WOLTU BH138hgr-2

WOLTU BH138hgr-2 Bar Stool Set - Assembly and Care Manual

Model: BH138hgr-2 | Brand: WOLTU

1. INTRODUCTION

Thank you for choosing the WOLTU BH138hgr-2 Bar Stool Set. This manual provides essential instructions for the safe assembly, operation, and maintenance of your new bar stools. These bar stools feature an ergonomic design with a comfortable velvet-padded seat, backrest, and footrest. They are height-adjustable, offer a 360° swivel function, and are built with a robust metal frame and anti-slip base for stability and durability.

2. SAFETY INSTRUCTIONS

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Important:** Always remove the protective cap from the gas lift BEFORE installation.
- Ensure all components are securely fastened before using the stool.
- Do not exceed the maximum weight capacity of **150 kg (330 lbs)**.
- Keep children away from the assembly area. Small parts may pose a choking hazard.
- Use the bar stool on a flat, stable, and level surface to prevent tipping.
- Avoid standing on the stool or using it as a ladder.
- Do not expose the stool to extreme temperatures or direct sunlight for prolonged periods.

3. SETUP AND ASSEMBLY

The bar stool set comes with illustrated assembly instructions and all necessary accessories for quick and easy setup. Please follow the steps below:

1. **Unpack Components:** Carefully unpack all parts from the packaging. Verify that all components are present according to the included parts list.
2. **Remove Gas Lift Cap:** Locate the gas lift cylinder. **Crucially, remove the protective plastic cap from the top of the gas lift BEFORE proceeding with assembly.**
3. **Attach Footrest:** Slide the footrest ring onto the gas lift cylinder.
4. **Insert Gas Lift into Base:** Place the large circular base on a flat surface. Insert the wider end of the gas lift cylinder into the central hole of the base.
5. **Attach Seat:** Align the mounting plate under the seat with the top of the gas lift cylinder. Gently press the seat onto the gas lift until it is securely seated.
6. **Final Check:** Ensure all connections are firm and the stool is stable before use.

4. OPERATING INSTRUCTIONS

4.1. Height Adjustment

The bar stool features a gas lift mechanism for easy height adjustment, allowing the seat height to be set between 61 cm and 82 cm.

- **To Raise the Seat:** While standing, lift the lever located under the right side of the seat. The seat will automatically rise. Release the lever when the desired height is reached.
- **To Lower the Seat:** While seated, lift the lever located under the right side of the seat. The seat will lower under your weight. Release the lever when the desired height is reached.

4.2. Swivel Function

The seat can rotate 360 degrees, providing flexibility and ease of movement. Simply turn the seat in the desired direction.

360° SWIVEL AND HEIGHT ADJUSTABLE

- Flexible 360° Swivel Function

- Seat Height Adjustable within 61-82cm

5. MAINTENANCE

Proper care will extend the life and appearance of your bar stools.

5.1. Cleaning Velvet Upholstery

- Gently vacuum the velvet upholstery regularly using a soft brush attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and damage the fabric.
- For stubborn stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first. Follow the cleaner's instructions carefully.
- Avoid using harsh chemicals or abrasive cleaners.

5.2. Cleaning Metal Parts

- Wipe metal parts (base, gas lift, footrest) with a soft, dry cloth to remove dust and fingerprints.
- For more persistent marks, use a slightly damp cloth with mild soap and water. Dry immediately with a clean, dry cloth to prevent water spots or rust.
- Do not use abrasive cleaners or scouring pads, as these can scratch the chrome finish.

5.3. General Care

- Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- Avoid exposing the stool to direct sunlight or extreme temperatures to prevent material degradation and fading.
- Protect floors by using appropriate floor glides or pads under the base if not already present.

6. TROUBLESHOOTING

If you encounter any issues with your bar stool, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Stool is wobbly	Loose assembly screws; uneven floor surface.	Check and tighten all assembly screws. Ensure the stool is on a flat, level surface.

Problem	Possible Cause	Solution
Height adjustment not working	Protective cap still on gas lift; lever mechanism obstructed or damaged.	Ensure the protective cap was removed from the gas lift during assembly. Check for any obstructions around the lever. If damaged, contact support.
Squeaking noises	Friction in moving parts (gas lift, swivel).	Apply a small amount of silicone spray to the moving parts of the gas lift or swivel mechanism.
Stool slides easily	Base not gripping floor sufficiently.	Ensure the anti-slip ring on the base is clean and intact. Use a non-slip mat if necessary.

7. SPECIFICATIONS
