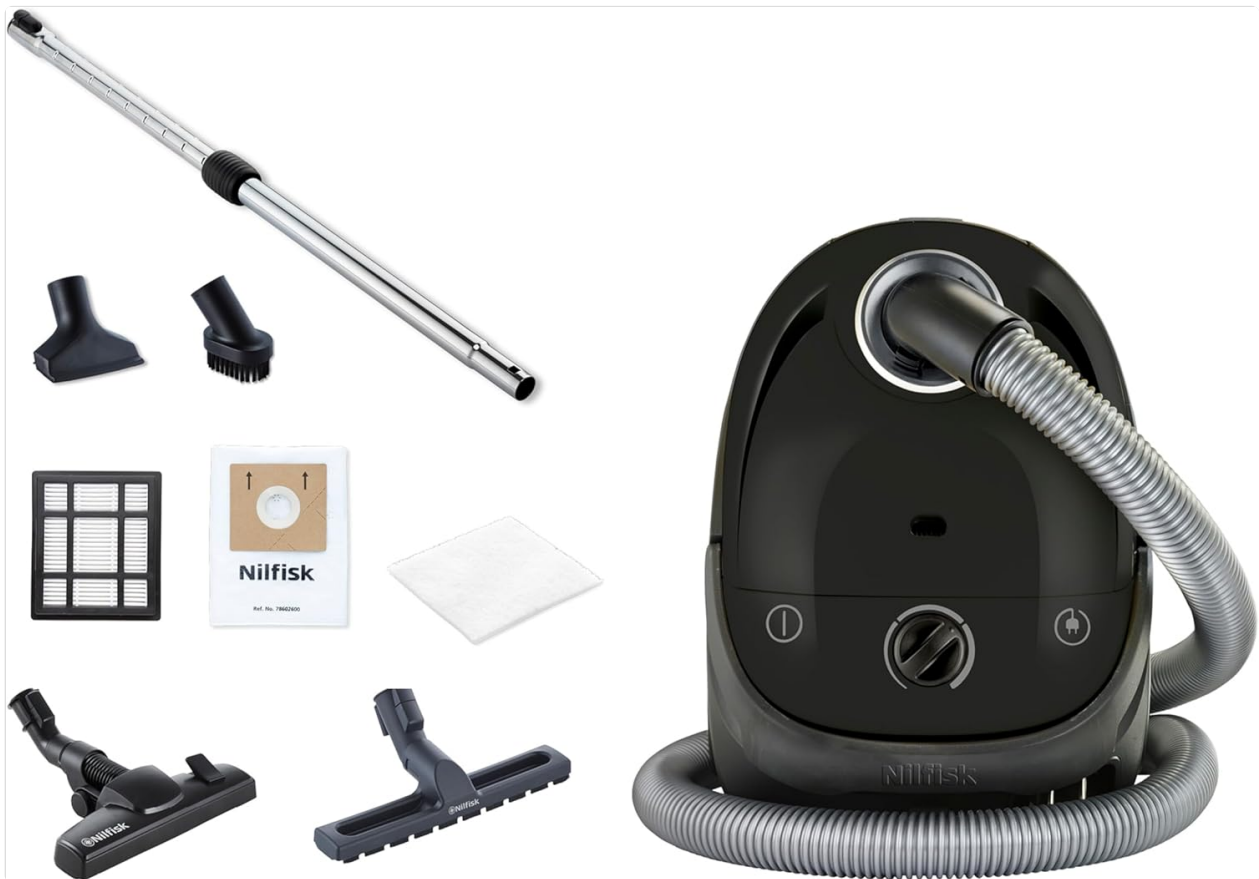

Image 3.1: Overview of the Nilfisk One vacuum cleaner and its included accessories.

4. SETUP

Follow these steps to assemble your Nilfisk One vacuum cleaner:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Attach Hose:** Insert the flexible hose into the suction inlet on the main unit until it clicks securely into place.
3. **Connect Telescopic Tube:** Attach the telescopic tube to the handle end of the flexible hose. Extend the

tube to a comfortable working length by pressing the release button and pulling.

4. **Install Nozzle:** Select the appropriate cleaning nozzle (e.g., combined floor nozzle) and attach it to the end of the telescopic tube.
5. **Check Dust Bag and Filter:** Open the dust bag compartment (refer to Section 6 for details) and ensure a dust bag is correctly installed and the EPA 10 filter is in place. Close the compartment securely.

