Volcano VK-3039-BK

Volcano Piston Series VK-3039-BK Bluetooth Hands-Free Car Kit User Manual

Model: VK-3039-BK

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your Volcano Piston Series VK-3039-BK Bluetooth Hands-Free Car Kit. Please read this manual thoroughly before use and retain it for future reference.

Safety Information

- Do not expose the device to extreme temperatures, direct sunlight, or moisture.
- Do not attempt to disassemble or modify the device.
- Keep out of reach of children.
- Ensure the device is securely plugged into the car's 12V socket.
- Always prioritize safe driving. Do not operate the device in a way that distracts you from the road.

2. PRODUCT OVERVIEW

The Volcano Piston Series VK-3039-BK is a versatile Bluetooth hands-free car kit designed for in-car audio streaming and device charging. It features a durable metal housing and an LED display for status updates.

Image 1: Volcano Piston Series VK-3039-BK Bluetooth Hands-Free Car Kit. This image shows the device from a slightly angled front view, highlighting the LED display, control buttons, and dual USB charging ports at the top, and the 12V car adapter plug at the bottom.

Key Features:

- Durable metal housing for enhanced stability.
- Supports Quick Charge 3.0 (QC3) for rapid device charging.
- Integrated LED display for real-time information.
- Dual USB charging ports for simultaneous charging of two devices.
- USB input for music playback.
- Bluetooth connectivity for hands-free calls and audio streaming.

3. SETUP

3.1 Device Installation

1. Insert the Volcano Piston Series Car Kit into your vehicle's 12V power socket (cigarette lighter port).
2. The LED display will illuminate, indicating the device is powered on.

3.2 Bluetooth Pairing

1. On your mobile device, enable Bluetooth.
2. Search for available Bluetooth devices and select "VK-3039-BK" (or similar name) from the list.
3. Once paired, the device will confirm the connection, and you can begin streaming audio.

3.3 FM Frequency Tuning

1. Tune your car's FM radio to an unused frequency (one with static or no broadcast).
2. Adjust the FM frequency on the Volkano Piston Series Car Kit to match your car's radio frequency. Refer to the device's controls for frequency adjustment (typically buttons or a dial).
3. Once matched, audio from your paired Bluetooth device or USB drive will play through your car's speakers.

4. OPERATING INSTRUCTIONS

4.1 Music Playback

- **Bluetooth Streaming:** After successful Bluetooth pairing, play music on your mobile device. The audio will transmit to your car's speakers via the selected FM frequency.
- **USB Playback:** Insert a USB flash drive containing MP3/WMA audio files into the designated USB input port. The device will automatically detect and play the music.
- **Controls:** Use the device's buttons to skip tracks forward/backward and pause/play music.

4.2 Hands-Free Calling

- **Answering Calls:** When a call comes in, press the designated call button (often indicated by a phone icon) on the device to answer.
- **Ending Calls:** Press the call button again to end the conversation.
- **Rejecting Calls:** Press and hold the call button to reject an incoming call.
- **Redialing:** Double-press the call button to redial the last number.

4.3 Device Charging

- Connect your device's charging cable to one of the USB charging ports on the car kit.
- The device supports Quick Charge 3.0 for compatible devices, providing faster charging speeds.
- The dual charging ports allow two devices to be charged simultaneously.

5. MAINTENANCE

- Clean the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Ensure the 12V power socket and USB ports are free from dust and debris.
- Store the device in a cool, dry place when not in use for extended periods.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power to the device.	Not properly inserted into 12V socket; vehicle power off.	Ensure the car kit is fully inserted. Check if the vehicle's ignition is on.
Cannot pair via Bluetooth.	Bluetooth not enabled on mobile device; device too far; incorrect pairing mode.	Ensure Bluetooth is active on your phone. Move closer to the car kit. Restart both devices and try pairing again.
Audio interference/static.	FM frequency interference; weak signal.	Find a clearer, unused FM frequency on your car radio and match it on the car kit. Avoid frequencies used by strong local radio stations.
Slow charging or no charging.	Cable issue; device not compatible with Quick Charge 3.0; dirty USB port.	Try a different USB cable. Ensure your device supports QC3 for fast charging. Clean the USB ports.

7. SPECIFICATIONS

Model	VK-3039-BK
Brand	Volkano
Connectivity Technology	Bluetooth
Special Features	Fast Charging (Quick Charge 3.0), LED Display, Dual USB Ports
Material	Metal
Item Weight	100 g
Product Dimensions	21L x 10.3W x 7H centimetres
Power Source	Corded Electric (12V Car Socket)
