ABCTen Universal Silicone Bumper Case

ABCTen Universal Silicone Bumper Case with 360° Rotate Ring Grip

Instruction Manual

Introduction

This manual provides instructions for the proper setup, operation, and maintenance of your ABCTen Universal Silicone Bumper Case with 360° Rotate Ring Grip. This product is designed to offer protection and enhanced usability for mobile phones ranging from 4 inches to 6.5 inches in screen size, with a maximum thickness of 12mm.

Setup: Installation Guide

Follow these steps to correctly install the silicone bumper case on your mobile phone:

1. **Step 1: Cover Two Corners**
   Gently place your phone into the case, ensuring two adjacent corners of the phone are securely covered by the silicone bumper.
2. **Step 2: Stretch to Cover the Third Corner**
   Carefully stretch the flexible silicone material to cover the third corner of your phone.
3. **Step 3: Stretch to Cover the Final Corner**
   Continue stretching the silicone to enclose the fourth and final corner of your phone.
4. **Step 4: Adjust for Port and Button Alignment**
   Once all corners are covered, adjust the case around the edges of your phone to ensure all charging ports, buttons, and the camera are unobstructed and properly aligned with the case's openings.

Operating Instructions

Using the 360° Rotate Ring Grip

The integrated ring grip provides enhanced security and functionality for your device:

- **Secure Holding:** Insert your finger through the ring to reduce the risk of accidental drops while holding your phone.
- **Adjustable Stand:** The ring can rotate 360 degrees and pivot 180 degrees, allowing it to function as a kickstand for hands-free viewing in both portrait and landscape orientations.

Shock Absorption and Protection

The case features a unique shock-absorption design with thickened corners to provide enhanced protection against impacts and drops. The flexible TPU material offers better protection compared to rigid cases.

Accessibility

The design ensures full access to all phone features, including cameras, speakers, charging ports, and buttons, without obstruction.

Image: Demonstrates that the case design ensures the camera lens remains unobstructed and includes a dedicated hole for attaching a lanyard.

Maintenance

To maintain the appearance and functionality of your silicone bumper case, follow these simple guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and smudges. For stubborn dirt, a mild soap solution can be used, followed by rinsing and air-drying.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the silicone material.
- **Storage:** Store the case in a cool, dry place away from direct sunlight when not in use.

Troubleshooting

- **Case Does Not Fit:** Ensure your phone's screen size is between 4 and 6.5 inches and its thickness does not exceed 12mm. The case is designed for universal fit within these dimensions.

- **Ports or Buttons Blocked:** Re-adjust the case around your phone. The flexible material allows for minor repositioning to ensure all cutouts align correctly.
- **Ring Grip Stiffness:** If the ring grip feels stiff, gently rotate it a few times to loosen the mechanism. Avoid excessive force.

Specifications

Feature	Detail
Brand	ABCTen
Material	Silicone (TPU)
Special Features	Shock-Absorbent, 360° Rotatable Ring Stand
Compatible Phone Screen Size	4 inches to 6.5 inches
Maximum Phone Thickness	12mm
