choose a color temperature

Image: Front packaging of the Feit Electric Smart Wi-Fi LED Light Bulbs, showing two bulbs and features like Wi-Fi connectivity, Energy Star rating, 800 lumens brightness, and compatibility with Alexa, Siri, and Google Assistant.

Image: Back packaging of the Feit Electric Smart Wi-Fi LED Light Bulbs, detailing easy setup steps, lighting facts (800 lumens, \$1.08 estimated yearly cost, 22.8 years life), and system requirements.

## KEY FEATURES

- **Color Changing and Tunable White:** Adjust light color from millions of options or choose from various shades of white (2700K-6500K).
- **Dimmable:** Smooth dimming from 100% down to 1% via the app or voice commands.
- **Voice Control:** Works seamlessly with Amazon Alexa, Google Assistant, and Siri Shortcuts.
- **Remote Access:** Control your lights from anywhere using the Feit Electric mobile app.
- **Schedules:** Set custom schedules to turn lights on/off at specific times.
- **Energy Efficient:** 9W power consumption, equivalent to a 60W incandescent bulb, with an estimated yearly energy cost of \$1.08.
- **Long Lifespan:** Designed to last up to 22.8 years based on 3 hours of daily use.

## SETUP GUIDE

---

Follow these steps to set up your Feit Electric Smart Wi-Fi LED Bulbs:

1. **Download the Feit Electric App:** Search for "Feit Electric" in the Apple App Store or Google Play Store and download the official app.
2. **Register/Log In:** Open the app and create a new account or log in if you already have one.
3. **Install the Bulb:** Screw the Feit Electric Smart Wi-Fi LED bulb into any standard E26 medium base light fixture. Ensure the fixture is powered on.
4. **Add the Bulb in App:**
  - Open the Feit Electric app.
  - Tap the "+" icon to add a new device.
  - Select "Lighting" and then "Light Source (Wi-Fi)".
  - Follow the in-app instructions to connect the bulb to your 2.4GHz Wi-Fi network. (Note: These bulbs only support 2.4GHz Wi-Fi networks).
  - The bulb will blink to indicate pairing mode. If it doesn't, turn the light switch off and on 5 times to reset it.
5. **Go!:** Once connected, you can rename your bulb and start controlling it from the app.

For a visual guide, you can scan the QR code on the product packaging for a "HOW TO" video (if available).

## OPERATING INSTRUCTIONS

---

### App Control

The Feit Electric app provides full control over your smart bulbs:

- **On/Off:** Tap the power icon next to the bulb's name to turn it on or off.
- **Brightness:** Use the slider to adjust the brightness level from 1% to 100%.
- **Color Selection:** Access the color wheel to choose from millions of colors.
- **White Light Adjustment:** Select different shades of white, from warm (2700K) to cool (6500K).
- **Scenes:** Apply pre-set scenes or create custom scenes for different moods or activities.
- **Schedules:** Set daily or weekly schedules for your lights to turn on/off automatically.
- **Grouping:** Group multiple bulbs together to control them simultaneously.

### Voice Control

Integrate your Feit Electric Smart Bulbs with your preferred voice assistant:

- **Amazon Alexa:**
  - Enable the "Feit Electric" skill in the Alexa app.
  - Discover devices.
  - Example commands: "Alexa, turn on [Light Name]", "Alexa, dim [Light Name] to 50%", "Alexa, set [Light Name] to blue".
- **Google Assistant:**
  - Link your Feit Electric account in the Google Home app.
  - Example commands: "Hey Google, turn off [Light Name]", "Hey Google, change [Light Name] to warm white".
- **Siri Shortcuts:**

- Create custom Siri Shortcuts within the Feit Electric app or Apple's Shortcuts app to control your lights with voice commands.
- Example: "Hey Siri, good morning lights" (if you've set up a shortcut for this).

## MAINTENANCE

Feit Electric Smart Wi-Fi LED bulbs are designed for long-lasting performance with minimal maintenance. Follow these general guidelines:

- **Cleaning:** Ensure the bulb is off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid or abrasive cleaners.
- **Installation:** Always ensure the bulb is securely screwed into the fixture. Do not overtighten.
- **Environment:** These bulbs are designed for indoor use in dry locations. Avoid exposure to water or high humidity.
- **Power Surges:** While LED bulbs are generally robust, consider using surge protectors for your lighting circuits in areas prone to power fluctuations.

## TROUBLESHOOTING

If you encounter issues with your Feit Electric Smart Wi-Fi LED Bulbs, try the following solutions:

Problem	Possible Cause / Solution
Bulb not connecting to Wi-Fi / App	Ensure your Wi-Fi network is 2.4GHz. These bulbs do not support 5GHz networks. Check your Wi-Fi signal strength at the bulb's location. Try resetting the bulb: Turn the light switch off and on 5 times, waiting 1-2 seconds between each flip. The bulb should start blinking rapidly. Restart your Wi-Fi router. Ensure your mobile device meets the minimum system requirements (iOS 9.3 or Android 4.4 KitKat or higher).
Bulb not responding to voice commands	Verify that your Feit Electric account is correctly linked to your Alexa or Google Home app. Ensure the bulb is online and connected in the Feit Electric app. Check the name of the bulb in your voice assistant app; it must match the command. Ensure your voice assistant device is connected to the internet.
Bulb is flickering or dimming unexpectedly	Ensure the bulb is not connected to a traditional dimmer switch, as this can cause issues. These bulbs are dimmable via the app/voice control only. Check for loose connections in the light fixture. Verify stable power supply.
