› **Moen Beric Chrome Modern One-Handle Single Hole Bathroom Faucet with Drain Assembly and Optional Deckplate for your Bath Sink, 84774**

Moen 84774

Moen Beric Chrome Modern One-Handle Single Hole Bathroom Faucet

Model: 84774 | Brand: Moen

PRODUCT OVERVIEW

The Moen Beric 84774 is a sleek and modern one-handle single hole bathroom faucet designed to enhance any vanity. Featuring a high-shine chrome finish, this faucet offers precise control over water temperature and flow with its single-handle lever. The high-arc spout provides ample space for daily tasks. It is designed for single-hole mounting but includes an optional deck plate for three-hole installations, ensuring versatile compatibility. Built with Moen's Duralast® ceramic disc cartridge, it promises smooth, drip-free performance. This WaterSense® certified faucet conserves water while maintaining performance, operating at 1.2 gallons per minute, and is ADA-compliant. It is backed by Moen's Limited Lifetime Warranty.

SETUP AND INSTALLATION

The Moen Beric faucet is designed for straightforward installation. It primarily supports single-hole mounting for a clean countertop appearance. For sinks with three pre-drilled holes, an optional deck plate is included to ensure a seamless fit. For detailed step-by-step instructions, please refer to the official Installation Manual (PDF) available on the product's Amazon page or the Moen website.

- **Mounting Type:** Designed for countertops, specifically single-hole mounts.

- **Optional Deck Plate:** Included for installations requiring a 3-hole configuration.
- **Connection Size:** 3/8" supply lines are included.
- **Drain Assembly:** A matching drain assembly is included for a complete setup.

OPERATING INSTRUCTIONS

The Moen Beric faucet features a user-friendly single-handle lever for easy operation. This design allows for precise control over both water temperature and flow. Simply move the lever to adjust the desired water conditions.

- **Water Flow:** The aerated flow is optimized for everyday bathroom tasks such as brushing teeth and washing hands.
- **Temperature Control:** Adjust the single lever to achieve your preferred water temperature.
- **Water Conservation:** This faucet is WaterSense certified, ensuring efficient water usage without compromising performance, with a maximum flow rate of 1.2 gallons per minute.

MAINTENANCE AND CARE

To maintain the pristine appearance and functionality of your Moen Beric Chrome Faucet, regular cleaning is recommended. The chrome finish is highly reflective and can show water spots and fingerprints if not cleaned routinely. Its durable construction is designed to resist scratches and corrosion, ensuring longevity.

- **Cleaning:** Use a soft cloth and mild soap and water for cleaning. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Water Spots:** Wipe the faucet dry after each use to minimize water spots, especially in areas with hard water.
- **Durability:** The faucet is built with high-quality brass material and a chrome finish that is designed for long-term durability and resistance to wear and tear.

A close-up, high-angle photograph of a Moen faucet. The focus is on the chrome finish, which is highly reflective and smooth, giving it a mirror-like quality. The lighting highlights the metallic texture and the way it catches light. The background is a soft, out-of-focus grey.

MOEN®

Chrome Finish

More like a mirrored surface than a color.
Super-polished and cool-toned to the point of
glistening for an enduring look.

TROUBLESHOOTING

Should you encounter any issues with your Moen Beric faucet, please refer to the following common troubleshooting tips. For more complex problems, consult the full User Manual or contact Moen customer support.

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator or supply lines.	Remove and clean the aerator. Check for kinks or blockages in supply lines.
Leaking from Spout	Worn cartridge or loose connections.	Ensure connections are tight. The Duralast® ceramic disc cartridge is designed for drip-free performance, but if issues persist, consider cartridge replacement.
Water Spots/Fingerprints	Natural accumulation on polished chrome finish.	Wipe dry after each use with a soft cloth. Clean regularly with mild soap and water.

Problem	Possible Cause	Solution
Drain Assembly Does Not Fit Sink	Sink drain hole size incompatibility.	Verify sink drain hole dimensions against faucet specifications. An adapter may be required for non-standard sizes.

SPECIFICATIONS

Feature	Detail
Brand	Moen