5. OPERATING INSTRUCTIONS

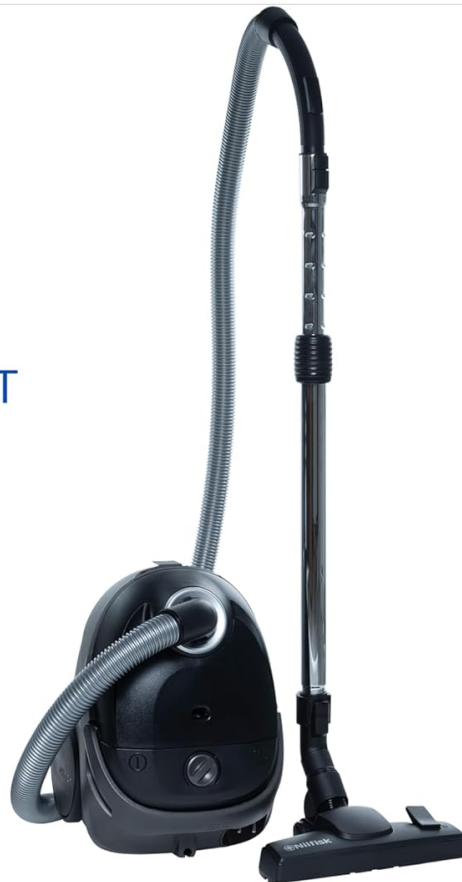

Operating your Nilfisk One vacuum cleaner is straightforward:

1. **Power Connection:** Unwind the power cord (5 meters in length) and plug it into a suitable electrical outlet.
2. **Power On/Off:** Press the ON/OFF button located on the main unit to start or stop the vacuum cleaner.
3. **Adjust Suction Power:** The Nilfisk One features adjustable motor speed. Use the power control dial on the unit to increase or decrease suction power according to the cleaning task and surface type. Lower settings are suitable for delicate fabrics or light cleaning, while higher settings are for deep cleaning carpets or heavily soiled hard floors.
4. **Cleaning Surfaces:**
 - **Hard Floors:** Use the combined floor nozzle with the brush setting engaged (usually by pressing a pedal on the nozzle).
 - **Carpets/Rugs:** Use the combined floor nozzle with the brush setting retracted.
 - **Upholstery:** Attach the upholstery nozzle for cleaning furniture.
 - **Crevices/Corners:** Use the crevice tool for narrow spaces.

- **Delicate Surfaces:** Use the round brush for dusting shelves, blinds, or other delicate items.

5. **Cord Rewind:** After use, unplug the power cord and press the cord rewind button on the unit to automatically retract the cord.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your Nilfisk One vacuum cleaner.

6.1. Dust Bag Replacement

The vacuum cleaner is equipped with a dust bag full indicator. Replace the dust bag when the indicator shows it is full, or when suction power noticeably decreases.

1. Unplug the vacuum cleaner from the power outlet.
2. Open the dust bag compartment cover.
3. Carefully remove the full dust bag, ensuring the opening is sealed to prevent dust leakage.
4. Insert a new Nilfisk-compatible dust bag, ensuring it is correctly seated in the holder.
5. Close the dust bag compartment cover securely until it latches.

6.2. Filter Cleaning and Replacement

The Nilfisk One uses an EPA 10 filter. This filter should be checked regularly and replaced approximately every 6-12 months, or more frequently with heavy use.

1. Unplug the vacuum cleaner.
2. Locate the filter compartment (often near the dust bag or at the exhaust).
3. Remove the EPA 10 filter. If it is washable, rinse it under cold running water until the water runs clear. Allow it to air dry completely for at least 24 hours before reinserting. Do not use heat to dry.
4. If the filter is not washable or is heavily soiled, replace it with a new Nilfisk EPA 10 filter.
5. Reinsert the clean/new filter and close the compartment.

6.3. Hose and Nozzle Cleaning

Check the hose and nozzles periodically for blockages. Remove any debris to maintain optimal airflow.

6.4. Exterior Cleaning

Wipe the exterior of the vacuum cleaner with a soft, damp cloth. Do not use abrasive cleaners or solvents.

7. TROUBLESHOOTING

If you encounter issues with your Nilfisk One, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Power cord not plugged in; no power at outlet; ON/OFF switch faulty.	Check power cord connection; test outlet with another appliance; contact service center.
Loss of suction	Dust bag full; filters clogged; hose/nozzle blocked; incorrect power setting.	Replace dust bag; clean/replace filters; remove blockages; increase suction power.
Unusual noise	Blockage in hose/nozzle; foreign object in fan; motor issue.	Check for and remove blockages; contact service center if noise persists.
Overheating	Clogged filters; full dust bag; motor overworked due to blockage.	Clean/replace filters; replace dust bag; remove any blockages. Allow unit to cool down.

If the problem persists after attempting these solutions, please contact Nilfisk customer support.

8. SPECIFICATIONS

Key technical specifications for the Nilfisk One 128390119 vacuum cleaner:

- **Brand:** Nilfisk
- **Model Number:** 128390119
- **Dimensions (L x W x H):** 54 x 32.8 x 32.2 cm
- **Weight:** 4.5 Kilograms
- **Capacity:** 3 Liters
- **Power:** 750 Watts
- **Voltage:** 240 Volts
- **Number of Speeds:** 2 (Adjustable)
- **Energy Class:** A
- **Noise Level:** 77 dB
- **Filter Type:** EPA 10 Filter
- **Special Features:** Compact, HEPA filtration, Bagged, Adjustable Speed
- **Cord Length:** 5 meters (flexible)
- **Surface Recommendation:** Hard Floor, Carpet

Näffisk One is a small & handy vacuumer and is therefore perfect for small places and confined spaces.

