## WAYKING WBK-8060-18D-US

# WAYKING Vanity Mirror with Lights User Manual

Model: WBK-8060-18D-US

## INTRODUCTION

---

Thank you for choosing the WAYKING Vanity Mirror with Lights. This large Hollywood-style makeup mirror is designed to enhance your beauty routine with its adjustable LED lighting and convenient features. It can be used as a tabletop mirror or mounted on a wall, offering versatility for various spaces. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure you get the most out of your new mirror.

## SAFETY INFORMATION

---

Please read all safety instructions carefully before using the mirror. Keep this manual for future reference.

- Do not expose the mirror to water or excessive humidity.
- Ensure the power cord is not pinched or walked on.
- Unplug the mirror during lightning storms or when unused for long periods.
- Do not attempt to disassemble or repair the mirror yourself. Contact qualified service personnel for assistance.
- Keep out of reach of children.
- Use only with the provided power adapter.

## PACKAGE CONTENTS

---

Verify that all items are present in the package:

- WAYKING Vanity Mirror with Lights (1 unit)
- Power Adapter (1 unit)
- Instruction Manual (1 unit)
- Mounting Hardware (for wall installation, if applicable)

## SETUP

---

### Tabletop Installation

1. Carefully remove the mirror from its packaging.
2. Place the mirror on a stable, flat surface such as a vanity desk or dresser.
3. Ensure there is enough space behind the mirror for the power cord.
4. Plug the power adapter into the mirror's power input port, then into a standard electrical outlet.

### Wall-Mounted Installation

For wall mounting, ensure you have appropriate tools and that the wall can support the mirror's weight (approximately 5 pounds). It is recommended to consult a professional if you are unsure about wall mounting.

1. Identify the desired location on the wall. Ensure it is a sturdy surface, preferably a wall stud.
2. Measure and mark the positions for the mounting screws on the wall, aligning with the mounting points on the back of the mirror.
3. Drill pilot holes at the marked positions. Insert wall anchors if drilling into drywall.
4. Secure the mounting hardware (screws) into the wall, leaving a small portion exposed for the mirror to hang.
5. Carefully lift the mirror and align the mounting slots on the back with the screws. Slide the mirror down to secure it.
6. Plug the power adapter into the mirror's power input port, then into a standard electrical outlet.

## OPERATING INSTRUCTIONS

---

### Smart Touch Controls

The mirror features intuitive touch sensor controls located at the bottom center of the mirror surface.

## Smart Touch Sensor

Image: A detailed view of the smart touch sensor controls, indicating the power, color mode, and brightness adjustment buttons.

- **Power On/Off:** Touch the central power button (⏻) to turn the mirror lights on or off.
- **Change Lighting Color:** Touch the 'M' button to cycle through the three color lighting modes: Cool Light, Warm White Light, and Warm Light.
- **Adjust Brightness:** Touch and hold the 'P' button to increase or decrease the brightness of the lights. Release when the desired brightness is achieved.

**Cool Light    Warm-white Light    Warm Light**

### **USB Charging Port**

The mirror includes a convenient USB charging port located on the side, allowing you to charge your mobile devices while using the mirror.

- Locate the USB port on the side of the mirror frame.
- Connect your device's USB charging cable to the port.
- Ensure the mirror is powered on for the USB port to function.

## *Handy USB Charging Port*

## **MAINTENANCE**

---

### **Cleaning the Mirror**

- Always unplug the mirror before cleaning.
- Use a soft, lint-free cloth dampened with a glass cleaner or water to wipe the mirror surface.
- Avoid abrasive cleaners or harsh chemicals that may damage the mirror or frame finish.
- Wipe the frame with a dry or slightly damp cloth.
- Ensure the mirror is completely dry before plugging it back in.

### **Bulb Replacement**

The LED bulbs on this mirror are designed for long-term use. If a bulb needs replacement, please contact WAYKING customer support for guidance. Do not attempt to replace bulbs with non-original parts.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror lights do not turn on.	Power adapter not properly connected. No power from outlet. Faulty power adapter.	Ensure power adapter is securely plugged into both the mirror and the wall outlet. Test the outlet with another device. Contact customer support for a replacement power adapter if suspected faulty.
Lights flicker or dim unexpectedly.	Unstable power supply. Loose connection.	Try plugging into a different outlet. Check all connections. Contact customer support if the issue persists.
Touch controls are unresponsive.	Mirror surface is dirty or wet. Temporary software glitch.	Clean the touch control area with a dry, soft cloth. Unplug the mirror for 30 seconds, then plug it back in to reset.
USB charging port not working.	Mirror is not powered on. Device cable is faulty.	Ensure the mirror lights are on. Try a different USB cable or device.

## SPECIFICATIONS

Feature	Detail
Brand	WAYKING
