De'Longhi ECAM35020B

De'Longhi Dinamica Espresso Machine User Manual

Model: ECAM35020B

Brand: De'Longhi

Introduction

Welcome to the user manual for your De'Longhi Dinamica Espresso Machine. This guide provides essential information on setting up, operating, and maintaining your automatic bean-to-cup coffee machine to ensure you enjoy high-quality coffee beverages at home.

Figure 1: De'Longhi Dinamica Espresso Machine in black, brewing coffee.

Setup

Before first use, ensure all packaging materials are removed. Place the machine on a stable, level surface. Fill the water reservoir and bean container as described below.

1. Water Reservoir and Bean Container

The water tank is conveniently located on the side for easy removal and refilling. The bean container is located at the top of the machine. Ensure both are adequately filled for optimal operation.

Figure 2: Side view of the De'Longhi Dinamica, showing its compact size and water tank access.

Figure 3: Top view of the bean container with adjustable grinder settings.

2. Initial Power On and Rinse Cycle

Upon first power-on or after a period of inactivity, the machine will perform an automatic rinse cycle. This ensures the internal circuits are clean and ready for brewing. Place a cup under the spouts to collect the water.

Operating Instructions

The Dinamica Espresso Machine offers a variety of coffee beverages with easy-to-use controls.

1. Beverage Selection and Customization

Customize the size and strength of every cup using the automatic, touch-sensitive interface. Options include espresso (single or double), long espresso, drip style coffee, and iced coffee.

2. Manual Frother for Milk-Based Drinks

With the integrated manual frother, you can create rich, creamy foam for lattes and cappuccinos using various milk types, including almond, soy, coconut, oat, or cow's milk. Practice is key to mastering the frothing technique.

Maintenance

Regular cleaning and maintenance are crucial for the longevity and performance of your espresso machine.

1. Daily Cleaning

Cleanup is simple and easy. The drip tray and grounds container can be easily removed and are dishwasher safe. No harsh chemicals are needed for cleaning.

2. Descaling

The machine will indicate when descaling is required. Use the provided descaling solution as per the instructions in the full user manual to maintain optimal performance and prevent mineral buildup.

Troubleshooting

If you encounter issues with your De'Longhi Dinamica, consider the following common solutions:

- **Machine not brewing/grinding:** Ensure the water tank is filled and correctly inserted, and the bean container has enough beans. Check for any error messages on the display.
- **Coffee not hot enough:** Adjust the temperature settings through the machine's interface.
- **Poor coffee quality:** Experiment with different bean types, adjust the grind size using the 13-position adjustable steel burr grinder, and ensure regular cleaning of the brewing unit.
- **Machine requires descaling:** Follow the descaling procedure outlined in the comprehensive user manual.

For detailed troubleshooting steps, refer to the official user manual PDF linked in the support section.

Specifications

Feature	Detail
Brand	De'Longhi
Model Name	Dinamica Automatic Coffee & Espresso Machine,
Item Model Number	ECAM35020B
Color	Black
Product Dimensions	9.3"D x 16.9"W x 13.7"H
Item Weight	24.9 pounds
Coffee Maker Type	Espresso Machine
Operation Mode	Fully Automatic

Special Feature	Programmable
Filter Type	Reusable
Human Interface Input	Touchscreen
Included Components	Cleaning Brush, 10.6 ounce bean container, De'Longhi Dinamica Fully Automatic Coffee and Espresso Machine, Descaling Solution, 60.9 fl oz water container
