Hot Wheels Rapid Raceway Champion Track Set Instruction Manual

Brand: Hot Wheels | Model: GJM75

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your Hot Wheels Rapid Raceway Champion Track Set. Please read all instructions carefully before use to ensure proper function and safety.

What's in the Box

- The Rapid Raceway Champion set includes a starting gate with countdown.
- Launchers.
- Two lengths of side-by-side straight track.
- A winner's flag.
- One 1:64 scale Hot Wheels vehicle.

Additional Hot Wheels vehicles and track sets are sold separately and can be connected for expanded play.

SETUP

Follow these steps to assemble your Rapid Raceway Champion Track Set:

1. **Unpack Components:** Carefully remove all track pieces, the launcher mechanism, and the Hot Wheels car from the packaging.

OPERATING THE TRACK SET

Once assembled, follow these steps to begin racing:

1. **Place Cars:** Position one or more Hot Wheels 1:64 scale cars into the launcher slots.

2. **Initiate Countdown:** Pull the lever on the starting gate upwards and then release it to begin the countdown.
3. **Launch Cars:** The gate will open, launching the cars onto the track for a side-by-side race.
4. **Determine Winner:** The first car to complete the loop and trigger the winner's flag will be declared the champion.

Experiment with different Hot Wheels cars and launch speeds to optimize performance and achieve the best race results.

MAINTENANCE

To ensure the longevity and optimal performance of your Hot Wheels track set:

- Keep the track pieces clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Store the track set in a cool, dry place away from direct sunlight when not in use.
- Avoid applying excessive force when connecting or disconnecting track pieces to prevent damage.

TROUBLESHOOTING

If you encounter issues with your track set, consider the following:

- **Cars not launching properly:** Ensure cars are correctly seated in the launcher. Check that the lever mechanism moves freely.
- **Cars falling off the track:** This can occur if cars are launched too fast or too slow for the track's curves. Experiment with launch force. Ensure all track connections are secure and the track is on a flat, stable surface.
- **Track pieces not connecting:** Verify that the connectors are aligned correctly and apply gentle, even pressure. Do not force connections.
