## DOWAN 11172

# DOWAN Pour Over Coffee Dripper Instruction Manual

Model: 11172

## 1. INTRODUCTION

---

Thank you for choosing the DOWAN Pour Over Coffee Dripper. This manual provides essential information for the proper use and care of your new coffee dripper. Designed for a traditional, hands-on brewing experience, this ceramic dripper allows you to prepare delicious coffee without electricity.

## 2. SETUP

---

Before first use, please follow these steps:

1. **Unpack:** Carefully remove the coffee dripper from its packaging.
2. **Initial Cleaning:** Wash the dripper thoroughly with warm, soapy water. Rinse completely and dry.
3. **Prepare Filter:** Place a cone-shaped paper filter (not included) into the dripper. Ensure the filter sits snugly against the inner walls.
4. **Position:** Place the dripper onto your chosen coffee mug or carafe. Ensure it is stable and securely seated.

### 3. OPERATING INSTRUCTIONS

---

Follow these steps for brewing coffee with your DOWAN Pour Over Coffee Dripper:

1. **Heat Water:** Heat fresh water to approximately 195-205°F (90-96°C).
2. **Pre-wet Filter:** Pour a small amount of hot water over the paper filter to rinse it and pre-heat the dripper. Discard this water from your mug/carafe.
3. **Add Coffee Grounds:** Add your desired amount of medium-fine ground coffee into the wet filter. For optimal flavor, use freshly ground coffee.

Image 3.1: Adding coffee grounds to the pre-wet filter.

4. **Bloom:** Pour just enough hot water to saturate all the coffee grounds. Let it sit for 30-45 seconds. This allows the coffee to 'bloom' and release gases.
5. **Main Pour:** Slowly and steadily pour the remaining hot water over the grounds in a circular motion, starting from the center and moving outwards, then back to the center. Avoid pouring directly onto the filter paper.

Image 3.2: Pouring hot water over coffee grounds for brewing.

6. **Extraction:** Allow the water to drip through the coffee grounds and filter into your mug or carafe. The DOWAN dripper features a unique three-hole design and inner vertical ribs to ensure proper extraction time and flavor development.

Image 3.4: Detail of the inner wall vertical rib design.

7. **Serve:** Once all the water has dripped through, remove the dripper and filter. Your fresh coffee is ready to enjoy.

## 4. MAINTENANCE

---

Proper care ensures the longevity and performance of your DOWAN Pour Over Coffee Dripper.

- **Cleaning:** After each use, discard the used coffee grounds and filter. Rinse the dripper under running water. For a more thorough clean, wash with warm, soapy water. The ceramic material is generally dishwasher safe.
- **Drying:** Allow the dripper to air dry completely or wipe with a clean cloth before storing.
- **Storage:** Store in a dry place to prevent any residue buildup.

# Easy To Clean

Image 4.1: The dripper is designed for easy cleaning under running water.

## 5. TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

| Issue                   | Possible Cause   | Solution  |
|-------------------------|--|---|
| Coffee drips too slowly | Coffee grounds are too fine; filter clogged.                   | Use a coarser grind. Ensure filter is properly seated and not collapsing.                                   |
| Coffee tastes weak      | Insufficient coffee grounds; water too cool; too fast pouring. | Increase coffee-to-water ratio. Ensure water is at optimal temperature (195-205°F). Pour water more slowly. |
| Coffee tastes bitter    | Coffee grounds too fine; water too hot; over-extraction.       | Use a coarser grind. Reduce water temperature slightly. Shorten brewing time by pouring slightly faster.    |

## 6. SPECIFICATIONS

---

- **Brand:** DOWAN
- **Model Name:** 11172
- **Material:** High-fired Ceramic
- **Color:** Brown
- **Product Dimensions:** 4.33" (Depth) x 4.33" (Width) x 3.14" (Height)
- **Capacity:** Designed for 2-4 cups of coffee
- **Operation Mode:** Manual
- **Special Features:** Three-hole drip design, V-shaped conical design, Inner wall vertical rib for optimal extraction.

4.33  
/ Inch
