Medix Medix Black Nitrile Gloves P

Medix Black Nitrile Powder-Free Gloves - User Manual

Model: Size P - Box with 100 Units

1. Product Overview

The Medix Black Nitrile Powder-Free Gloves are designed for safety and protection during various procedures. Made from durable nitrile material, these gloves offer a reliable barrier. They are ambidextrous, feature slightly textured fingertips for improved grip, and have a rolled cuff for easy donning and removal. Each box contains 100 units, ensuring a convenient supply for single-use applications.

2. Key Features

- **Material:** Made from high-quality synthetic rubber (nitrile) for durability and protection.
- **Powder-Free:** Designed without powder to minimize residue and potential irritation.
- **Textured Fingertips:** Slightly textured on the fingertips to enhance grip in wet or dry conditions.
- **Rolled Cuff:** Features a rolled cuff finish for easy and secure donning and removal.
- **Ambidextrous:** Can be worn on either hand, providing convenience and reducing waste.
- **Disposable:** Intended for single-use to maintain hygiene and prevent cross-contamination.
- **Non-Sterile:** Suitable for non-surgical procedures requiring barrier protection.
- **Stretchable:** Offers flexibility and comfort during use.
- **Regulatory Approval:** ANVISA: 80495510008 / CA: 38644.

3. Preparation for Use

1. **Inspect Packaging:** Before opening, check the glove box for any signs of damage or tampering. Do not use if the packaging is compromised.
2. **Hand Hygiene:** Ensure hands are clean and dry before handling gloves. Wash hands thoroughly with soap and water or use an alcohol-based hand sanitizer.
3. **Select Correct Size:** Choose the appropriate glove size (P, M, G, etc.) to ensure a comfortable and secure fit. An ill-fitting glove can compromise protection and dexterity.

4. How to Use (Donning and Doffing)

4.1 Donning (Putting On) Gloves:

1. Open the box and carefully remove one glove by the cuff.
2. Slide your hand into the glove, ensuring your fingers are fully seated in the glove's fingers.
3. Adjust the glove to fit snugly over your hand and wrist. The rolled cuff should sit comfortably around your wrist.
4. Repeat for the other hand.

4.2 Doffing (Taking Off) Gloves:

1. Grasp the outside of one glove near the cuff with the opposite gloved hand.
2. Peel the glove off, turning it inside out as you remove it. Hold the removed glove in your gloved hand.
3. With your ungloved hand, slide your fingers inside the cuff of the remaining glove.
4. Peel this glove off, turning it inside out and enclosing the first glove inside it.
5. Dispose of the gloves immediately and perform hand hygiene.

5. Care and Disposal

5.1 Storage:

- Store gloves in their original packaging in a cool, dry place, away from direct sunlight, heat, and fluorescent lighting.
- Avoid storing near ozone-generating equipment or solvents.

5.2 Disposal:

- These gloves are for single-use only. Do not wash or reuse.
- Dispose of used gloves according to local regulations for medical waste or general waste, depending on the nature of their use.

6. Common Issues and Troubleshooting

- **Glove Tears During Donning:**

  Ensure hands are dry before donning. Select the correct glove size; a glove that is too small may tear easily. Avoid sharp objects or jewelry that could puncture the glove.

- **Glove Feels Too Tight or Loose:**

  Verify you are using the correct size. Refer to the size chart if available, or try a different size for optimal comfort and protection.

- **Allergic Reaction:**

  While nitrile gloves are generally latex-free and less allergenic, discontinue use if irritation or allergic reaction occurs. Consult a healthcare professional if symptoms persist.
