

Instant Pot DUO NOVA 60

Instant Pot NOVA 6 Pressure Cooker (6-Quart) User Manual

Model: DUO NOVA 60

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your Instant Pot NOVA 6 multi-use pressure cooker. The Instant Pot NOVA 6 is designed to simplify cooking by combining multiple kitchen appliances into one versatile unit. Please read this manual thoroughly before first use and retain it for future reference.

Figure 1.1: Front view of the Instant Pot NOVA 6 Pressure Cooker, showcasing the control panel and stainless steel exterior.

2. IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed. Failure to follow these instructions may result in property damage, personal injury, or death.

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Do not use outdoors.

- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- This appliance cooks under pressure. Improper use may result in scalding injury. Ensure unit is properly closed before operating.
- Never force open the Instant Pot. Ensure the pressure has been completely released before opening.
- Do not fill the unit over 2/3 full. When cooking foods that expand during cooking, such as rice or dried vegetables, do not fill the unit over 1/2 full.
- Always check the anti-block shield and steam release valve for clogging before use.

3. PRODUCT OVERVIEW

The Instant Pot NOVA 6 is a 7-in-1 multi-use pressure cooker, combining the functions of a pressure cooker, slow cooker, rice cooker, steamer, sauté pan, food warmer, and yogurt maker.

3.1 Key Features

- **Easy Seal Lid:** Automatically seals for pressure cooking, eliminating the need to manually close the steam release valve.
- **Quick Release Button:** Provides a fast and safe method for steam release.
- **Cooking Status Indicator:** A bright blue LCD display shows the cooking progress, indicating when the pot is coming to pressure and when the cooking cycle begins.
- **13 Smart Programs:** One-touch controls for various cooking functions.
- **6-Quart Capacity:** Ideal for cooking meals for up to 6 people.

3.2 Components and Accessories

Your Instant Pot NOVA 6 includes the following components:

- Main Cooker Base
- Inner Pot (Stainless Steel)
- Lid with Easy Seal mechanism
- Sealing Ring (pre-installed)
- Bonus Sealing Ring
- Steam Rack with Handles
- Condensation Collector (pre-installed at the back)
- Power Cord

Accessories

*Sealing ring colors may vary

Figure 3.1: Included accessories: stainless steel inner pot, steam rack, and two sealing rings.

New! EasySeal™ Lid

Seals automatically for pressure cooking

Figure 3.2: The EasySeal Lid, which automatically seals for pressure cooking.

4. INITIAL SETUP

Before using your Instant Pot NOVA 6 for the first time, follow these steps:

1. **Unpacking:** Remove all packaging materials from inside and around the cooker.
2. **Cleaning:** Wash the inner pot, lid, and sealing ring with warm soapy water. Rinse thoroughly and dry all parts. Wipe the exterior of the cooker base with a damp cloth.
3. **Install Condensation Collector:** Ensure the condensation collector is properly installed at the back of the cooker base.
4. **Perform Water Test:** This test familiarizes you with the Instant Pot's operation and ensures it is functioning correctly.
 - Add 3 cups of water to the inner pot.
 - Place the inner pot into the cooker base.
 - Close the lid, ensuring it is properly aligned and locked. The Easy Seal Lid will automatically set the steam release valve to the sealed position.
 - Press the "Pressure Cook" button, then adjust the time to 5 minutes using the "+" or "-" buttons.

- The cooker will begin preheating, then pressurize. Once pressurized, the cooking cycle will begin.
- After 5 minutes, the cooker will beep and switch to "Keep Warm".
- Press the "Cancel" button.
- Carefully press the Quick Release button to release the steam. Once the float valve drops, you can safely open the lid.

5. OPERATING INSTRUCTIONS

The Instant Pot NOVA 6 features a user-friendly control panel with various smart programs for different cooking needs.

5.1 Control Panel Overview

New! Cooking Status Indicator

Lets you know when your Instant Pot is coming to pressure and when the cooking cycle begins.

Figure 5.1: The Instant Pot NOVA 6 control panel, showing the LCD display and program buttons.

The central LCD display shows cooking time, pressure level, and cooking status. Surrounding buttons activate specific cooking programs.

