› UPS Battery Center Replacement 6V 9Ah Sealed Lead Acid Battery User Manual for Rollplay Mercedes GL White Ride-On Toy Model W488AC

## UPS Battery Center W488AC

# UPS Battery Center Replacement 6V 9Ah Sealed Lead Acid Battery User Manual

For Rollplay Mercedes GL White Ride-On Toy Model W488AC

## INTRODUCTION

---

This manual provides essential instructions for the safe and effective use, installation, charging, and maintenance of your UPS Battery Center 6 Volt 9 Amp-hour (6V 9Ah) Sealed Lead Acid (SLA) replacement battery. This battery is specifically designed for compatibility with the Rollplay Mercedes GL White ride-on toy, model W488AC.

Please read this manual thoroughly before installing or using the battery to ensure optimal performance and safety.

## SAFETY INFORMATION

---

**WARNING: Improper handling of batteries can lead to serious injury or damage. Always follow these safety guidelines:**

- Do not short circuit the battery terminals.
- Do not disassemble, heat above 60°C (140°F), or incinerate the battery.
- Keep sparks, flames, and flammable materials away from the battery.
- Always wear appropriate personal protective equipment (PPE) when handling batteries, including gloves and eye protection.
- Keep batteries out of reach of children.
- In case of accidental contact with battery acid, flush immediately with water and seek medical attention.
- Ensure proper ventilation during charging.

## WHAT'S IN THE BOX

---

- (1) UPS Battery Center 6V 9Ah Sealed Lead Acid Replacement Battery (assembled & ready to use)

## SPECIFICATIONS

Feature	Detail
Brand	UPS Battery Center
Model Compatibility	Rollplay Mercedes GL White (Model: W488AC)
Voltage	6 Volts
Capacity	9 Amp-hour (9Ah)
Battery Type	Sealed Lead Acid (SLA)
Expected Life Span	3-5 years
Condition	New, Fresh Stock

## INSTALLATION INSTRUCTIONS

1. **Locate Battery Compartment:** Identify the battery compartment in your Rollplay Mercedes GL White ride-on toy. This is typically under the hood or seat.
2. **Disconnect Old Battery:** Carefully disconnect the existing battery. Note the polarity (positive and negative terminals) before removal.
3. **Remove Old Battery:** Lift the old battery out of the compartment.
4. **Insert New Battery:** Place the new UPS Battery Center 6V 9Ah battery into the compartment. Ensure it fits securely.
5. **Connect New Battery:** Connect the new battery, ensuring correct polarity. The battery comes with pre-assembled wiring and a fuse for direct replacement.
6. **Secure Compartment:** Close and secure the battery compartment cover.

Image: The UPS Battery Center 6V 9Ah Sealed Lead Acid replacement battery, featuring its black casing, red and black wiring, and an inline green fuse. This battery is designed for direct replacement in compatible ride-on toys.

## CHARGING INSTRUCTIONS

The battery arrives fully charged and ready for immediate use. For subsequent charges, follow these guidelines:

- Use only the charger provided with your ride-on toy or a compatible 6V charger specifically designed for Sealed Lead Acid batteries.
- Connect the charger to the battery according to the ride-on toy's instructions.
- Charge the battery for the recommended duration as specified in your ride-on toy's manual. Overcharging can reduce battery life.
- Do not leave the battery charging unattended for extended periods.

## MAINTENANCE

- **Regular Charging:** To maximize battery life, charge the battery after each use, even if only for a short period.
- **Storage:** If storing the ride-on toy for an extended period, fully charge the battery before storage and recharge it every 2-3 months to prevent deep discharge. Store in a cool, dry place.
- **Cleaning:** Keep battery terminals clean and free of corrosion. Use a dry cloth to wipe down the battery.
- **Inspection:** Periodically inspect the battery for any signs of damage, swelling, or leakage. Discontinue use immediately if any issues are observed.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Toy does not power on.	Battery not connected, battery discharged, blown fuse.	Ensure battery is properly connected. Charge the battery. Check and replace the fuse if necessary.
Short run time after charging.	Battery not fully charged, battery nearing end of life.	Ensure proper charging duration. Consider replacing the battery if it's old.
Battery not charging.	Charger malfunction, faulty connection, blown fuse.	Check charger and connections. Verify the fuse. Contact support if issues persist.

If troubleshooting steps do not resolve the issue, please contact UPS Battery Center customer support.

## WARRANTY AND SUPPORT

This UPS Battery Center replacement battery is covered by a **1-year replacement warranty** from the date of purchase. This warranty covers manufacturing defects and ensures the battery performs as specified under normal use.

For warranty claims, technical support, or any questions regarding your battery, please contact UPS Battery Center customer service. Please have your purchase information and battery model number (W488AC) ready when contacting support.
