TROUBLESHOOTING

- **Wrinkles from Packaging:** The mattress pad is vacuum-sealed for shipping, which may cause wrinkles upon arrival. These wrinkles typically smooth out over time with use or can be expedited by tumble drying on low heat.
- **Lack of Initial Puffiness:** If the pad does not appear fully fluffy immediately after unpacking, allow it 12-24 hours to fully expand. Tumble drying on low heat can also help restore its loft.
- **Fit Issues:** Ensure your mattress thickness is within the 8-21 inch range for optimal fit. The elasticized deep pockets are designed to accommodate this range securely.