5.2 Basic Operation Steps

1. **Prepare Ingredients:** Place your ingredients and liquid into the stainless steel inner pot. Ensure the liquid meets the minimum requirement for pressure cooking (typically 1 cup for 6-quart models).
2. **Insert Inner Pot:** Place the inner pot into the cooker base.
3. **Close Lid:** Align the lid with the base and turn it clockwise until it locks. The Easy Seal Lid will automatically set the steam release valve to the sealed position.
4. **Select Smart Program:** Press the desired smart program button (e.g., "Soup/Broth", "Meat/Stew", "Rice"). The default cooking time will appear on the display.
5. **Adjust Time/Pressure (Optional):** Use the "+" or "-" buttons to adjust the cooking time. For some programs, you can also adjust the pressure level (Low/High) or temperature (Less/Normal/More) using the "Pressure Level" or "Adjust" buttons.
6. **Start Cooking:** The cooker will automatically begin preheating after a few seconds. The display will show "On" during preheating. Once pressurized, the cooking timer will begin counting down.
7. **Pressure Release:**
 - **Natural Release (NPR):** Allows pressure to dissipate naturally over time. This is recommended for foamy foods or large cuts of meat. The float valve will drop on its own.
 - **Quick Release (QPR):** Press the Quick Release button on the lid. Steam will rapidly vent from the steam release valve. Keep hands and face clear of the steam.
8. **Open Lid:** Once the float valve has dropped, turn the lid counter-clockwise and lift it off.

5.3 Specific Cooking Functions

- **Pressure Cook:** For fast cooking under pressure. Use the "Pressure Cook" button and adjust time.
- **Sauté:** Use this function to brown meats or sauté vegetables before pressure cooking. Press "Sauté" and adjust temperature (Less/Normal/More).
- **Slow Cook:** For traditional slow cooking. Press "Slow Cook" and adjust time and temperature. Ensure the steam release valve is in the venting position (or use a glass lid, sold separately).
- **Rice:** Automatically adjusts cooking time based on rice volume.
- **Yogurt:** For making homemade yogurt.
- **Keep Warm:** Automatically activates after most cooking programs to keep food warm. Can also be manually selected.
- **Delay Start:** Allows you to set a delayed start time for cooking.

Figure 5.2: Example cooking times for common foods like chicken, ribs, fish fillet, and rice using pressure cooking.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance ensure the longevity and safe operation of your Instant Pot NOVA 6.

- **Inner Pot:** The stainless steel inner pot is dishwasher-safe. For stubborn food residue, soak with warm soapy water before cleaning.
- **Lid:** Hand wash the lid with warm soapy water. Remove the sealing ring and anti-block shield for thorough cleaning. Ensure all parts are dry before reassembling. The sealing ring can be washed in the dishwasher.
- **Sealing Ring:** The sealing ring is crucial for pressure cooking. Inspect it regularly for cracks, deformation, or damage. Replace if necessary (a bonus sealing ring is included).
- **Cooker Base:** Wipe the exterior of the cooker base with a damp cloth. Never immerse the cooker base in water or other liquids.
- **Condensation Collector:** Empty and clean the condensation collector after each use.
- **Steam Release Valve & Float Valve:** Ensure these are clear of food debris before each use.

7. TROUBLESHOOTING

If you encounter issues with your Instant Pot NOVA 6, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Pot not pressurizing	Lid not properly closed, sealing ring not installed or damaged, steam release valve not sealed, insufficient liquid.	Ensure lid is locked, check/reinstall/replace sealing ring, confirm Easy Seal Lid is in sealed position, add more liquid.
Steam leaking from lid	Sealing ring improperly seated or damaged, food debris on rim, lid not closed correctly.	Re-seat or replace sealing ring, clean lid and inner pot rim, ensure lid is fully locked.
Food not cooking properly	Incorrect cooking time/pressure, insufficient liquid, power interruption.	Verify recipe instructions, ensure adequate liquid, check power connection.
Burn message on display	Food stuck to bottom of inner pot, insufficient liquid, thick sauces.	Cancel program, release pressure, check inner pot for stuck food, add more liquid, thin out sauces.

For further assistance, consult the official Instant Pot support resources or the comprehensive user manual PDF available online.

8. SPECIFICATIONS

Feature	Detail
Brand	Instant Pot
Model Number	DUO NOVA 60
Capacity	6 Quarts
Material	Plastic, Stainless Steel
Color	Stainless Steel/Black
Product Dimensions	12.2"D x 13.39"W x 12.38"H
Item Weight	11.8 Pounds
Voltage	120 Volts
Control Method	Touch
Operation Mode	Automatic
Dishwasher Safe Parts	Inner Pot, Sealing Ring

9. WARRANTY AND SUPPORT

Instant Pot products are manufactured with quality and performance in mind. For warranty information,

product registration, and customer support, please visit the official Instant Pot website.
