3. **Prepare Furniture Tokens:** Attach each of the 6 furniture tokens to a yellow base.
4. **Place the Broken Toy:** Place the broken toy token (Mr. Potato Head) in the center of the gameboard.
5. **Distribute Detective Notepads:** Each player takes one sheet from the Detective Notepad and a pencil (not included).
6. **Set Up Clue Tokens:**
 - Randomly place one character pawn under each of the 6 furniture tokens.
 - Randomly place one yellow base (time token) under each of the 6 furniture tokens.
7. **Choose Characters:** Each player chooses a character pawn and places it on its starting space on the board.
8. **Determine the Culprit:** Secretly look at the character pawn and time token under the broken toy. These are the solutions to the mystery. Do not reveal them!

How to Play (Operating)

The goal of Clue Junior is to be the first player to correctly identify which toy was broken, who broke it, and when it was broken. Players move around the board, gathering clues by looking under character pawns and furniture tokens.

Gameplay Steps:

1. **Roll the Die:** On your turn, roll the die. The die has numbers (1-4) and two special colored sides (yellow and white).
2. **Move Your Character:**
 - If you roll a number, move your character pawn that many spaces along the footprints. You can move horizontally or vertically.
 - If you land on a space with a *white base*, you can peek under any character pawn on the board.
 - If you land on a space with a *yellow base*, you can peek under any furniture token on the board.
3. **Gather Clues:**
 - When you peek under a character pawn, note the toy shown on its white base.
 - When you peek under a furniture token, note the time shown on its yellow base.
 - Mark off the revealed clues on your Detective Notepad. This helps you eliminate possibilities.
4. **Special Die Rolls:**
 - If you roll the *yellow side* of the die, you may peek under any furniture token on the board.
 - If you roll the *white side* of the die, you may peek under any character pawn on the board.
5. **Make an Accusation:** Once you believe you know which toy was broken, who broke it, and when, you can make an accusation on your turn.
 - Move your pawn to the center space of the board.
 - State your accusation: "I accuse [Character Name] of breaking the [Toy Name] at [Time]!"
 - Carefully lift the broken toy token in the center of the board. If your accusation matches the character pawn and time token underneath, you win the game!
 - If your accusation is incorrect, you are out of the game, but you must not reveal the correct answer.

MAINTENANCE

To ensure your Clue Junior game lasts for many mysteries to come, follow these simple maintenance tips:

- **Storage:** Always store all game components back in their original box after playing to prevent loss or damage.
- **Cleaning:** Wipe down plastic components and the gameboard with a soft, dry cloth if they become dusty. Avoid using harsh chemicals or abrasive cleaners.
- **Handling:** Handle game pieces and the board with care to prevent bending, tearing, or breaking.

TROUBLESHOOTING

Encountering an issue during gameplay? Here are some common solutions:

- **Lost Pieces:** If a small piece is lost, consider using a substitute from another game or creating a temporary replacement. For official replacement parts, contact Hasbro customer support.
- **Rules Confusion:** Refer to the "How to Play" section of this manual or the included Game Guide for clarification. Playing a practice round without keeping score can also help new players understand the mechanics.
- **Game Too Short/Long:** The game length can vary based on player deduction speed. Encourage players to make accusations when they feel confident to keep the game moving.
