Baxton Studio 156-9801-AMZ

Baxton Studio Katrina Bed Frame - Full Size

Model: 156-9801-AMZ

PRODUCT OVERVIEW

This manual provides instructions for the assembly, use, and maintenance of your Baxton Studio Katrina Bed Frame. Please read all instructions carefully before assembly and retain this manual for future reference.

Image: The Baxton Studio Katrina Bed Frame, Full size, shown fully assembled in a bedroom with bedding.

The Katrina bed frame features a mid-century modern platform design, constructed from solid rubberwood with MDF ash veneer. It comes in a walnut brown finish and includes wood slats, eliminating the need for a box spring. Assembly is required.

SAFETY INFORMATION

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

- Do not load more than 500 pounds onto the bed frame. Exceeding this weight limit may cause structural damage and injury.
- Follow all assembly instructions carefully to ensure stability and prevent injury.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners as needed.
- Keep small parts away from children during assembly to prevent choking hazards.

- Use the bed frame on a level surface to prevent tipping.

PARTS LIST

Before beginning assembly, ensure all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

- Headboard (1)
- Footboard (1)
- Side Rails (2)
- Center Support Beam (1)
- Support Legs (4-6, depending on design)
- Wood Slats (approx. 12-14 pieces)
- Hardware Pack (bolts, washers, nuts, Allen wrench)

SETUP AND ASSEMBLY

Assembly requires two adults. Clear a spacious area for assembly. Do not fully tighten bolts until all components are loosely assembled.

Step 1: Attach Side Rails to Headboard and Footboard

Connect the side rails to the headboard and footboard using the provided bolts and an Allen wrench. Ensure the rail connectors are properly aligned.

Step 2: Install Center Support Beam and Legs

Attach the center support beam to the designated brackets on the headboard and footboard. Secure any additional support legs to the center beam or side rails as indicated in the specific assembly diagram.

Step 3: Place Wood Slats

Distribute the wood slats evenly across the bed frame. Secure them to the side rails using the pre-drilled holes and screws, if applicable. Ensure all slats are firmly in place to provide adequate mattress support.

Step 4: Final Tightening

Once all components are in place, go back and fully tighten all bolts and screws. Do not overtighten. Place your mattress directly onto the slats.

USAGE GUIDELINES

- This bed frame is designed for use with a mattress directly on the provided slats. A box spring is not required.
- Ensure the mattress size is compatible with the bed frame (Full size for this model).
- Do not jump on the bed frame, as this can compromise its structural integrity and lead to injury.
- Periodically inspect the frame for any loose connections or signs of wear.

CARE AND MAINTENANCE

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth.
- **Fasteners:** Check all bolts and screws every 3-6 months and re-tighten if necessary to maintain stability.
- **Avoid Moisture:** Protect the bed frame from excessive moisture and direct sunlight to prevent warping or fading.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose bolts or uneven assembly.	Ensure all bolts are fully tightened. Check that the frame is on a level surface. Re-assemble if necessary, ensuring all connections are secure.
Squeaking noises.	Loose connections or friction between parts.	Tighten all bolts. Apply a small amount of silicone lubricant or wax to contact points between slats and frame if squeaking persists.

Problem	Possible Cause	Solution
Slats are falling out.	Improper slat placement or missing fasteners.	Ensure slats are correctly seated in their supports and secured with screws if provided. Do not exceed the weight limit.

SPECIFICATIONS

Image: A diagram illustrating the overall dimensions of the Full size bed frame: 81.3 inches length, 60.9 inches width, and 13 inches height.
