

JINPUS GL-2103

JINPUS Air Purifier GL-2103 Instruction Manual

Model: GL-2103 | Brand: JINPUS

1. SAFETY INFORMATION

Please read all safety instructions carefully before using the JINPUS Air Purifier GL-2103. Keep this manual for future reference.

- To prevent electric shocks, always unplug the power cable before performing any maintenance or moving the appliance.
- Do not rinse the device with water. Avoid using the device near water sources or volatile flammable items to prevent electric shocks.
- Do not insert any objects into the power input port, as this may prevent the unit from operating correctly.
- Ensure no objects are placed in the air outlet area to prevent malfunction and ensure proper airflow.
- Do not handle the power plug with wet hands to prevent electric shocks.
- Do not clean the device with any type of acid-based solutions, as this may cause damage or electric shocks.
- **Important:** Use only appropriate USB power adapters (5V, 2W) to prevent overheating or damage to the unit and cable.

2. PRODUCT OVERVIEW

The JINPUS Air Purifier GL-2103 is a compact and efficient air purification system designed for small spaces. It features a multi-stage filtration system to improve air quality.

Key Features:

- **Low Noise Operation:** Operates at a quiet 32dB, ideal for bedrooms and quiet environments.
- **Advanced Filtration:** Utilizes a KEPA-Tech HEPA filter for 360° purification, trapping 99.97% of airborne particles.
- **Effective Particle Removal:** Captures smoke, pollen, odors, and dust as small as 0.3 microns.

- **Compact Design:** Suitable for rooms up to 80 sq ft, including bedrooms, kids' rooms, individual apartments, and dorms.
- **Soft LED Night Light:** Features a gentle blue LED light that can be dimmed for comfortable sleep.

What's Included:

- JINPUS Air Purifier Unit (GL-2103)
- USB Power Cable (4.9 ft)
- HEPA Filter (pre-installed or separate)
- User Manual

3. SETUP

Follow these steps to set up your JINPUS Air Purifier:

1. **Unpack the Unit:** Carefully remove the air purifier and all accessories from the packaging.
2. **Check Filter Installation:** Ensure the HEPA filter is properly seated inside the unit. If it came separately, twist the bottom cover counter-clockwise to open, insert the filter, and then twist clockwise to secure.
3. **Connect Power:** Insert the small end of the provided USB cable into the power input port at the back of the air purifier. Connect the USB-A end of the cable to a compatible 5V, 2W USB power adapter (not included) or a USB port on a computer or power bank.
4. **Placement:** Place the air purifier on a flat, stable surface in your desired location, ensuring there are no obstructions around the air inlet (bottom) and outlet (top) for optimal performance.

4. OPERATING INSTRUCTIONS

The JINPUS Air Purifier GL-2103 features a simple one-button control for ease of use.

Power and Mode Control:

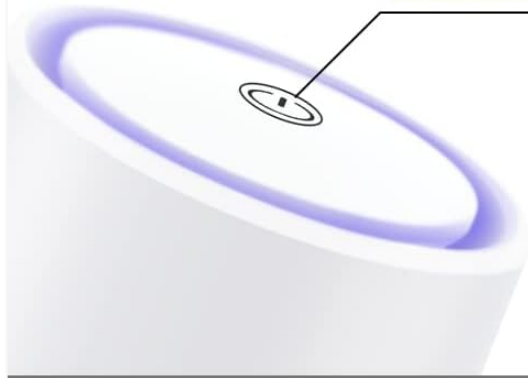

- **Normal Mode (Continuous Operation):** Press the power button once to turn on the air purifier. The blue LED light will illuminate brightly, and the unit will begin continuous purification.
- **Sleep Mode (8-Hour Timer):** Press the power button a second time to activate Sleep Mode. The blue LED light will dim, and the unit will operate quietly for 8 hours before automatically shutting off.
- **Power Off:** Press the power button a third time to turn off the air purifier. The LED light will extinguish, and the unit will cease operation.

LED Night Light:

The integrated blue LED light provides a soft glow. In Sleep Mode, the light dims to create a more conducive

environment for rest.

FUNCTION

1 Normal Mode-Press once to turn on the air purifier

2 Sleep Mode - Press twice to enter sleep mode, auto off after 8 hours

5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

Filter Replacement:

The HEPA filter should be replaced every 3-4 months, depending on usage and air quality. The filter is not washable.

- To replace the filter, ensure the unit is powered off and unplugged.
- Turn the unit upside down.
- Twist the bottom cover counter-clockwise to unlock and remove the old filter.
- Insert the new filter and twist the cover clockwise to secure it.
- Replacement filters can be found by searching for "B07L9TGS51" or "JINPUS filter" online.

Cleaning:

- Periodically clean the air inlet and outlet areas to remove any dust or debris that may accumulate.

- Use a soft, dry cloth for cleaning. Do not use liquid cleaners or abrasive materials.
