Barisieur 02

Barisieur Coffee Alarm Clock Coffee Maker User Manual

Model: 02

INTRODUCTION

Welcome to the Barisieur experience. This innovative device combines a coffee maker with an alarm clock, designed to gently wake you with the aroma of freshly brewed coffee. This manual provides essential information for the setup, operation, and maintenance of your Barisieur Coffee Alarm Clock Coffee Maker.

PRODUCT OVERVIEW

The Barisieur is a unique appliance featuring a 500W induction boiler for rapid heating, a Peltier cooler for milk, and a programmable brewing system. It includes premium glassware and a real wood timber tray.

The Barisieur features premium glassware components and a real wood timber tray for stability and aesthetic appeal.

Detail view highlighting the pivoting funnel for easy access and the integrated storage for the included spoon.

SETUP GUIDE

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all glassware is intact.
2. **Placement:** Place the Barisieur on a stable, flat surface near a power outlet.
3. **Water Reservoir:** Fill the glass water reservoir with fresh, cold water up to the MAX line. Do not overfill.
4. **Coffee Grounds:** Add your desired amount of coffee grounds to the reusable filter in the funnel. The funnel pivots for easy access.
5. **Milk Compartment:** If desired, place milk in the integrated milk fridge compartment. An infrared sensor detects milk presence.
6. **Power Connection:** Connect the power cord to the Barisieur and then to a wall outlet.

7. **Initial Cleaning:** Before first use, run a brewing cycle with only water to clean the system.

OPERATING INSTRUCTIONS

Setting the Time and Alarm

- Use the control buttons on the front panel to set the current time and your desired alarm time. Refer to the specific button labels for "Set Time" and "Set Alarm".
- The display features an auto-dim function for comfortable viewing.

Brewing Coffee

- **Alarm-Activated Brewing:** You can set the Barisieur to begin brewing 5 minutes before the alarm, precisely at the alarm time, or 5, 10, or 15 minutes after the alarm sounds. This setting is typically adjusted via the "Brew Time" or "Delay" button.
- **Brew-on-Demand:** To brew coffee instantly, press and hold the 'Make' button for 3 seconds. The 500W induction

boiler will quickly heat the water to an optimum temperature of 94°C for brewing.

The Barisieur brews coffee at an optimum temperature of 94°C, utilizing a shower head design for even water distribution over coffee grounds.

- **Milk Cooling:** The Peltier cooler for the milk fridge activates automatically when milk is detected, keeping it fresh.

Additional Features

- **Power Outage Protection:** A small built-in battery ensures the time setting is retained even if power is disconnected.
- **USB Charging:** Use the 5V USB-Port on the back of the unit to charge your phone or other small devices.

MAINTENANCE AND CARE

Daily Cleaning: After each use, empty and rinse the coffee cup, filter, and water reservoir.

Glassware: All glass components are dishwasher safe. For best results, hand wash with mild soap and warm water.

Descaling: Periodically descale the water heating system to prevent mineral buildup. Follow standard descaling procedures for coffee makers, using a descaling solution or a mixture of water and white vinegar. Refer to the full product

manual for frequency recommendations.

Exterior: Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners.

Spoon Storage: The integrated spoon storage compartment can be removed for cleaning.

The Barisieur includes a convenient, removable storage compartment for the measuring spoon.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Coffee not brewing.	Water reservoir empty; 'Make' button not held long enough; alarm not set correctly.	Ensure water reservoir is filled. Hold 'Make' button for 3 seconds. Verify alarm settings.
Milk not cooling.	No milk detected; cooler malfunction.	Ensure milk is placed correctly in the compartment. If problem persists, contact support.
Clock display is off.	Power disconnected; battery drained.	Check power connection. The internal battery should maintain time during short outages; if completely drained, reset time.
Coffee tastes weak/bitter.	Incorrect coffee-to-water ratio; grind size too coarse/fine; unit needs descaling.	Adjust coffee grounds amount. Experiment with grind size. Perform descaling if necessary.

SPECIFICATIONS

Brand: Barisieur

Model: 02

Color: Black

Coffee Maker Type: Drip Coffee Machine

Filter Type: Reusable

Power: 500W Induction Boiler

Voltage: 2.3E+2 Volts (AC)

Dimensions: 6.97 x 11.02 x 3.7 inches

Item Weight: 6 pounds

Included Components: Filter

Special Features: Timer, Milk Cooler, USB Charging Port, Power Outage Time Retention

UPC: 655295731865
