› Aesfee Replacement Shaving Head For Aesfee Af-809 Series Electric Rotary Shavers, Electric Razor Replacement Heads Assembly Easy To Replace And Clean

## Aesfee AF-8077

# Aesfee Replacement Shaving Head User Manual

Model: AF-8077

## INTRODUCTION

---

This manual provides essential information for the proper installation, operation, and maintenance of your Aesfee Replacement Shaving Head, designed specifically for Aesfee AF-809 series electric rotary shavers. Adhering to these instructions will ensure optimal performance and longevity of the product.

## COMPATIBILITY

This replacement shaving head assembly is specifically designed for and compatible with the **Aesfee AF-809 series** electric rotary shavers. Ensure your shaver model matches this series for proper fit and function.

## SETUP AND INSTALLATION

Follow these steps to replace the shaving head on your Aesfee AF-809 series electric rotary shaver:

1. **Preparation:** Ensure the shaver is turned off and unplugged from any power source.
2. **Remove Old Head:** Gently twist or unclip the existing shaving head from the shaver body. Refer to your original shaver's manual if unsure.
3. **Install New Head:** Align the new Aesfee Replacement Shaving Head with the shaver body. Press down firmly or twist

until it clicks securely into place.

4. **Verify Connection:** After installation, please ensure that the shaving head assembly and the shaver body are fully riveted to avoid damage to the shaving heads.

## OPERATING INSTRUCTIONS

The Aesfee Replacement Shaving Head features a high-performance 3D floating cutter head with a double-track ultra-thin cutter net and self-sharpening steel blades for a comfortable and close shave.

- **Power On:** Press the power button on your shaver to turn it on.
- **Shaving Technique:** Gently move the shaver in circular motions over the skin. The 3D floating heads will adapt to the contours of your face or head.
- **Wet or Dry Shave:** This shaving head supports both wet and dry shaving. For a wet shave, apply shaving foam or gel before use.

## MAINTENANCE AND CLEANING

Regular cleaning of the shaving head is crucial for maintaining optimal performance and hygiene. This replacement head is whole-body washable for easy cleaning.

1. **Daily Cleaning:** After each use, detach the shaving head and rinse it thoroughly under running water to remove hair clippings and residue.
2. **Deep Cleaning:** Periodically, you may use a mild soap solution to clean the head more thoroughly. Ensure all soap residue is rinsed off.
3. **Drying:** Allow the shaving head to air dry completely before reattaching it to the shaver body or storing it.
4. **Replacement Recommendation:** For maximum shaving performance, it is recommended to replace your shaving unit once every 12 months.

## **TROUBLESHOOTING**

---

If you encounter issues with your Aesfee Replacement Shaving Head, consider the following:

- **Poor Shaving Performance:**

- Ensure the shaving head is clean and free of hair buildup.
- Verify the head is securely attached to the shaver body.
- If the head has been in use for over 12 months, it may be time for a new replacement.

- **Damage to Shaving Head:**

- If you find that the shaving head is damaged (e.g., bent foils, broken blades), please stop using it immediately.
- Replace the damaged head with a new one to prevent skin irritation or further damage to the shaver.

- **Head Not Attaching Securely:**

- Double-check that you have the correct replacement head for the Aesfee AF-809 series.
- Ensure no debris is obstructing the connection points between the head and the shaver body.
