COSMIRROR Lighted Makeup Vanity Mirror User Manual

Model: 663577491192

INTRODUCTION

Thank you for choosing the COSMIRROR Lighted Makeup Vanity Mirror. This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your new mirror. Designed for optimal clarity and convenience, this mirror features adjustable LED lighting, dual magnification, and flexible positioning to enhance your daily beauty routine.

Image: The COSMIRROR Lighted Makeup Vanity Mirror, showcasing its sleek design, integrated LED lights, and included USB cable and detachable 10X magnifying mirror.

KEY FEATURES

- **21 Bright LED Lights:** Built-in adjustable LEDs provide optimal illumination for various lighting conditions, protecting your eyes while ensuring clear visibility.
- **Smart Touch Dimmable:** Control the LED lights and adjust brightness with a simple touch sensor switch. Long press to dim the lights to your desired level.
- **1X/10X Magnification Mirror:** The main mirror offers 1X magnification for an overall facial view, while a detachable 10X magnifying round mirror allows for detailed makeup application, such as mascara, eyeliner, and eyebrow shaping.

- **Dual Power Supply:** Can be powered by 4 AA batteries (not included) for portability or via the included USB cable for continuous power. *Note: The mirror itself does not store power. Do not use both power sources simultaneously.*
- **180 Degree Rotation:** The mirror can be adjusted to a perfect and comfortable viewing angle, standing securely on your countertop.

SETUP GUIDE

Assembly

1. Carefully unbox all components: the mirror panel, the stand, and the detachable 10X magnifying mirror.
2. Align the mirror panel with the slot on the stand. Gently push down until it clicks securely into place.
3. Place the detachable 10X magnifying mirror onto the main mirror surface using its suction cups, positioning it as desired for detailed work.

Powering On

Your COSMIRROR can be powered in two ways:

- **Battery Power:** Open the battery compartment on the back of the mirror. Insert 4 AA batteries (not included), ensuring correct polarity (+/-). Close the compartment.

- **USB Power:** Connect the provided USB cable to the micro USB port on the back of the mirror. Plug the other end into a USB power source (e.g., wall adapter, computer, power bank).

Important: Do not power the mirror using both USB and batteries simultaneously.

Dual Power Supply

Image: A diagram illustrating the dual power supply options for the mirror, showing the battery compartment and the micro USB port.

OPERATING INSTRUCTIONS

Turning On/Off and Adjusting LED Brightness

1. To turn on the LED lights, tap the touch sensor switch located at the bottom center of the mirror surface.
2. To adjust the brightness, press and hold the touch sensor switch. The brightness will cycle through its levels. Release your finger when the desired brightness is achieved.
3. To turn off the LED lights, tap the touch sensor switch again.

Image: Visual representation of the mirror's brightness levels at 25%, 50%, and 100% illumination.

Using the Magnifying Mirror

The detachable 10X magnifying mirror is ideal for precise tasks such as applying eyeliner, plucking eyebrows, or inserting contact lenses. Simply attach it to the main mirror using its suction cups.

Adjusting Mirror Angle

The mirror panel can be rotated 180 degrees vertically. Gently tilt the mirror to find the most comfortable and effective viewing angle for your needs.

Image: A side view of the mirror demonstrating its 90-degree vertical rotation capability.

CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your COSMIRROR, please follow these care instructions:

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth (e.g., microfiber cloth) to gently wipe the mirror surface. For stubborn smudges, slightly dampen the cloth with water or a non-abrasive glass cleaner. Avoid harsh chemicals or abrasive materials that could scratch the mirror or damage the LED lights.
- **Cleaning the Body:** Wipe the plastic body of the mirror and stand with a soft, dry or slightly damp cloth.
- **Storage:** When not in use for extended periods, store the mirror in a cool, dry place away from direct sunlight and excessive humidity.
- **Battery Care:** If using batteries, remove them if the mirror will not be used for a long time to prevent leakage and damage.

TROUBLESHOOTING

If you encounter any issues with your COSMIRROR, please refer to the following common problems and solutions:

- **LED Lights Not Turning On:**

- Ensure batteries are inserted correctly with proper polarity, or that the USB cable is fully plugged into both the mirror and the power source.
- Check if the batteries are depleted and replace them if necessary.
- Verify that the USB cable is 100% plugged into the micro USB port.
- Ensure you are not attempting to power the mirror with both USB and batteries simultaneously.

- **Lights are Dim or Flickering:**

- This may indicate low battery power. Replace batteries or switch to USB power.
- Ensure the touch sensor is clean and free of debris.

- **Mirror Not Rotating Smoothly:**

- Check for any obstructions around the pivot point of the stand.
- Ensure the mirror is assembled correctly and securely attached to the stand.

If the problem persists after trying these solutions, please contact COSMIRROR customer support for further assistance.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	COSMIRROR
Model Number	663577491192
