SETUP AND FIRST USE

Upon receiving your Docolor Makeup Brush Set, it is recommended to perform an initial cleaning before first use. This helps remove any manufacturing residues and ensures optimal performance and hygiene.

1. Gently wet the bristles with lukewarm water.
2. Apply a small amount of mild soap or brush cleanser to the bristles.
3. Gently massage the bristles in the palm of your hand or on a textured cleaning mat to create a lather.
4. Rinse thoroughly under lukewarm water until the water runs clear and no soap residue remains.
5. Gently squeeze out excess water and reshape the brush head.
6. Lay brushes flat or hang them upside down to air dry completely before use.

OPERATING INSTRUCTIONS: BRUSH USAGE GUIDE

Each brush in the Docolor set is designed for specific makeup application techniques. Refer to the guide below for recommended uses:

Image: Visual guide illustrating the recommended application areas for each brush type, including Foundation, Powder, Blush, Bronzer, Blending, Eyeshadow, Pencil, Lip, and Eyebrow brushes.

Brush Application Guide

Brush Type	Recommended Use
Foundation Brush	For applying liquid or cream foundation evenly on the forehead and cheeks.
Powder Brush	Used to dip in loose or pressed powder to set makeup.
Blush Brush	Ideal for applying blush to the apples of the cheeks.
Bronzer Brush	For dipping in bronzer and contouring the face.
Blending Brush	For blending eyeshadow primer and creating seamless transitions between colors.
Eyeshadow Brushes	Various shapes for applying, packing, and blending eyeshadow for a natural look.
Pencil Brush	For precise application of eyeshadow along the lash line or in the crease.
Lip Brush	To delineate the lip line and apply lipstick or gloss with precision.
Eyebrow Brush	For drawing delicate eyebrows and grooming brow hairs.

MAINTENANCE AND CARE

Regular cleaning and proper storage are crucial for maintaining the longevity and performance of your Docolor makeup brushes. Clean brushes prevent product buildup, bacterial growth, and ensure smooth application.

Cleaning Instructions:

- Daily Spot Cleaning:** For quick cleaning between uses, spray a brush cleaning solution onto a tissue and gently swirl the brush bristles on it until clean.
- Deep Cleaning (Weekly/Bi-weekly):**
 - Wet the brush bristles under lukewarm running water, avoiding getting water into the ferrule (the metal part connecting bristles to handle).
 - Apply a small amount of gentle soap (like baby shampoo) or a dedicated brush cleanser to the bristles.
 - Gently swirl the brush on a textured silicone cleaning mat or in the palm of your hand to work up a lather and dislodge makeup residue.
 - Rinse the bristles thoroughly under lukewarm running water until the water runs clear.
 - Gently squeeze out excess water from the bristles and reshape the brush head to its original form.
 - Lay the brushes flat on a clean towel or use a brush drying rack to dry them completely. Ensure they are not standing upright, as water can seep into the ferrule and loosen the glue over time.

Storage:

Store your brushes in a dry, clean place, preferably in a brush holder or a makeup bag to protect them from dust and damage. Avoid storing them in humid environments, which can affect the brush integrity.

TROUBLESHOOTING

Below are some common issues users might encounter and their potential solutions:

Issue	Possible Cause / Solution
Bristle Shedding	Minor shedding can occur with new brushes. If excessive, ensure you are not using overly hot water during cleaning or pulling on the bristles. Proper drying (laying flat) also helps maintain bristle integrity.
Product Buildup / Stiff Bristles	This indicates insufficient cleaning. Perform a deep clean as described in the Maintenance section. Ensure all makeup residue is rinsed out.
Handles Cracking or Warping	This can happen if water seeps into the wooden handle, especially if brushes are dried upright. Always dry brushes flat or upside down. Avoid prolonged exposure to moisture.
Brush Not Blending Effectively	Ensure the brush is clean and free of old product. The brush type might also be unsuitable for the specific product or blending technique. Refer to the "Operating Instructions" for recommended uses.

SPECIFICATIONS

Attribute	Detail
Brand	docolor

Attribute	Detail
