2. SETUP INSTRUCTIONS

Your Beautyrest Silver mattress is designed for easy setup. Please follow these steps to ensure proper installation and immediate comfort.

1. **Unpack:** Carefully remove the mattress from its packaging. Avoid using sharp objects that could damage the fabric.
2. **Placement:** Position the mattress on a suitable bed base. This mattress is compatible with various bases, including box springs, foundations, platform beds, wooden slats, and adjustable bases. Ensure the base provides adequate support across the entire mattress surface.
3. **Allow to Expand:** If your mattress was compressed, allow it to fully expand for at least 24-48 hours before regular use.
4. **Protect:** Consider using a mattress protector to safeguard against spills and stains, extending the life of your mattress.

3. OPERATING (USAGE)

The Beautyrest Silver BRS900 Extra Firm mattress is designed for optimal support and comfort, particularly for back and stomach sleepers who prefer a firm feel without a sinking sensation.

Extra Firm

Ultra Plush

Extra Firm

Designed for those who prefer a bed with minimal give. This mattress offers maximum stability and strong support. Well-suited for back and stomach sleepers.

The combination of AirCool Foam and DualCool Technology ensures a cool sleeping surface by promoting airflow and wicking away heat and moisture. The 900 Series Pocketed Coil Technology provides individualized support, adapting to your body's contours and minimizing motion transfer, allowing for undisturbed sleep.

4. MAINTENANCE AND CARE

Proper care will extend the life and maintain the performance of your Beautyrest Silver mattress.

- **Cleaning:** For spills or stains, spot clean the mattress surface using a mild detergent and a damp cloth. Do not saturate the mattress. The care instructions specify 'Hand Wash Only', which refers to spot cleaning and not machine washing or submerging the mattress.
- **Protection:** Use a high-quality mattress protector to shield against spills, allergens, and general wear.
- **Rotation:** Rotate your mattress every 3-6 months to promote even wear and extend its lifespan. This mattress is designed to be non-flip.
- **Ventilation:** Ensure adequate airflow around the mattress by using a breathable bed frame and avoiding

placing it directly on the floor.

5. TROUBLESHOOTING

If you encounter any issues with your Beautyrest Silver mattress, consider the following common solutions:

- **Initial Odor:** A new mattress may have a slight odor upon unboxing. This is normal and will dissipate within a few days. Ensure good ventilation in the room.
- **Adjusting to Firmness:** It can take a few weeks for your body to adjust to a new mattress, especially an extra firm one. Continue to use it regularly to allow for adaptation.
- **Uneven Support/Sagging:** Ensure your bed base provides consistent and adequate support. An old or inadequate foundation can affect mattress performance. Refer to the warranty section for guidelines on proper support.
- **Noise:** If you hear squeaking or other noises, check your bed frame and foundation for loose connections or wear. The mattress itself is designed to minimize noise from its coil system.

For persistent issues not resolved by these steps, please refer to the Warranty & Support section for contact information.
