### EMOOR ss-classe--ss200

# EMOOR Japanese Futon Mattress CLASSE Twin (39x79in)

Model: ss-classe--ss200

## INTRODUCTION

Thank you for choosing the EMOOR Japanese Futon Mattress CLASSE Twin. This high-quality, foldable floor sleeping bed is designed to provide a comfortable and space-efficient sleeping solution. Crafted with care in Japan, it features a unique 3-layered structure for optimal support and durability. This manual will guide you through the setup, operation, maintenance, and specifications of your new futon mattress.

## SETUP

---

Your EMOOR Futon Mattress is shipped compactly in vacuum-sealed packaging to reduce shipping volume. Follow these steps for initial setup:

- 1. Unpack Immediately:** Upon receipt, carefully remove the futon from its vacuum-sealed packaging. Avoid using sharp objects that could damage the fabric.
- 2. Allow to Expand:** The futon will begin to expand and regain its original thickness once unpacked. Normally, it will swell up in 2-3 days. During colder seasons, this process may take 5-7 days.
- 3. Facilitate Expansion:** If the recovery is slow, place the futon in a warm room. Gently grab or shake the futon to help air circulate within the fibers. Alternatively, you can dry it under direct sunlight on sunny days to aid in expansion and fluffing.

# SHIPPED COMPACTLY IN VACUUM SEALED!

Unpack the Futon as soon as possible.

Normally gradually swells up in 2-3 days, but it may take 5-7 days in the cold season.

If the recovery is slow, place in a warm room and try grabbing or shaking to let air in. Or dry under the sun on sunny days.

## OPERATING INSTRUCTIONS

The EMOOR Futon Mattress is designed for versatile use, particularly for floor sleeping and easy storage.

### Floor Sleeping

Place the futon directly on a clean, flat floor surface. For enhanced comfort and moisture control, it is recommended to use the futon with a tatami mat or a slatted bed base. The 3-layered structure (soft fiberfill, firm pad, soft fiberfill) provides firm yet comfortable support, beneficial for back alignment.

## Folding and Storage

One of the key benefits of this futon is its ability to be easily folded and stored, maximizing your living space during the day.

- **Fold in Three:** The futon is designed to fold neatly into three sections.
- **Compact Storage:** Once folded, you can store it in a closet, against a wall, or in a corner, freeing up floor space.

## **MAINTENANCE AND CARE**

---

Proper care will extend the life and maintain the comfort of your EMOOR Futon Mattress.

- **Non-Washable:** The futon mattress itself is not washable. Do not machine wash, tumble dry, or dry clean the futon.
- **Use a Cover:** It is highly recommended to use a removable futon cover. This protects the mattress from dirt and sweat. Only wash the cover regularly according to its care instructions.
- **Sun Drying:** To keep your futon dry, clean, and free from moisture buildup, regularly dry it under the sun on sunny days. This also helps to fluff the fibers and maintain its loft.
- **Ventilation:** If sun drying is not possible, air out the futon in a well-ventilated room regularly.
- **Rotation:** Periodically rotate the futon (head to foot) to ensure even wear and maintain its shape.

## TROUBLESHOOTING

---

Here are solutions to common concerns you might encounter:

- **Futon Not Fully Expanded:** If your futon does not reach its full thickness after the recommended expansion time, ensure it is in a warm environment. Gently shake or pat the futon to help redistribute the filling and allow more air to enter. Sun drying can also significantly aid in fluffing.
- **Discomfort/Too Firm:** The EMOOR futon is designed to offer firm support. If you find it too firm initially, allow for an adjustment period. Many users find that their bodies adapt to the firm support, which can be beneficial for back health. Consider adding a thin, soft mattress topper if you prefer a softer feel.
- **Odor:** A slight odor may be present upon unpacking due to the new materials and vacuum sealing. This is normal and will dissipate quickly in a well-ventilated room. Airing out the futon for a few days will resolve this.
- **Moisture/Dampness:** If the futon feels damp, it indicates moisture absorption. This is why regular sun drying or airing out is crucial. Ensure the room is well-ventilated and avoid placing the futon directly on cold, damp floors without a protective layer like a tatami mat.

## SPECIFICATIONS

---

Feature	Detail
Model Name	CLASSE
Item Model Number	ss-classe--ss200
Size	Twin (39x79in)
Product Dimensions	78.74" L x 39.37" W x 2.36" Th (approx. 79 x 39 x 2.5 inches)
Item Weight	10.2 pounds
Color	White
Outer Fabric	100% Cotton (200 thread count)
Inner Filling	100% Polyester (3-layered sandwich structure)
Number of Layers	3
Special Feature	Antibacterial
Country of Origin	Japan
