## SIMOLIO SM-902M

# SIMOLIO Kids Headphones Instruction Manual

Model: SM-902M

Brand: SIMOLIO

## 1. PRODUCT OVERVIEW

The SIMOLIO Kids Headphones are designed to provide a safe and enjoyable listening experience for children. Featuring a unique 3-level volume limiter, these headphones protect young ears from excessive noise. They are equipped with a built-in microphone for communication and a sharing jack, allowing multiple users to listen to the same audio source. The durable, foldable design ensures portability and longevity, making them ideal for school, travel, and everyday use.

## 2. WHAT'S IN THE Box

- SIMOLIO Kids Headphones (SM-902M)
- Protective Case
- User Manual

**Back to School**

**Compact Design for  
Easy Carrying & Storage**

Image: Headphones and included protective case.

### 3. SETUP

To begin using your SIMOLIO Kids Headphones, simply plug the 3.5mm audio jack into the compatible port on your device (e.g., smartphone, tablet, laptop, Chromebook, Nintendo Switch). No batteries or charging are required for wired operation.

## 4. OPERATING INSTRUCTIONS

### 4.1. Volume Limiting Feature

The headphones feature an exclusive proprietary 3-level volume limiter (75dB/85dB/94dB) to protect vulnerable and sensitive ears. This allows parents to set a safe listening level without constant monitoring. Choose 75dB or 85dB for quiet environments, or 94dB for noisier surroundings like travel. The volume switch is located on the left earcup.

### 4.2. Built-in Microphone

The integrated microphone allows for hands-free talking, enabling users to pick up calls and navigate tracks in a playlist without interruption. This feature is ideal for online learning, gaming, and video calls.

# HD Microphone & Stereo Sound

## Universal Compatibility

Image: Children using headphones with microphone for learning and gaming.

### 4.3. Sharing Jack

The sharing jack, located on the left earcup, eliminates the need for a separate splitter. Children can plug another corded headphone into this jack to share audio with friends or family, promoting shared listening experiences.

## Share Fun & Love

Connect multiple headphones  
to one device

Shared Interface

### 4.4. Foldable Design and Comfort

The adjustable headband with memory stainless steel strips provides impressive flexibility and durability. The headphones are foldable, making them compact and easy to carry and store in the included protective pouch, ideal for travel and school. Soft earmuffs ensure comfortable wear for extended periods.

## 5. MAINTENANCE

To ensure the longevity of your SIMOLIO Kids Headphones, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the headphones. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the earcups or jack.
- **Storage:** When not in use, fold the headphones and store them in the provided protective case to prevent damage from dust, spills, or impacts.
- **Cable Care:** Avoid sharp bends or excessive pulling on the audio cable to prevent internal wire damage. The braided nylon cable is designed for durability, but proper handling extends its life.
- **Temperature:** Do not expose the headphones to extreme temperatures (hot or cold) or high humidity.

## 6. TROUBLESHOOTING

If you encounter issues with your SIMOLIO Kids Headphones, please refer to the following common solutions:

Problem	Possible Cause	Solution
No sound or low volume	Audio jack not fully inserted; device volume too low; incorrect volume limiter setting.	Ensure the 3.5mm jack is fully inserted into the device. Increase the volume on your connected device. Check the volume limiter switch on the headphone earcup and adjust to a higher dB setting if needed.
Microphone not working	Device microphone settings; application microphone access.	Check your device's audio input settings to ensure the headphone microphone is selected. Verify that the application you are using has permission to access the microphone.
Sound distortion or static	Loose connection; damaged cable; interference.	Ensure the audio jack is securely connected. Try the headphones with another device to rule out a device issue. If the problem persists, the cable may be damaged.

If these steps do not resolve the issue, please contact SIMOLIO customer support for further assistance.

## 7. SPECIFICATIONS

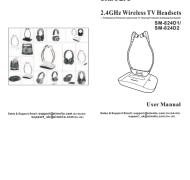

Feature	Detail
Model Name	Kids Headphones SM-902M
Connectivity Technology	Wired (3.5mm Jack)
Volume Limiter	3-level (75dB, 85dB, 94dB)
Microphone	Built-in HD mic
Sharing Feature	Integrated Sharing Jack
Cable Length	4.9 FT / 1.5 M
Cable Material	Braided Nylon (Tangle Free)
Design	Foldable, Adjustable Headband
