Package Contents:

- 1 x DELTACO USB-C to HDMI Adapter

3. SETUP

Follow these steps to connect your DELTACO USB-C to HDMI Adapter:

1. **Identify Compatible Devices:** Ensure your source device (laptop, tablet, smartphone) has a USB Type-C port that supports video output (DisplayPort Alternate Mode).
2. **Connect to Source Device:** Insert the USB Type-C connector of the adapter into the USB Type-C port on your source device.
3. **Connect to Display:** Connect one end of an HDMI cable (not included) to the HDMI port on the adapter.
4. **Connect to Display Input:** Connect the other end of the HDMI cable to an available HDMI input port on your display, monitor, or projector.
5. **Select Input Source:** On your display, select the correct HDMI input source using the display's menu or remote control.

4. OPERATING INSTRUCTIONS

Once connected, your source device should automatically detect the external display. You may need to configure display settings on your source device:

- **Windows:** Right-click on the desktop, select 'Display settings', and choose 'Extend these

displays' or 'Duplicate these displays' as needed.

- **macOS:** Go to 'System Preferences' > 'Displays' to arrange or mirror your displays.
- **Android/iOS:** Settings may vary by device. Typically, the device will automatically mirror the screen or offer display options.

Ensure your source device is powered on and the display is set to the correct HDMI input.

5. MAINTENANCE

To ensure the longevity and proper functioning of your adapter, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the adapter. Avoid using liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid bending or twisting the cable excessively. Do not apply excessive force when connecting or disconnecting the adapter.

6. TROUBLESHOOTING

If you encounter issues with your adapter, refer to the following common solutions:

- **No Display Output:**
 - Ensure all cables are securely connected.
 - Verify that your source device's USB-C port supports video output (DisplayPort Alternate Mode).
 - Check the display's input source selection.
 - Try a different HDMI cable or display.
 - Restart your source device.
- **Flickering or Intermittent Display:**
 - Ensure the resolution and refresh rate settings on your source device are compatible with your display.
 - Check for loose connections.
 - Minimize interference from other electronic devices.
- **No Audio:**
 - Ensure your display has built-in speakers or is connected to external audio.
 - Check audio output settings on your source device to ensure HDMI is selected.
