## smarTrike STR3

# smarTrike STR3 6-in-1 Folding Tricycle Instruction Manual

Model: STR3 (5021533)

Brand: smarTrike

## INTRODUCTION

---

The smarTrike STR3 is a versatile 6-in-1 folding tricycle designed to grow with your child from 10 months to 3 years. It transitions seamlessly from a parent-controlled push stroller for infants to an independent tricycle for toddlers, promoting motor skills, confidence, and balance. This manual provides essential information for the safe assembly, operation, and maintenance of your smarTrike STR3.

The smarTrike STR3 tricycle in its complete, assembled form, showcasing its design and features.

## SETUP

### Initial Assembly

The smarTrike STR3 requires initial assembly. Please refer to the detailed instructions and diagrams included in your product packaging for step-by-step guidance. Ensure all components, including the frame, wheels, seat, parent handle, and canopy, are correctly aligned and securely fastened before first use. Verify that all locking mechanisms are engaged.

### Folding for Storage and Transport

The STR3 features a compact and simple folding mechanism for convenient storage and transport. No disassembly is required for folding.

1. Locate the folding release buttons, typically found on the frame or near the parent handle.

2. Press the release buttons and follow the specific sequence outlined in your product manual to collapse the tricycle into its compact form.
3. Ensure all parts are securely locked in the folded position before lifting or transporting.

### OPERATING INSTRUCTIONS

---

#### 6-in-1 Functionality

The smarTrike STR3 adapts through six stages to suit your child's developmental needs:

# STR3 cresce con il tuo Bambino!

**10-18**  
mesi

**18-30**  
mesi

**30-36+**  
mesi

**6 configurazioni**

su misura per ogni età del  
vostro bambino!

This diagram visually explains the six adaptable configurations of the smarTrike STR3, designed to evolve with your child from infant to toddler.

- **Stage 1 (10+ months):** Parent-controlled push trike with full support, including safety bar and footrests.
- **Stages 2-5:** Gradual transition to child-controlled steering and pedaling, with removable safety bar, footrests, and parent handle as the child grows.
- **Stage 6 (36+ months):** Independent tricycle, allowing the child to steer and pedal on their own.

## Key Features

- **Touch Steering Technology:** The patented Touch Steering system allows parents to steer the tricycle with minimal effort, similar to a stroller.

# Guida la strada con un tocco di un dito

Tecnologia di sterzo touch brevettata

The patented Touch Steering system allows parents to effortlessly guide the tricycle with a light touch.

- **Parent Control Button:** A dedicated button allows parents to easily switch directional control between themselves and the child.

A dedicated button allows parents to easily switch between parent and child steering control.

- **5-Point Adjustable Harness:** Securely fasten your child with the adjustable 5-point harness for maximum safety.

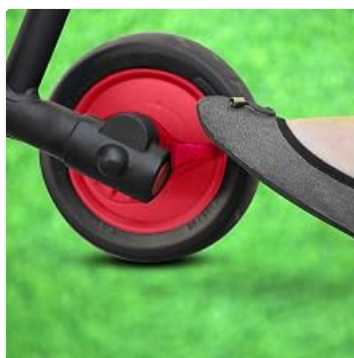

# Il triciclo più sicuro mai realizzato

Il triciclo con certificazione passeggero più sicuro al mondo!

The secure 5-point harness ensures the child remains safely fastened during rides.

- **Parent-Controlled Brake System:** Engage the rear wheel brakes for secure stops and parking.

The advanced brake system provides reliable stopping power, enhancing safety during use.

- **Patented Front Wheel Shock Absorber:** The front wheel features a patented shock absorber for a smoother ride over varied terrain.

# La guida più fluida che puoi ottenere

Ammortizzatori brevettati per le ruote anteriori

The front wheel features a patented shock absorber, providing a comfortable and smooth ride over various surfaces.

- **Reclinable Seat:** The seat can be reclined to provide maximum comfort for younger children or during rest periods.

The seat can be reclined to provide maximum comfort for younger children or during rest periods.

- **2-Phase Training Pedals:** These pedals support your child's development, transitioning from footrests to independent pedaling.

The 2-phase training pedals support your child's development, transitioning from footrests to independent pedaling.

## MAINTENANCE

- **Cleaning:** Clean plastic and metal parts with a damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals that could damage the materials.
- **Lubrication:** Periodically check all moving parts, such as wheel axles and steering joints. Apply a silicone-based lubricant if necessary to ensure smooth operation and prevent squeaking.
- **Storage:** Store the tricycle in a dry, cool place, away from direct sunlight and extreme temperatures. This helps prevent material degradation and extends the product's lifespan.
- **Inspections:** Regularly inspect all screws, bolts, and fasteners to ensure they are tight. Check wheels and tires for any signs of wear, damage, or punctures.

## TROUBLESHOOTING

- **Difficulty Steering (Parent Handle):** If the front wheel does not respond well to the parent handle, ensure the steering control button is correctly engaged for parent control. Check for any obstructions around the front wheel or steering mechanism.
- **Difficulty Folding:** Ensure all locking mechanisms are disengaged before attempting to fold. Apply gentle, consistent pressure. Refer to the assembly instructions for the correct folding sequence. If the handle touches the ground, adjust the handle height or ensure the folding sequence is followed precisely.
- **Loose Parts:** If any parts feel loose, tighten all screws and bolts. Do not overtighten, as this can strip threads or damage components.
- **Squeaking Noises:** Apply a small amount of silicone lubricant to moving joints and wheel axles. Ensure no dirt or debris is trapped in moving parts.

## SPECIFICATIONS

<b>Brand</b>	smarTrike
<b>Model Number</b>	5021533
<b>Material</b>	Plastic
<b>Item Weight</b>	7.55 Kilograms
<b>Product Dimensions (L x W x H)</b>	98L x 43W x 100H cm
<b>Minimum Manufacturer Age</b>	10 months

<b>Maximum Recommended Age</b>	36 months
<b>Maximum Weight Capacity</b>	15 Kilograms
<b>Assembly Required</b>	Yes

## WARRANTY INFORMATION

---

Warranty information for your smarTrike STR3 tricycle is typically provided with your product purchase. Please refer to the documentation included in the product packaging for specific details regarding warranty coverage, terms, and conditions. For any warranty-related inquiries, please contact smarTrike customer service directly.

## CUSTOMER SUPPORT

---

For further assistance, spare parts, or detailed troubleshooting not covered in this manual, please contact smarTrike customer support. You can typically find contact information on the official smarTrike website or within the product packaging. When contacting support, please have your model number (STR3 / 5021533) and purchase details readily available.