A strong yet power efficient cleaner that can be stored in conveniently cramped spaces, it sounds too good to be true, but the Milbark One range makes it possible. A small vacuum cleaner that can be used on hard floors and carpet, made for modern living.

The Milbark One range is perfect for those who care about the cleanliness of their homes, but don't want to fill up storage spaces with cleaning appliances. The One is a small vacuum cleaner, but it rivals much larger cleaners in power. A specially designed strong belt holds the hose against the vacuum, allowing you to store the compact device in conveniently small spaces in your home. The powerful suction, combined with the One's fanless monoventilator makes it effective in all small to medium sized homes. The adjustable motor speed means you can optimize power efficiency in every task.

- **Easy to store** - Compact and reliable with storage belt.
 - **Fantastic manoeuvrability** - Easy access to hard-to-reach spaces.
 - **High performance** - Powerful motor on carpet and on hard floor.
 - **Efficient** - Very good energy ratings for its size.
 - **Adjustable motor speed** - Adjust the power to adapt to any task.
 - **Stylish** - The sleek design comes in a range of colours.

Nifisk One

En stark men ändå energiförbrukande dammsugare som kan flyttas i tåliga styren. Det låter lite för lite för att vara sant, men tillförs One-satsen ett par droppar av det mjölkigt, färglösa och inte alls smetiga på håret och matlag, gör du en modern lösning.

Tillförs One-serien är idealisk för alla som vill kunna hålla hemmet rent, men som inte vill flytta försörjningsutrustning med regelbundet utrymme. One är en liten dammsugare, den kan konsumera med betydligt större dammsugare. En särskilt utvald försörjningsbatteri håller i stället med dammsugaren så att du bekvämt kan flytta den kompletta apparaten i små utrymmen i ditt hem. Den kraftfulla sugfilmen i kombination med One's testadast materialverksamhet gör att den effektivt samlar 99,99 procent av dammet. Den jobbar inte med tvättning, men innebär att du kan optimera energiförbrukningen för varje appall.

- Enkel at fjerne - Kæmpet og smidig med fæstningsballe.
- Fantastisk manøvrerbar - enkel tilslutning til nedluknings system.
- Høj prestation - Kraftfuld sugeløs på matten og hårde gulv.
- Effektiv - Nykter for malket for sin størrelse.
- Justerbar motorhøjdhed - Juster effektivitet for at passe alle søgler.
- Dåren - Den unikke designen for i en ret øfte bogen.

Vacuum cleaners

Nilfisk One

Nilfisk One is a small & handy vacuumer and is therefore perfect for small places and confined spaces.

The Nilfisk One is built with your safety in mind. All models are fitted with our very good stability system. The Nilfisk One is a small & handy vacuumer, compact and it therefore perfect for small places and confined spaces. The model is easy to use, we have also fitted the Nilfisk One with click to fit in the handle. Very good energy savings for its class.

Are you living in a smaller apartment or home or need for a second vacuum cleaner? Nilfisk One is the machine for you!

Nilfisk One Series - designed with safety being in mind

The Nilfisk One range has been designed with safety being in mind. It's compact for easy storage without compromising on performance, manoeuvrability or safety.

Living spaces today are becoming smaller and the means space is more precious. Nilfisk have designed the One Series with this thought in mind. The smaller design means easy storage in any living situation, along with a specially designed storage lock that enables the hose to be held in place when wrapped around the vacuum.

You'll also spend less time cleaning with a machine that provides all the performance of full size, but that still fits in the corner of any living space. You can effectively adjust the motor speed to meet your specific cleaning task, and with handy on board measurements, easy manoeuvrability and a clear bag full indicator showing you when to change the bag, cleaning could not be made easier.

As you would expect, the performance and energy savings from the new Nilfisk One products are second to none.

• EPA 10 through to EPA 14 (30 litres per hour clean weight air)
• Good dust pick up on carpet and hard flooring
• Low energy usage with a 750 watt or 600 watt motor and minimum 500 litres filtration
• On top of all that you can choose a set of different colors that match your choice

The Nilfisk One series of vacuum cleaners is another example of quality engineering and modern features that Nilfisk are renowned for.

- Stability: No problem getting this small vacuum into a design solution. Just wrap the hose around the machine and away it goes into storage
- Good & Handy: High manoeuvrability and easy access to confined spaces
- Cleaning performance: Good dust pickup on carpet and on hard floor
- Nilfisk quality: Strong suction and excellent cleaning result with an EPA or HEPA filter
- Very good energy savings for its class
