## JOYO MA-10B

# JOYO MA-10B Mini Bass Amplifier

## USER MANUAL

### 1. Introduction and Overview

---

The JOYO MA-10B is a compact, lightweight, and portable 10W mini bass amplifier designed for practice in various situations. It features switchable dual channels (Normal/Drive) and offers simple yet essential functionalities for bass players.

This amplifier is ideal for home practice, allowing you to play comfortably without disturbing others, thanks to its headphone output. It can be powered by either a power adapter or AA batteries, making it a versatile companion for both indoor and outdoor use.

## 2. Setup

Setting up your JOYO MA-10B is straightforward. Follow these steps to get started:

### 2.1 Power Supply

The MA-10B offers two power supply options:

- **Power Adapter:** Use the included power adapter by plugging it into the DC 9V input on the rear panel and then into a standard wall outlet.
- **Batteries:** For portable use, the amplifier can be powered by 6 AA batteries (not included). Open the battery compartment on the rear panel, insert the batteries with correct polarity, and close the cover. The amplifier can operate for up to three hours on AA alkaline batteries.

## 2 Power Supply Modes

- 1 Power adapter (INCLUDED)
- 2 6xAA batteries (NOT INCLUDED), about 3hrs battery life with AA alkaline batteries.

### 2.2 Connecting Your Instrument

Plug your bass guitar into the **INPUT** jack on the top panel of the amplifier. Ensure the power switch on the rear panel is in the 'ON' position. The power indicator light will illuminate.

# Small but Powerful Amp

Powerful and clear sound put you in the auditory feast immediately.

## 3. Operating Your Amplifier

The JOYO MA-10B offers intuitive controls for shaping your bass tone.

