Ochoos Replacement Air Conditioner Remote Control User Manual

For Fujitsu Models: ASY9USCCW, ASY12USCCW, ASAG09LJC, ASAG12LJC, RS12UC, ASH12LSACW, RSG12LKC

1. Introduction

This manual provides essential instructions for the proper setup, operation, and maintenance of your Ochoos replacement remote control for Fujitsu air conditioners. This remote is designed to function as a direct replacement for the original unit, offering reliable control over your air conditioning system. Please read this manual thoroughly before use to ensure optimal performance and longevity of your remote control.

2. Setup

2.1 Battery Installation

The remote control requires two AAA batteries (not included). Follow these steps to install the batteries:

1. Locate the battery compartment cover on the back of the remote control.
2. Press down on the tab and slide the cover off.
3. Insert two new AAA batteries, ensuring that the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Slide the battery compartment cover back into place until it clicks securely.

Important: Do not mix old and new batteries. Do not mix different types of batteries. Remove batteries if the remote will not be used for an extended period.

3. Operating Instructions

3.1 Basic Operation

Once batteries are installed, the remote control is ready for use. Point the remote control directly at the infrared receiver on your Fujitsu air conditioner. Press the desired function buttons to control your unit.

3.2 Compatible Models

This remote control is compatible with the following Fujitsu air conditioner models:

- ASY9USCCW
- ASY12USCCW
- ASAG09LJC
- ASAG12LJC
- RS12UC
- ASH12LSACW
- RSG12LKC

If your specific model number is not listed, please refer to the 'Warranty and Support' section for assistance.

Figure 2: Back of the remote control, indicating model information and battery requirements.

4. Maintenance

4.1 Cleaning

To clean the remote control, wipe it with a soft, dry cloth. Do not use abrasive cleaners, solvents, or chemical wipes, as these can damage the surface or internal components.

4.2 Storage

Store the remote control in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, remove the batteries to prevent leakage.

5. Troubleshooting

If your remote control is not functioning as expected, please check the following:

- **No response from AC unit:** Ensure the remote has fresh AAA batteries installed correctly. Check that there is a clear line of sight between the remote control and the air conditioner's infrared receiver. Obstructions can block the signal.
- **Intermittent operation:** Replace batteries with new ones. Ensure the remote is within the effective operating range (up to 9 meters).
- **Incorrect functions:** Verify that your air conditioner model is listed as compatible in Section 3.2.

If problems persist after checking these points, please contact customer support.

6. Specifications

Feature	Specification
Brand	Ochoos
Compatible Devices	Fujitsu Air Conditioners
Connectivity Technology	Infrared (IR)
Battery Type	2 x AAA (not included)
Maximum Range	9 Meters

Number of Buttons	12
