Juskys 200221

Juskys Paris Upholstered Bed 120x200 cm with LED Lighting

Model: 200221 | Brand: Juskys

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

Suffocation Warning: Do not use this bed for children under 2 years of age due to the risk of mattress suffocation.

The included LED lighting is intended exclusively for mood/accent lighting and is not suitable for other applications. The included LED bulbs are not replaceable, but they can be removed. The LED lighting must be removed for disposal in accordance with the Waste Electrical and Electronic Equipment Directive and ElektroG, and disposed of separately.

SETUP INSTRUCTIONS

This section provides general guidelines for assembling your Juskys Paris upholstered bed. For detailed, step-by-step instructions, please refer to the separate assembly guide included in your product packaging.

Preparation

- Unpack all components and verify against the parts list in your assembly guide.
- Ensure you have all necessary tools (e.g., screwdriver, Allen key, if not provided).
- Assemble the bed on a soft, clean surface to prevent scratches.

Assembly Steps (General Overview)

1. **Frame Assembly:** Connect the side rails, footboard, and headboard using the provided hardware. The bed frame is constructed from robust MDF wood and metal for stability.
2. **Slatted Frame Installation:** Position the two-part slatted frame within the bed frame. Ensure the central stabilizing support is correctly installed for reliable support.
3. **Headboard LED Connection:** Connect the LED lighting system integrated into the headboard according to the electrical connection diagram in your assembly guide.
4. **Final Checks:** Ensure all screws and connections are tightened securely.

DIMENSIONE OTTIMALE

Figure 1: Optimal Dimensions. This image illustrates the overall dimensions of the Juskys Paris upholstered bed, including its length, width, headboard height, and bed frame height, along with the recommended mattress size of 120x200 cm.

OPERATING THE LED LIGHTING

The Juskys Paris upholstered bed features integrated LED lighting in the headboard, offering pleasant indirect light and 16 different colors.

Using the Remote Control

- The LED lighting is conveniently adjustable and dimmable using the included IR remote control.
- Point the remote control towards the LED receiver, typically located near the headboard.
- Use the color buttons to select your desired light color.
- Use the brightness buttons (usually up/down arrows or sun icons) to adjust the intensity of the light.
- Some remote controls may offer additional modes like flash, strobe, fade, or smooth transitions. Refer to your remote control's specific instructions for full functionality.

CARE AND MAINTENANCE

Proper care will ensure the longevity and appearance of your Juskys Paris upholstered bed.

- **Upholstery:** The chic white faux leather upholstery is soft and easy to care for. Wipe clean with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners.
- **Frame:** Regularly check all screws and connections for tightness and re-tighten if needed to maintain the bed's stability.
- **LED Lighting:** Keep the LED strip and remote control clean and dry. If the LED strip needs to be removed for disposal, follow local regulations for electronic waste.
- **General Cleaning:** Dust the bed frame and headboard regularly with a soft, dry cloth.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels unstable or wobbly.	Loose connections or incorrect assembly.	Check all screws and bolts. Re-tighten any loose connections. Ensure all parts are assembled according to the instruction manual.

Problem	Possible Cause	Solution
LED lighting does not turn on.	Power connection issue, remote control battery, or faulty LED strip/receiver.	<ul style="list-style-type: none"> Ensure the power adapter is securely plugged into the wall outlet and the LED receiver. Check the battery in the IR remote control and replace if necessary. Ensure the remote control is pointed directly at the LED receiver. If the issue persists, contact customer support.
LED colors are incorrect or unresponsive.	Remote control interference or faulty LED component.	<ul style="list-style-type: none"> Ensure there are no obstructions between the remote and the LED receiver. Try resetting the LED system by unplugging and replugging the power adapter. If the issue persists, contact customer support.