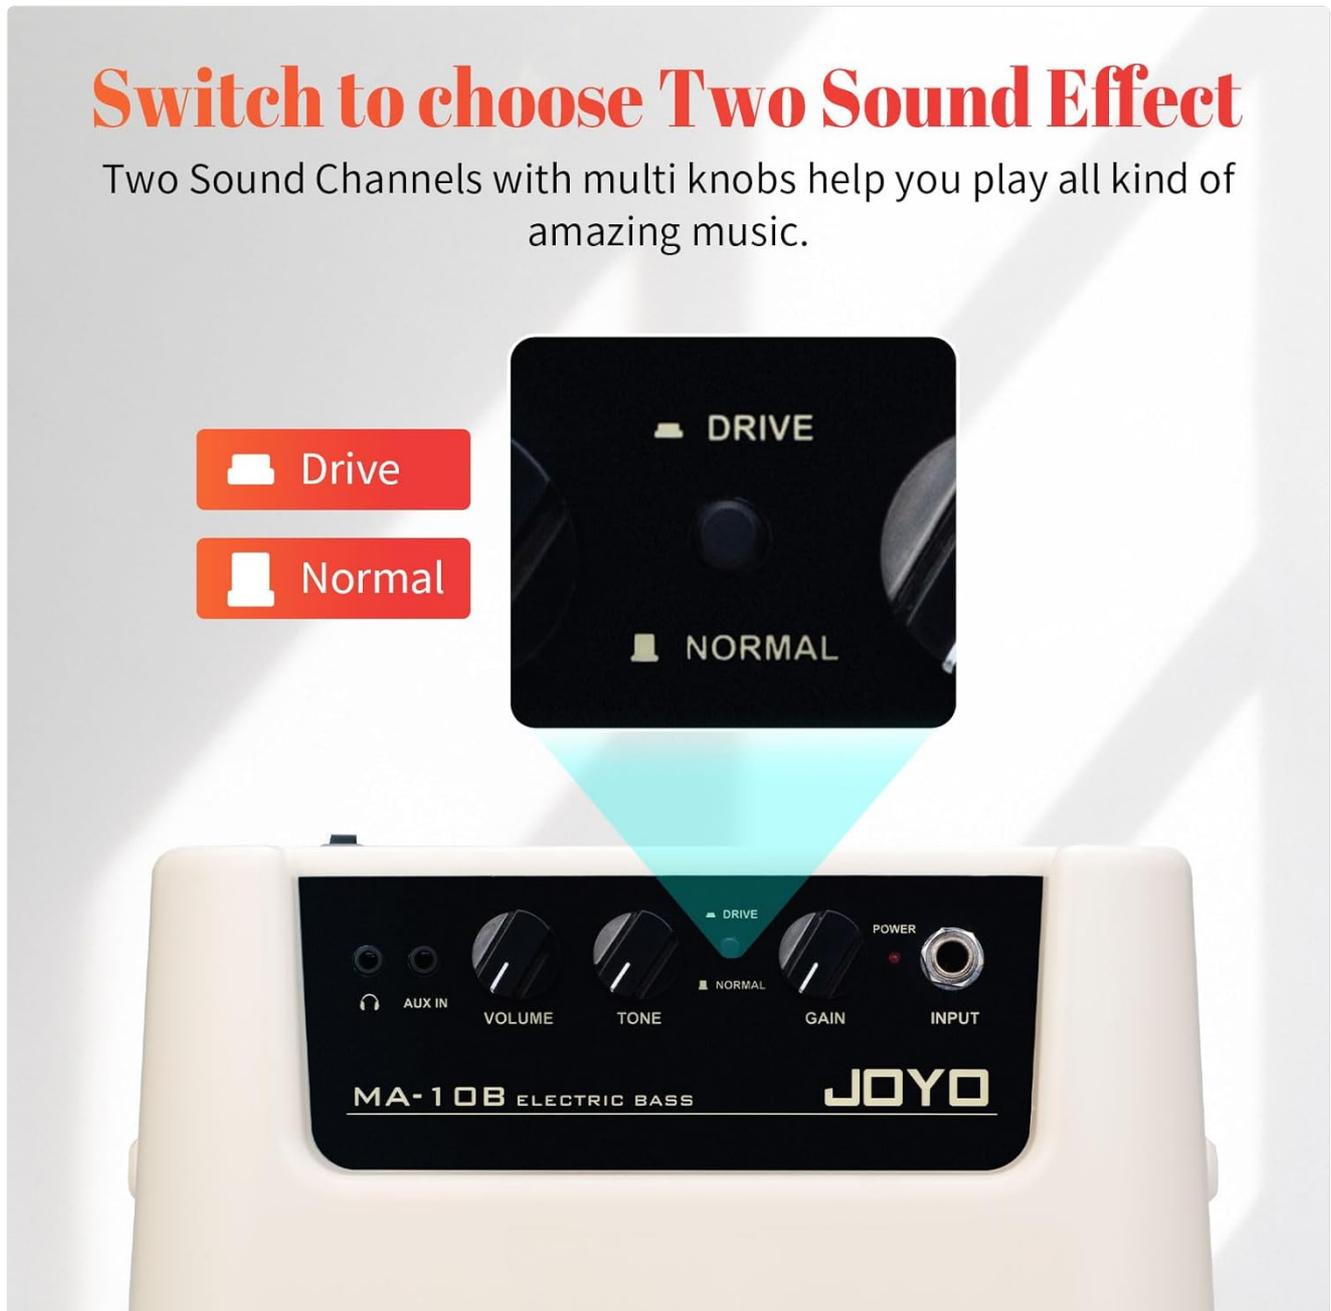

### 3.1 Control Panel Overview

- **VOLUME:** Adjusts the overall output volume of the amplifier.
- **TONE:** Controls the tonal characteristics, allowing you to make the sound brighter or darker to suit your preference.
- **DRIVE/NORMAL Switch:** Selects between the two available channels.

- **NORMAL:** Provides a clean, uncolored bass tone.
- **DRIVE:** Activates the distorted sound channel, ideal for rock and heavier genres.
- **GAIN:** (Active in Drive channel) Controls the amount of distortion or overdrive.
- **AUX IN:** A 3.5mm input jack for connecting external audio sources like mobile phones or MP3 players, allowing you to play along with backing tracks.
- **Headphone Output:** A 3.5mm output jack for connecting headphones, enabling silent practice without disturbing others.

## Switch to choose Two Sound Effect

Two Sound Channels with multi knobs help you play all kind of amazing music.

## 4. Maintenance

To ensure the longevity and optimal performance of your JOYO MA-10B, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the amplifier. Avoid using abrasive cleaners, solvents, or waxes, as they may damage the finish.
- **Storage:** When not in use for extended periods, store the amplifier in a cool, dry place away from direct sunlight and extreme temperatures. If using batteries, remove them to prevent leakage and damage.
- **Handling:** Handle the amplifier with care. Avoid dropping it or subjecting it to strong impacts, which can damage internal components.

## 5. Troubleshooting

If you encounter any issues with your JOYO MA-10B, refer to the following common troubleshooting tips:

- **No Sound:**
  - Ensure the amplifier is powered on and the power indicator light is illuminated.
  - Check all cable connections (instrument cable, power adapter, AUX cable, headphones) to ensure they are securely plugged in.
  - Verify that the VOLUME knob is turned up.
  - If using batteries, check if they are depleted or inserted correctly. Replace with fresh batteries if necessary.
  - Test with a different instrument cable or instrument to rule out external equipment issues.
- **Distorted Sound at High Volumes:**
  - The MA-10B is a practice amplifier. If the sound distorts at high volumes, reduce the **VOLUME** and **GAIN** settings.
  - Ensure you are not overdriving the input signal from your instrument.
- **Low Volume Output:**
  - Check the **VOLUME** and **GAIN** knobs and ensure they are set appropriately.
  - If using the Drive channel, adjust the **GAIN** knob to increase the output.
  - Ensure your instrument's volume is turned up.

If the issue persists after trying these steps, please contact JOYO customer support for further assistance.

## 6. Specifications

Feature	Specification
Brand	JOYO

Model Number	Manufacturer-JOYO-MA10B-0012 (MA-10B)
Output Wattage	10 Watts
Channels	Normal / Drive (Switchable)
Power Source	Corded Electric (DC 9V) / 6 AA Batteries
Battery Life	Approx. 3 hours (with AA alkaline batteries)
Item Weight	2.86 pounds (1.3 kg)
Product Dimensions	9.45 x 5.91 x 6.69 inches (24 x 15 x 17 cm)
Material Type	ABS Plastic
Color	Beige
Compatible Devices	Double Bass (and other bass guitars)
Connector Type	3.5mm Jack (AUX In, Headphone Out)
